

Contents

PART I. Setting the Scene	I
ONE Treating Anxiety Disorders: The State of the Art	3
<i>Cognitive Therapy and Anxiety</i>	3
<i>A Transdiagnostic View of Underlying Cognitive and Behavioral Processes</i>	5
<i>Current Models and Protocols</i>	7
<i>Embracing Complexity While Utilizing Specific Protocols</i>	21
<i>Conclusion</i>	23
PART II. Deepening Understanding and Securing Engagement	27
TWO Assessment: Investigating Appraisals in Depth	29
<i>Standard Methods of Accessing Appraisals</i>	30
<i>Targeting Higher Level Appraisals</i>	31
<i>Input from Memory in the Anxiety Disorders</i>	34
<i>How Should We Access “Hot Cognitions”?</i>	39
<i>Conclusion</i>	46
THREE Case Formulation: Making Sense of Complexity	48
<i>Principles Guiding Case Formulation</i>	49
<i>Applying these Principles to Resolve Problems in Formulation</i>	49
<i>Anxiety Disorders and Formulation Work: Mapping the Territory</i>	52
<i>Judging the Quality of a Case Formulation</i>	54
<i>Using Metaphors, Pictures, and Diagrams in Formulation Work</i>	56
<i>Formulating Interactions between People</i>	60
<i>Formulating Comorbidity with Different Kinds of Anxiety</i>	61
<i>Conclusion</i>	70

FOUR	Decentering from Thoughts: Achieving Objectivity	71
	<i>The Metacognitive Perspective</i> 72	
	<i>Aspects of Cognitive Therapy That Enhance Metacognitive Awareness</i> 72	
	<i>Specific Methods for Enhancing Metacognitive Awareness</i> 75	
	<i>Conclusion</i> 84	
PART III. Facilitating Emotional Processing		85
FIVE	Bringing About Lasting Change at the Deepest Level	87
	<i>Emotional Processing</i> 87	
	<i>Spontaneous Cognitive Change as a Result of Simply Evoking Hot Material</i> 88	
	<i>Using Traditional Cognitive Therapy Techniques to Prompt for Change, by Holding Old Material in Mind While Accumulating More Information</i> 90	
	<i>Using the Properties of Imagery to Bring About Cognitive Change</i> 93	
	<i>Unpacking and Transforming Metaphorical Images</i> 98	
	<i>Conclusion</i> 104	
SIX	The Role of Behavioral Experiments	106
	<i>The Role of Behavior in Maintaining Anxiety</i> 108	
	<i>Behavioral Interventions in Treatment</i> 109	
	<i>Behavioral Experiments and Experiential Learning</i> 111	
	<i>Creating Successful Behavioral Experiments: The Practicalities</i> 113	
	<i>Alan's Behavioral Experiments: A Clinical Example</i> 116	
	<i>Maximizing the Impact of Behavioral Experiments</i> 121	
	<i>Therapist-Guided In-Session Experiments</i> 126	
	<i>Conclusion</i> 127	
PART IV. Overcoming Three Major Obstacles to Progress		131
SEVEN	Avoidance of Affect	133
	<i>Transdiagnostic Features of Avoidance of Affect</i> 135	
	<i>The Meaning of Affect</i> 136	
	<i>Recognizing Avoidance of Affect</i> 137	
	<i>Making Sense of Avoidance of Affect: Theories, Causes, and Consequences</i> 138	
	<i>Strategies for Dealing with Avoidance of Affect</i> 142	
	<i>Pitfalls and Difficulties</i> 150	
	<i>Conclusion</i> 151	
EIGHT	Low Self-Esteem	153
	<i>A Cognitive Perspective</i> 154	
	<i>The Relationship between Anxiety and Low Self-Esteem</i> 154	
	<i>A Cognitive Model of Low Self-Esteem</i> 156	
	<i>The Role of Rules for Living</i> 159	
	<i>How the Bottom Line Is Triggered</i> 160	
	<i>How Low Self-Esteem Is Maintained</i> 160	
	<i>Treating Comorbid Anxiety and Depression: A Case Example</i> 161	
	<i>Applying the Model</i> 164	
	<i>Interventions Designed to Enhance Self-Esteem</i> 166	
	<i>Questioning the Bottom Line: Undermining the Evidence</i> 168	
	<i>Creating a New Bottom Line</i> 169	
	<i>Conclusion</i> 173	

NINE Dealing with Uncertainty 174

- Making Sense of Anxiety and Uncertainty* 174
- Anticipating and Avoiding Common Pitfalls* 176
- Strategies Based on Standard Applications of Cognitive Therapy* 178
- Acknowledging That Change Involves Taking Risks* 180
- Strategies Derived from the Treatment of GAD* 181
- Practical Tips* 184
- Strategies for Helping People to Live with Uncertainty* 187
- Conclusion* 190

PART V. Ending Treatment Productively 193

TEN Creating a Therapy “Blueprint” 195

- The Processes Involved in Ending Treatment* 196
- A Personal Blueprint for Treating Anxiety Disorders* 207
