<i>List of Contributors</i>	xiii
<i>Preface</i>	xv
<i>Introduction to the Series</i>	xxv
<b>Section 1 Design of Contracts and Securities</b>	<b>1</b>
Overview by Franklin Allen (Pennsylvania)	
<b>1 The Design of Debt Contracts</b>	<b>5</b>
<i>Paolo Fulghieri (UNC) and Eitan Goldman (Indiana University, Bloomington)</i>	
1. Introduction	6
2. Debt Contracts and Costly State Verification	8
2.1. <i>Multiperiod Contracts</i>	11
2.2. <i>Stochastic Monitoring</i>	12
3. Debt Contracts and the Allocation of Control Rights	13
4. Debt Contracts and the Provision of Incentives	17
5. Debt Contracts under Asymmetric Information	18
6. The Structure of Debt Contracts	24
6.1. <i>Seniority</i>	24
6.2. <i>Maturity Structure</i>	26
6.3. <i>Collateral</i>	32
6.4. <i>The Number of Creditors</i>	34
7. Concluding Remarks	36
<i>References</i>	36
<b>2 Subordination Levels in Structured Financing</b>	<b>41</b>
<i>Xudong An (SDSU), Yongheng Deng (USC), and Anthony B. Sanders (ASU)</i>	
1. Introduction	42
2. Structured Financing and the Pooling and Tranching of Assets	43

3. CMBS Structure	44
3.1. CMBS Subordination	45
4. Research Question and Empirical Approach	46
4.1. The Deal Subordination Regression	47
4.2. The Chow Test for Structural Change	47
5. Data	48
6. Results	51
6.1. Regression Results	51
6.2. Structural Change and Chow Tests	53
7. Conclusion	58
References	59

## **Section 2 Market Structure and Structure of Financial Markets** **61**

<b>3 Limit Order Markets: A Survey</b>	<b>63</b>
Christine A. Parlour (UCB) and Duane J. Seppi (CMU)	
1. Introduction	64
2. Modeling Limit Orders	68
2.1. Static Equilibrium Models	71
2.2. Equilibrium Models with Static Order Choice and a Terminal Penalty	73
2.3. Dynamic Optimal Control Models for Single Agents	74
2.4. Multiperiod Equilibrium Models	74
2.5. Limit Orders and Private Information	82
3. Market Design	84
3.1. Competition and Limit Order Markets	84
3.2. Imperfect Competition	87
3.3. Dealer Markets	88
3.4. Welfare	89
3.5. Robustness	90
3.6. Transparency	90
4. Questions for Future Research	92
References	93

## **Section 3 Financial Intermediary Structure** **97**

Overview by Mitchell Berlin (FRB Philadelphia)

<b>4 Bank Structure and Lending: What We Do and Do Not Know</b>	<b>107</b>
Philip E. Strahan (Boston College, Wharton, NBER)	
1. Introduction	108

2. Bank Size and Lending	109
2.1. <i>Do Large Banks Lend More Than Small?</i>	109
2.2. <i>Do Large Banks Lend Differently from Small Banks?</i>	111
2.3. <i>Bank Size, Organization Structure, and Lending</i>	116
2.4. <i>How Does Bank Size Affect Credit Availability?</i>	117
3. Deposit–Lending Synergies	121
3.1. <i>Do Deposits Make Banks Better Lenders?</i>	121
3.2. <i>Banks as Liquidity Providers</i>	123
4. Conclusion	125
<i>References</i>	128
<b>5 Optimal Industrial Structure in Banking</b>	<b>133</b>
<i>Loretta J. Mester (FRB Philadelphia, The Wharton School)</i>	
1. Introduction and Motivation	134
2. Efficiency Concepts	137
3. Empirical Implementation	140
3.1. <i>Bank Production</i>	140
3.2. <i>Cost Minimization</i>	141
3.3. <i>Profit Maximization</i>	144
3.4. <i>More Complicated Objectives</i>	145
4. Measurement	148
4.1. <i>Estimation Techniques</i>	148
4.2. <i>Functional Form, Variable Selection, and Variable Measurement</i>	150
4.3. <i>Special Issues in Banking</i>	151
5. Empirical Findings in the Literature	153
5.1. <i>Scale Economies</i>	153
5.2. <i>Scope Economies</i>	157
5.3. <i>X-Efficiency</i>	158
5.4. <i>Productivity</i>	159
6. Conclusion	160
<i>References</i>	160
<b>6 Commercial Banks in Investment Banking</b>	<b>163</b>
<i>Amar Gande (SMU)</i>	
1. Introduction	164
2. Tradeoffs in Combining Lending and Underwriting	168
2.1. <i>Costs of Combining Lending and Underwriting</i>	168
2.2. <i>Benefits of Combining Lending and Underwriting</i>	170
2.3. <i>Theory</i>	171
2.4. <i>Empirical Evidence from Debt Underwritings</i>	171
2.5. <i>Empirical Evidence from Equity Underwritings</i>	175
2.6. <i>Organizational Form of Underwriting</i>	178

3.	Competitive Effects of Commercial Bank Entry into Securities Underwriting	182
3.1.	<i>Theory</i>	182
3.2.	<i>Empirical Evidence on Commercial Bank Entry in 1989</i>	182
3.3.	<i>Empirical Evidence on the Financial Modernization Act of 1999</i>	184
4.	Conclusion	186
	<i>References</i>	186
 <b>Section 4 Mutual Funds</b>		<b>189</b>
	Overview by Sudipto Bhattacharya (LSE)	
7	Performance Measurement and Evaluation	191
	<i>Bruce Lehmann (UCSD) and Allan Timmermann (UCSD)</i>	
1.	Introduction	192
2.	Theoretical Benchmarks	194
2.1.	<i>Sources of Benchmarks</i>	197
2.2.	<i>A First Pass at Performance Measurement</i>	199
3.	Performance Measurement and Market Timing	202
3.1.	<i>Alternative Models of Market Timing</i>	205
3.2.	<i>Observable Information Signals</i>	218
4.	Performance Measurement and Attribution with Observable Portfolio Weights	220
4.1.	<i>Should Investors Hold Mutual Funds?</i>	229
4.2.	<i>Determining the Optimal Holdings in Mutual Funds</i>	231
5.	The Cross Section of Managed Portfolio Returns	233
5.1.	<i>Inference in the Absence of Performance Ability</i>	234
5.2.	<i>Power of Statistical Tests for Individual Funds</i>	241
5.3.	<i>Inference for Multiple Funds</i>	244
5.4.	<i>Empirical Specifications of Alpha Measures</i>	247
6.	Bayesian Approaches	249
6.1.	<i>Asset Mispricing and Investment in Mutual Funds</i>	252
7.	Conclusion	255
	<i>References</i>	256
8	The Behavior of Mutual Fund Investors	259
	<i>Lu Zheng (UCI)</i>	
1.	Introduction	260
2.	Examining Investor Behavior Using Fund Flows	261
2.1.	<i>Estimating Mutual Fund Flows</i>	261
2.2.	<i>The Decision to Choose Among Mutual Funds</i>	262
2.3.	<i>Mutual Fund Flows and Aggregate Market Returns</i>	271
3.	Investment Performance of Mutual Fund Investors	272

4. Investor Externality	274
4.1. <i>Liquidity Costs</i>	275
4.2. <i>Stale-Price Arbitrage</i>	277
5. Strategies of Mutual Funds	277
6. Conclusion	280
<i>References</i>	280
<b>9 Incentives in Funds Management: A Literature Overview</b>	<b>285</b>
<i>Sudipto Bhattacharya (LSE), Amil Dasgupta (LSE), Alexander Guembel (Oxford), and Andrea Prat (LSE)</i>	
1. Introduction	288
2. Theories of Incentives for Fund Managers and Informative Experts	289
2.1. <i>Principal-Agent Models: Effort Choice, Delegation, and Screening</i>	289
2.2. <i>Optimal Contracts Based on Verifiable Portfolio Composition Choices and Returns</i>	290
2.3. <i>Returns-Based and Relative Performance-Based Contracts</i>	291
2.4. <i>Conformist Trading: The Roles of Career Concerns</i>	294
2.5. <i>Fund Manager Incentives and Uninformed Trading</i>	297
2.6. <i>General Equilibrium Implications of Fund Manager Incentives</i>	299
3. Evidence on the Choices and Rewards of Analysts and Fund Managers	301
4. Conclusion	303
<i>References</i>	303
<b>Section 5 Regulation</b>	<b>305</b>
Overview by Mark J. Flannery, University of Florida	
<b>10 Consolidation in the U.S. Banking Industry: Is the “Long, Strange Trip” About to End?</b>	<b>309</b>
<i>Kenneth D. Jones (FDIC) and Tim Critchfield (FDIC)</i>	
1. Overview of Structural Change in the U.S. Banking Industry 1984–2003	311
1.1. <i>Industry Size</i>	311
1.2. <i>Industry Concentration</i>	315
2. Fundamental Causes of Consolidation	318
2.1. <i>Environmental Factors</i>	318
2.2. <i>Microeconomic Factors in Merger Decisions</i>	324
3. The Effects of Consolidation	325
4. Projections of Banking Industry Structure	333
4.1. <i>Review of Previous Projections and Their Methodologies</i>	333
4.2. <i>New Linear Extrapolations: A Comparison with the Literature</i>	336
4.3. <i>Beyond Linear Extrapolations</i>	338
5. Conclusion	341
<i>References</i>	343

<b>11 Safety, Soundness, and the Evolution of the U.S. Banking Industry</b>	<b>347</b>
<i>Robert DeYoung (Kansas)</i>	
1. Introduction	348
2. The Evolution of the U.S. Banking Industry	349
2.1. <i>Financial Innovation and Technological Change</i>	350
2.2. <i>Regulatory Reaction to Financial Innovation and Technological Change</i>	353
2.3. <i>Widespread Technology Adoption and Industry Transformation</i>	353
3. A Stylized View of Banking Strategies	356
3.1. <i>Prederegulation</i>	358
3.2. <i>Postderegulation</i>	358
4. Evidence Consistent with the Strategic Map	360
5. Further Implications of Strategic Change	363
5.1. <i>Industry Structure</i>	363
5.2. <i>Noninterest Income</i>	366
5.3. <i>Financial Performance</i>	368
6. Is the Industry Safe and Sound Today?	369
<i>References</i>	371
<b>12 What Caused the Bank Capital Buildup of the 1990s?</b>	<b>375</b>
<i>Mark J. Flannery (Florida) and Kasturi P. Rangan (CWRU and HBS)</i>	
1. Introduction	376
2. Determining a Bank's Optimal Leverage	378
3. Rising U.S. Bank Capitalization, 1986–2001	381
3.1. <i>The Supervisors' Focus: Book Capital Ratios</i>	381
3.2. <i>Investors' Focus: Market Capital Ratios</i>	383
3.3. <i>BHC Portfolio Volatility and Default Risks</i>	384
3.4. <i>Possible Causes of the Increased Capitalization</i>	386
4. Regression Model	388
4.1. <i>Lags in Adjusting Toward Target Capitalization</i>	390
4.2. <i>Econometric Issues</i>	392
4.3. <i>Data</i>	393
5. Estimation Results	395
5.1. <i>Decomposing the Change in BHC Capitalization</i>	398
6. Do Higher Market Ratios Reflect Stricter Regulatory Constraints?	401
7. Robustness	404
7.1. <i>Adjust for Possible Safety Net Subsidies in MKTRAT</i>	405
7.2. <i>Alternative Instrument for BHCs' Realized Stock Return</i>	405
7.3. <i>Estimates for the 20 Largest Banks</i>	405
7.4. <i>Estimate for 80 "Next Largest" Banks</i>	407
7.5. <i>Excluding the Charter Value Proxy</i>	407

8. Summary and Implications	407
<i>References</i>	408
Appendix	411
<i>Estimating BHC Risk-Weighted Assets (RWA) in the 1986–91 Period</i>	411
<b>13 Basel II: A Case for Recalibration</b>	<b>413</b>
<i>Paul H. Kupiec (FDIC)</i>	
1. Introduction	414
2. A Review of the AIRB Capital Framework	415
2.1. <i>Discussion</i>	418
3. The AIRB and Financial Stability	420
4. Establishing a Sound Benchmark for Risk Measurement Practices	423
4.1. <i>The Need for Capital for Bank Interest Expenses</i>	423
4.2. <i>Procyclicality of the AIRB Soundness Standard</i>	427
4.3. <i>Incorporating Portfolio Interest Income</i>	428
4.4. <i>Capital for Systematic Risk in PD and LGD</i>	430
4.5. <i>Random Loss Given Default and “Downturn” LGD</i>	431
4.6. <i>Asymptotic Portfolio Loss Distribution</i>	432
4.7. <i>Random Exposures at Default (EADs)</i>	436
5. Conclusions	437
<i>References</i>	438
<b>Section 6 Competition and Regulation in Banking</b>	<b>441</b>
Overview by Xavier Vives (IESE Business and UPF)	
<b>14 Competition and Regulation in Banking</b>	<b>449</b>
<i>Elena Carletti (Frankfurt)</i>	
1. Introduction	450
2. Bank Instability and the Need of Regulation	452
2.1. <i>Bank Fragility: Individual Runs and Systemic Crises</i>	452
2.2. <i>Excessive Risk Taking</i>	457
2.3. <i>The Need of Regulation</i>	458
3. Competition in Banking	461
3.1. <i>Competition Under Asymmetric Information</i>	461
3.2. <i>Competition and Switching Costs</i>	463
3.3. <i>Competition and Networks</i>	464
4. Competition and Stability: A Positive or a Negative Link?	466
4.1. <i>Market Structure and Financial Fragility</i>	467
4.2. <i>Market Structure and Risk Taking</i>	470

5. Competition and Regulation	473
6. Conclusion	479
<i>References</i>	479
<b>15 Competition and Regulation in the Banking Sector: A Review of the Empirical Evidence on the Sources of Bank Rents</b>	<b>483</b>
<i>Hans Degryse and Steven Ongena (CentER, Tilburg)</i>	
1. Introduction	485
2. Measuring Banking Competition	488
2.1. <i>Traditional Industrial Organization</i>	488
2.2. <i>New Empirical Industrial Organization</i>	492
3. Competition: Conduct and Strategy	499
3.1. <i>Market Structure and Conduct</i>	499
3.2. <i>Market Structure and Strategy: Product Differentiation and Network Effects</i>	509
4. Switching Costs	510
4.1. <i>Evidence on the Existence, Magnitude, and Determinants of Switching Costs</i>	511
4.2. <i>Switching Costs and Conditions: Relationships as a Source of Bank Rents?</i>	521
4.3. <i>Market Structure and Market Presence: Bank Orientation and Specialization</i>	527
5. Location	530
5.1. <i>Distance Versus Borders</i>	530
5.2. <i>Distance and Conditions: Spatial Pricing</i>	531
5.3. <i>Distance and Conditions: Availability</i>	532
5.4. <i>Distance and Strategy: Branching</i>	533
5.5. <i>Borders and Conduct: Segmentation</i>	533
5.6. <i>Borders and Strategy: Entry and M&amp;As</i>	534
6. Regulation	537
6.1. <i>Regulation and Market Structure</i>	537
6.2. <i>Regulation and Conduct</i>	538
6.3. <i>Regulation and Strategy</i>	538
6.4. <i>Regulation and Financial Stability and Development</i>	539
7. Conclusion	540
<i>References</i>	542
