

# Education: the necessary Utopia

Jacques Delors

13

Looking ahead	15
Tensions to be overcome	16
Designing and building our common future	18
Learning throughout life: the heartbeat of society	22
The stages and bridges of learning: a fresh approach	24
Getting the reform strategies right	28
Broadening international co-operation in the global village	33

## PART ONE: OUTLOOKS

### 1. From the local community to a world society

39

An increasingly crowded planet	39
↳ Towards the globalization of human activity	41
↳ Universal communication	43
↳ The many faces of global interdependence	44
An uncertain world	46
The local and the global	47
Understanding the world and understanding others	49
Pointers and recommendations	51

### 2. From social cohesion to democratic participation

53

Education and the crisis of social cohesion	54
Education versus exclusion	56
✓ Education and the forces at work in society: some principles for action	58
Democracy participation	61
<i>Civic education and the practice of citizenship</i>	61
<i>Information societies and learning societies</i>	63
Pointers and recommendations	67

# 3. From economic growth to human development

69

- Highly inequitable economic growth 69
- ✗ The demand for education for economic purposes 70
- The uneven distribution of knowledge 72
- Education for women, an essential means of promoting development 74
- Counting the cost of progress 76
- ✗ Economic growth and human development 78
- Education for human development 78
- Pointers and recommendations 81

## PART TWO: PRINCIPLES

# 4. The four pillars of education

85

- Learning to know 86
- Learning to do 88
  - From skill to competence* 89
  - The 'dematerialization' of work and the rise of the service sector* 90
  - Work in the informal economy* 91
- Learning to live together, learning to live with others 91
  - Discovering others* 92
  - Working towards common objectives* 93
- Learning to be 94
- Pointers and recommendations 97

# 5. Learning throughout life

99

- An imperative for democracy 100
- A multidimensional education 102
- New times, fresh fields 103
- Education at the heart of society 105
- Seeking out educational synergies 109
- Pointers and recommendations 111

## 6. From basic education to university

115

A passport to life: basic education	117
<i>Early childhood education</i>	121
<i>Children with special needs</i>	122
<i>Adult basic education and literacy</i>	122
<i>Community participation and responsibility</i>	122
Secondary education: the crossroads of life	125
<i>Diversity in secondary education</i>	126
<i>Vocational guidance</i>	129
Higher education and education throughout life	130
<i>The functions of higher education</i>	131
<i>A place for learning and a source of knowledge</i>	132
<i>Higher education and the changing labour market</i>	133
<i>The university as a place of culture and learning open to all</i>	134
<i>Higher education and international co-operation</i>	135
The vital need to combat under-achievement	136
Recognizing subsequently acquired skills by means of new methods of certification	138
Pointers and recommendations	139

## 7. Teachers in search of new perspectives

141

The world comes into the classroom	142
Expectations and responsibilities	144
Teaching: an art and a science	145
The quality of teachers	146
Learning what and how to teach	149
Working teachers	150
<i>The school and the community</i>	150
<i>The administration of the school</i>	151
<i>Drawing teachers into decision-making on educational matters</i>	152
<i>Favourable conditions for effective teaching</i>	152
Pointers and recommendations	153

# 8. Choices for education: the political factor

155

Choice of education means choice of society	156
<i>The demand for education</i>	156
<i>Evaluation and public debate</i>	157
Opportunities offered by innovation and decentralization	158
<i>Involving the stakeholders in the educational undertaking</i>	158
<i>Encouraging genuine autonomy</i>	159
The need for overall regulation of the system	160
Economic and financial choices	162
<i>The force of financial constraints</i>	162
<i>Pointers for the future</i>	165
Using the resources of the information society	169
<i>The impact of the new technologies on society and on education</i>	169
<i>A wide-ranging debate</i>	171
Pointers and recommendations	176

# 9. International co-operation: educating the global village

177

Women and girls: education for equality	179
Education and social development	180
Making debt-swaps work for education	181
A UNESCO observatory for the new information technologies	182
From aid to partnership	183
Scientists, research and international exchanges	185
New tasks for UNESCO	186
Pointers and recommendations	189

## EPILOGUE

- Excellence in education:  
investing in human talent In'am Al Mufti 193
- Upgrading the quality of school education Isao Amagi 199
- Revitalizing the community spirit:  
a glimpse of the socializing role of  
the school in the next century Roberto Carneiro 201
- Education in Africa today Fay Chung 205
- Cohesion, solidarity and exclusion Bronislaw Geremek 209
- Creating opportunities Aleksandra Kornhauser 215
- Education, empowerment and social  
healing Michael Manley 221
- Education for the global society Karan Singh 225
- Education for a multicultural world Rodolfo Stavenhagen 229
- Opening our minds  
for a better life for all Myong Won Suhr 235
- Interactions of education and culture  
for economic and human development:  
an Asian perspective Zhou Nanzhao 239

## APPENDICES

1. The work of the Commission 249
2. Members of the Commission 251
3. Mandate of the Commission 253
4. Distinguished advisers 256
5. Secretariat 258
6. Commission meetings 259
7. Individuals and institutions consulted 260
8. Follow-up 266
