Foreword	xiii
Preface.....	xv
Acknowledgments	xvii
Introduction.....	xix
About the Authors.....	xxiii
List of Commonly Used Acronyms.....	xxv

PART I: WHAT DOES IT CONTRIBUTE TO THE BUSINESS?

1	What Should the Business Expect from IT?.....	3
	Information for Decisions.....	5
	Value for Money	6
	Risk Management.....	7
	Innovation	8
	Process.....	9
	Responsiveness.....	11
	Summary	12
	References.....	12
2	How Do I Measure the Value of IT?	13
	What Is Value?.....	13
	Why Is It Important to Measure IT Value?.....	15
	Financial Value Measures.....	16
	Total Cost of Ownership (TCO)	16
	Return on Investment (ROI)	16
	Economic Value Added (EVA).....	17
	Real Options Valuation (ROV)	17
	Return on Assets (ROA)	18
	Return on Infrastructure Employed (ROIE).....	18
	Non-Financial Value Measures	19
	Multi-Dimensional Value	19

	Strategic Value	21
	Using IT Value Measurements for Decisions	25
	Dashboards.....	26
	The Business Case.....	27
	Value Visualization	29
	Summary	31
	References.....	31
3	How Much IT Is Enough?	33
	ROI or Return on Investment for IT Spending.....	34
	IT Spending as a Percentage of Gross Company Revenue.....	36
	IT Distribution Analysis.....	36
	Organizational Evaluation	39
	Containing Cost Versus Innovation.....	40
	Summary.....	42
	References.....	42
4	Am I Paying Too Much for IT?.....	43
	What Is a Budget?.....	44
	Defining a Budget for IT	44
	IT as a Percent of Revenue.....	46
	IT as a Percent of Total Operating Expenses (Opex).....	46
	IT as a Strategic Business Partner	47
	IT Poised to Enable the Business Strategy.....	51
	Capitalizing IT Expenses.....	52
	Monthly Budget Review	54
	Monthly Project Review	55
	Summary.....	56
	References.....	56
 PART II: WHY SHOULD WE CARE ABOUT IT GOVERNANCE?		
5	Who Governs IT?	59
	What Is IT Governance?.....	59
	Key Elements of IT Governance	60
	IT Principles Decisions.....	60
	IT Architecture Decisions.....	61
	IT Infrastructure Decisions	62
	Business Needs Decisions	63
	IT Investment and Prioritization Decisions	63
	Decision Input and Decision Making Models	64
	Summary.....	69
	Reference	70

6	What Models Should IT Use?	71
	Capability Maturity Model Integration (CMMI®).....	72
	Control Objectives for Information and Related Technology (COBIT®) ...	77
	IT Infrastructure Library (ITIL®).....	79
	Service Strategy Processes.....	84
	Service Design Processes.....	86
	Service Transition Processes.....	87
	Service Operation Processes.....	89
	Continual Service Improvement Processes.....	89
	International Organization for Standardization (ISO).....	90
	Project Management.....	92
	Six Sigma.....	93
	Summary.....	98
	References.....	98
7	Are We Outsourcing Effectively?	99
	Why Should We Outsource or Why Are We Outsourcing?	100
	What Are Our Competitors Outsourcing Today?.....	101
	What Should We Be Outsourcing?	105
	Is Our Governance of Outsourcing Appropriate?.....	107
	Are We Engaging With Our Outsourcing Vendors Appropriately?.....	111
	Are Our Service Level Agreements (SLAs) Driving the Behavior We Need?	115
	The SLA Framework.....	117
	Identifying Service Level Measures.....	117
	Measuring Levels of Service.....	118
	Monitoring Performance	119
	Summary.....	120
	References.....	120
8	What Tools Should IT Use?	121
	What Are the Business Benefits of Using IT Tools?	122
	What Are the Business Risks of Using IT Tools?	124
	How Will IT React to Business Questions About Tools?	125
	An IT Software Tools Taxonomy.....	127
	Service Management Tools.....	127
	Service Support Tools.....	128
	Service Delivery Tools.....	132
	What Criteria Should We Use for Evaluating Software Tools?.....	133
	What Are the Best Options for Delivering IT Tools to End Users?.....	134
	Summary.....	135
	References.....	135

PART III: WHY SHOULD WE MEASURE IT PERFORMANCE?

9	How Do I Measure IT Performance?	139
	IT Value Contribution.....	140
	Four Key Performance Measures (+ One)	142
	Cost.....	143
	Quality.....	143
	Duration.....	143
	Customer Satisfaction.....	144
	The Missing Measure: Size.....	144
	Function Point Analysis	146
	Combing the Key Performance Measures	147
	Cost and Size.....	147
	Duration and Size.....	148
	Quality and Size.....	148
	Effort and Size Productivity.....	149
	A Successful Measurement Program	150
	Determining the Source of the Data.....	150
	Ensuring the Integrity of the Data.....	151
	Reporting the Data.....	151
	Summary.....	152
	References.....	153
10	Is IT Operating Effectively?	155
	Introducing the Measurement Model	155
	Quantitative Data.....	156
	Qualitative Data	158
	Collecting the Data	160
	Quantitative Data Collection	161
	Qualitative Data Collection.....	161
	Analyzing the Data and Reporting the Results.....	163
	Measuring Effectiveness.....	172
	Improved Estimating Practices	173
	Summary.....	175
	References.....	175
11	Where Are We in Relation to Industry Peers?	177
	Comparing to Industry Data	178
	Where Does the Data Come From?.....	178
	Comparative Data Points.....	180
	Developing a Baseline.....	180
	Initialization	181
	Establishing Baseline Objectives	181

Defining Baseline Deliverables.....	181
Identifying Key Data Elements.....	182
Data Collection.....	182
Defining the Data Collection Process.....	182
Collecting Quantitative Data.....	182
Collecting Qualitative Data.....	182
Analysis.....	183
Establishing Performance Profiles.....	183
Establishing Internal Benchmarks.....	183
Comparing Findings to Industry Data.....	183
Project Performance Baseline.....	183
The Baseline Process.....	184
The Collection Process.....	184
Quantitative Data.....	184
Qualitative Data.....	185
Baseline Deliverables.....	185
Analysis of Process Strengths and Weaknesses.....	187
Not-for-Profit Industry Data Sources.....	189
ISBSG.....	189
Software Engineering Institute Data.....	190
The Importance of Auditing.....	191
Objectives of an Audit.....	192
Scope of the Audit.....	192
The Auditing Process.....	193
Problem Resolution.....	194
Summary.....	194
References.....	195

12 How Can We Do IT Better? 197

The IT Industry Context.....	197
Case Studies.....	199
Case Study 1 – Large Financial Institution.....	200
Case Study 2 – Mid-Size Insurance Company.....	202
Case Study 3 – Large Service Organization.....	203
Performance Modeling.....	204
Summary.....	205

PART IV: HOW SHOULD WE CHANGE?

13 How Can We Manage IT Changes?..... 209

The Need for Change Management.....	209
Types of Change.....	210

Seven Principles of Managing Change.....	211
Principle 1: Two Levels of Management Support.....	211
Principle 2: Proper Funding.....	212
Principle 3: The Business Case.....	213
Principle 4: Setting and Managing Expectations.....	213
Principle 5: It's About the People.....	214
Principle 6: Communicate, Communicate, Communicate.....	214
Principle 7: Measurement Is Key.....	214
Managing Resistance.....	215
Using a Change Agent or a Coach.....	217
Summary.....	218
Further Readings.....	218
14 How Should IT Manage Risk?.....	219
Why Perform Risk Planning?.....	220
How to Begin Risk Planning.....	221
How Does Security Relate to Risk Planning?.....	225
What Legislation Has Affected Risk Planning, and Why?.....	226
Sarbanes–Oxley Act of 2002.....	226
Health Insurance Portability and Accountability Act of 1996 (HIPAA).....	227
Gramm–Leach–Bliley Act of 1999 (GLB Act).....	228
Summary.....	229
Reference.....	229
15 How Should IT Manage Its People?.....	231
What Should You Expect From Your CIO?.....	232
Leadership.....	232
Management Skills.....	233
Communication Skills.....	234
Technical Expertise.....	235
Business Expertise.....	235
Vision — Ability to Create and Manage Change.....	236
Ability to Hire, Develop, and Retain High-Quality IT Professionals Who Can Work Together.....	237
International or Global Experience.....	239
Industry-Specific Experience.....	240
Relationship Skills.....	240
IT Staff as Assets.....	240
IT Staff and Change.....	243
IT Staff as Stakeholders.....	245
Summary.....	248
References.....	248

16	What Should IT Expect From the Business?	249
	It's the Relationship That Matters	249
	Develop an Operating Model	250
	Statement of Commitment	253
	Summary	254
	References.....	254
Index		255
