## PART I. INTRODUCTION

|          |   |    |
|----------|---|----|
| <b>1</b> | <b>GENERAL INTRODUCTION</b>   | 1  |
| 1.1      | <b>Introduction</b>   | 1  |
| 1.2      | <b>The risk management process</b>  | 2  |
| 1.2.1    | Hazard identification (step 1)  | 3  |
| 1.2.2    | Exposure assessment (step 2)  | 4  |
| 1.2.3    | Effects assessment (step 3)   | 4  |
| 1.2.4    | Risk characterization (step 4)  | 5  |
| 1.2.5    | Risk classification (step 5)  | 6  |
| 1.2.6    | Identification and risk-benefit analysis of risk reduction options (step 6) | 6  |
| 1.2.7    | Risk reduction (step 7)   | 8  |
| 1.2.8    | Monitoring and review (step 8)  | 10 |
| 1.3      | <b>Further developments in the risk management process</b>                  | 11 |
| 1.3.1    | Focus on risk reduction and responsible care                                | 12 |
| 1.3.2    | Risk communication and stakeholder participation                            | 12 |
| 1.3.3    | <i>Risk assessment policy and the role of science</i>                       | 14 |
| 1.3.4    | Integration in risk assessment  | 17 |
| 1.4      | <b>Disciplines, roles and responsibilities in risk management</b>           | 18 |
| 1.5      | <b>How risks are expressed</b>  | 19 |
| 1.6      | <b>Perception of risks</b>  | 20 |
| 1.7      | <b>Uncertainty, variability and precaution</b>                              | 21 |
| 1.7.1    | Uncertainty and variability   | 21 |
| 1.7.2    | Quantifying uncertainty and validation                                      | 23 |
| 1.7.3    | Precaution  | 25 |
| 1.8      | <b>Concluding remarks</b>   | 27 |
| 1.9      | <b>Contents of the book</b>   | 29 |

## PART II. EXPOSURE ASSESSMENT

|           |  |    |
|-----------|--|----|
| <b>2.</b> | <b>EMISSIONS OF CHEMICALS TO THE ENVIRONMENT</b> | 37 |
| 2.1       | <b>Introduction</b>                              | 37 |
| 2.2       | <b>Chemical substances</b>                       | 37 |
| 2.2.1     | Origin of chemical substances                    | 37 |
| 2.2.2     | Desirable and undesirable substances             | 38 |

|            |   |     |
|------------|---|-----|
| <b>2.3</b> | <b>Emissions and sources</b>  | 38  |
| 2.3.1      | Entry into the environment  | 38  |
| 2.3.2      | Types of emissions and sources                                      | 43  |
| 2.3.3      | Emissions in relation to risk assessment                            | 44  |
| 2.3.4      | Prevention and risk reduction measures                              | 46  |
| <b>2.4</b> | <b>Data availability and generation</b>                             | 46  |
| 2.4.1      | Measurements  | 46  |
| 2.4.2      | Specific calculations   | 48  |
| 2.4.3      | The application of emission factors                                 | 49  |
| 2.4.4      | Generic approach to emission estimation                             | 50  |
| 2.4.5      | Three examples of estimating of emissions                           | 55  |
| <b>2.5</b> | <b>Development of emission estimation and risk assessment tools</b> | 59  |
| <b>2.6</b> | <b>Emission estimation and REACH</b>                                | 61  |
| 2.6.1      | Development of exposure scenarios                                   | 61  |
| 2.6.2      | Challenges ahead  | 67  |
| <b>2.7</b> | <b>Further reading</b>  | 68  |
| <br>       |   |     |
| <b>3.</b>  | <b>TRANSPORT, ACCUMULATION AND TRANSFORMATION PROCESSES</b>         | 73  |
| <b>3.1</b> | <b>Introduction</b>   | 73  |
| <b>3.2</b> | <b>Transport processes</b>  | 73  |
| 3.2.1      | Transport mechanisms  | 73  |
| 3.2.2      | Equilibrium partitioning between phases                             | 74  |
| 3.2.3      | Intramedia transport in air   | 80  |
| 3.2.4      | Intramedia transport in water                                       | 80  |
| 3.2.5      | Intermedia transport  | 82  |
| <b>3.3</b> | <b>Bioaccumulation</b>  | 90  |
| 3.3.1      | Introduction  | 90  |
| 3.3.2      | Aquatic bioaccumulation processes                                   | 90  |
| 3.3.3      | Factors affecting bioconcentration                                  | 97  |
| 3.3.4      | Biomagnification  | 101 |
| 3.3.5      | Accumulation in terrestrial plants                                  | 106 |
| 3.3.6      | Accumulation in terrestrial invertebrates                           | 111 |
| 3.3.7      | Accumulation in mammals and birds                                   | 113 |
| 3.3.8      | Methods for measuring terrestrial bioaccumulation                   | 114 |
| <b>3.4</b> | <b>Abiotic transformation processes</b>                             | 114 |
| 3.4.1      | Introduction  | 114 |
| 3.4.2      | Hydrolysis  | 115 |
| 3.4.3      | Oxidation   | 117 |
| 3.4.4      | Reduction   | 118 |
| 3.4.5      | Photochemical degradation   | 119 |
| 3.4.6      | Methods for measuring abiotic degradation                           | 121 |
| <b>3.5</b> | <b>Biodegradation</b>   | 121 |
| 3.5.1      | Introduction  | 121 |
| 3.5.2      | Aerobic biodegradation and metabolic pathways                       | 122 |
| 3.5.3      | Anaerobic biodegradation  | 124 |
| 3.5.4      | Reasons for the environmental persistence of chemicals              | 126 |
| 3.5.5      | Kinetics of biodegradation  | 127 |
| 3.5.6      | Assessing biodegradability and biodegradation rates                 | 129 |

---

|             |   |     |
|-------------|---|-----|
| <b>3.6</b>  | <b>Biotransformation</b>  | 133 |
| 3.6.1       | Introduction  | 133 |
| 3.6.2       | Effects of biotransformation on xenobiotics                                     | 133 |
| 3.6.3       | Types of biotransformation reactions  | 136 |
| 3.6.4       | Factors influencing enzyme activity   | 139 |
| 3.6.5       | Methods to measure biotransformation  | 141 |
| 3.6.6       | Biotransformation of some specific groups of compounds                          | 143 |
| 3.6.7       | Enzyme inhibition and induction   | 145 |
| 3.6.8       | Effect of enzyme induction on toxicity  | 146 |
| <b>3.7</b>  | <b>Bioavailability</b>  | 147 |
| 3.7.1       | Introduction  | 147 |
| 3.7.2       | Underlying concepts of bioavailability  | 150 |
| 3.7.3       | Inclusion of bioavailability in risk assessment                                 | 151 |
| <b>3.8</b>  | <b>Further reading</b>  | 152 |
| <b>4.</b>   | <b>ENVIRONMENTAL EXPOSURE ASSESSMENT</b>  | 159 |
| <b>4.1</b>  | <b>Introduction</b>   | 159 |
| 4.1.1       | Use of models in the assessment of exposure concentrations                      | 159 |
| 4.1.2       | Mass balance modelling  | 160 |
| 4.1.3       | Model types   | 164 |
| 4.1.4       | Models versus measurements  | 165 |
| <b>4.2</b>  | <b>Air models</b>   | 166 |
| 4.2.1       | Introduction  | 166 |
| 4.2.2       | Model types   | 166 |
| 4.2.3       | Some examples of operational models   | 167 |
| 4.2.4       | Application of a local air model in the risk assessment of industrial chemicals | 168 |
| 4.2.5       | Input requirements for air models   | 170 |
| <b>4.3</b>  | <b>Water models</b>   | 171 |
| 4.3.1       | Introduction  | 171 |
| 4.3.2       | Simple dilution models  | 171 |
| 4.3.3       | Dispersion models   | 172 |
| 4.3.4       | Compartment models  | 173 |
| 4.3.5       | Estimation of the elimination of a chemical in a waste water treatment plant    | 175 |
| 4.3.6       | Data requirements for water models  | 176 |
| <b>4.4.</b> | <b>Soil models</b>  | 177 |
| 4.4.1       | Introduction  | 177 |
| 4.4.2       | Fate processes in soil modelling  | 177 |
| 4.4.3       | Model types   | 178 |
| 4.4.4       | Use of soil models in the risk assessment of industrial chemicals               | 178 |
| 4.4.5       | Data requirements for soil models   | 180 |
| <b>4.5</b>  | <b>Multimedia models</b>  | 181 |
| 4.5.1       | Introduction  | 181 |
| 4.5.2       | Characteristics and assumptions   | 181 |
| 4.5.3       | Data requirements for multimedia models   | 182 |
| 4.5.4       | Applications and limitations  | 182 |
| 4.5.5       | Application of multimedia models  | 184 |
| <b>4.6</b>  | <b>Further reading</b>  | 189 |

|           |   |     |
|-----------|---|-----|
| <b>5.</b> | <b>HUMAN EXPOSURE ASSESSMENT</b>                                  | 195 |
| 5.1       | General introduction  | 195 |
| 5.2       | Human exposure through the environment                            | 196 |
| 5.2.1     | Introduction  | 196 |
| 5.2.2     | Choice of exposure scenario                                       | 196 |
| 5.2.3     | Exposure through food products                                    | 197 |
| 5.2.4     | Direct exposure through the environment                           | 200 |
| 5.2.5     | Derivation of the total daily uptake and sample calculations      | 200 |
| 5.3       | Consumer exposure assessment                                      | 202 |
| 5.3.1     | Introduction  | 202 |
| 5.3.2     | Consumer exposure scenarios                                       | 203 |
| 5.3.3     | Primary and secondary exposures associated with consumer products | 206 |
| 5.3.4     | Assessing exposure factors and data                               | 207 |
| 5.3.5     | Issues to be considered when performing an exposure assessment    | 208 |
| 5.3.6     | Risk management measures for consumers                            | 208 |
| 5.3.7     | Presenting and reviewing the results in relation to uncertainty   | 211 |
| 5.4       | Occupational exposure   | 212 |
| 5.4.1     | Introduction  | 212 |
| 5.4.2     | The workplace exposure scenario                                   | 214 |
| 5.4.3     | The process for exposure assessment                               | 217 |
| 5.4.4     | Exposure and risk management measures                             | 218 |
| 5.4.5     | Discussion  | 221 |
| 5.5       | Further reading   | 221 |

## PART III. EFFECTS ASSESSMENT AND RISK CHARACTERIZATION

|           |  |     |
|-----------|--|-----|
| <b>6.</b> | <b>TOXICITY TESTING FOR HUMAN HEALTH RISK ASSESSMENT</b> | 227 |
| 6.1       | Introduction   | 227 |
| 6.2       | General aspects of toxicity                              | 228 |
| 6.3       | Internal human exposure                                  | 229 |
| 6.3.1     | Experimental biokinetics                                 | 229 |
| 6.3.2     | (B)iokinetic modelling                                   | 234 |
| 6.4       | Toxicity studies   | 235 |
| 6.4.1     | General aspects  | 235 |
| 6.4.2     | Acute effects: acute toxicity                            | 240 |
| 6.4.3     | Acute local effects: irritation and corrosivity          | 241 |
| 6.4.4     | Sensitization  | 242 |
| 6.4.5     | Repeated-dose toxicity                                   | 244 |
| 6.4.6     | Genotoxicity   | 245 |
| 6.4.7     | Carcinogenicity  | 248 |
| 6.4.8     | Reproductive and developmental toxicity                  | 251 |
| 6.4.9     | Specific studies and toxicogenomics                      | 254 |
| 6.4.10    | <i>In vitro</i> tests for toxicity                       | 256 |
| 6.5       | Human health hazard assessment                           | 258 |
| 6.5.1     | Introduction   | 258 |
| 6.5.2     | Classification and labelling                             | 258 |
| 6.5.3     | Dose-response assessment                                 | 260 |
| 6.5.4     | Default assessment factors                               | 266 |
| 6.5.5     | Exposure to mixtures of chemicals                        | 270 |
| 6.5.6     | Concluding remarks                                       | 272 |

## **PART V. RISK ASSESSMENT AND MANAGEMENT OF INDUSTRIAL CHEMICALS**

|             |   |     |
|-------------|---|-----|
| <b>12.</b>  | <b>THE MANAGEMENT OF INDUSTRIAL CHEMICALS IN THE EU</b> | 511 |
| <b>12.1</b> | <b>Introduction</b>                                     | 511 |
| 12.1.1      | Background  | 512 |
| 12.1.2      | Towards solutions                                       | 514 |
| 12.1.3      | The further development of REACH                        | 515 |
| 12.1.4      | Aim of the REACH legislation                            | 515 |
| 12.1.5      | Costs and benefits                                      | 516 |

|             |   |     |
|-------------|---|-----|
| <b>12.2</b> | <b>A brief overview of REACH</b>  | 516 |
| 12.2.1      | Introduction  | 516 |
| 12.2.2      | Registration (Title II)   | 517 |
| 12.2.3      | Data sharing and avoidance of unnecessary testing (Title III)                 | 524 |
| 12.2.4      | Information in the supply chain (Title IV)                                    | 524 |
| 12.2.5      | Downstream users (Title V)  | 525 |
| 12.2.6      | Evaluation (Title VI)   | 525 |
| 12.2.7      | Authorization (Title VII)   | 526 |
| 12.2.8      | Restrictions (Title VIII)   | 527 |
| 12.2.9      | Fees and charges (Title IX)   | 528 |
| 12.2.10     | Agency (Title X)  | 529 |
| 12.2.11     | Classification and labelling inventory (Title XI)                             | 529 |
| 12.2.12     | Information (Title XII)   | 530 |
| 12.2.13     | Competent authorities (Title XIII)  | 530 |
| 12.2.14     | Enforcement (Title XIV)   | 530 |
| 12.2.15     | Transitional and final provisions (Title XV)                                  | 531 |
| <b>12.3</b> | <b>Elements of the chemical safety report</b>                                 | 531 |
| 12.3.1      | General introduction  | 531 |
| 12.3.2      | Environmental hazard assessment   | 533 |
| 12.3.3      | Human health hazard assessment  | 534 |
| 12.3.4      | Physicochemical hazard assessment   | 534 |
| 12.3.5      | PBT and vPvB assessment   | 534 |
| 12.3.6      | Exposure assessment   | 535 |
| 12.3.7      | Risk characterization for human health and the environment                    | 536 |
| 12.3.8      | Potential iterations of the CSA   | 537 |
| 12.3.9      | Risk management measures  | 537 |
| 12.3.10     | Communicating uncertainty in the CSA  | 540 |
| 12.3.11     | Format of the CSR   | 540 |
| 12.3.12     | Concluding remarks  | 541 |
| <b>12.4</b> | <b>Safety Data Sheets</b>   | 541 |
| 12.4.1      | Safety data sheets for dangerous substances                                   | 542 |
| 12.4.2      | Information required in the SDS   | 542 |
| 12.4.3      | Information down the supply chain   | 542 |
| 12.4.4      | Information up the supply chain   | 543 |
| 12.4.5      | Information for workers and obligation to keep and make information available | 543 |
