

## CONTENTS

1	Introduction, by ROBERT H. WHITTAKER . . . . .	3
<b>Direct Gradient Analysis</b>		
2	Direct Gradient Analysis: Techniques, by ROBERT H. WHITTAKER . . . . .	7
3	Direct Gradient Analysis: Results, by ROBERT H. WHITTAKER . . . . .	33
4	Retgression and Coenocline Distance, by ROBERT H. WHITTAKER and GEORGE M. WOODWELL . . . . .	53
5	Russian (Ramensky) Approaches to Community Systematization, by L. N. SOBOLEV and V. D. UTEKHIN .	75
<b>Indirect Gradient Analysis</b>		
6	Sample Similarity and Species Correlation, by DAVID W. GOODALL . . . . .	105
7	Matrix and Plexus Techniques, by ROBERT P. MCINTOSH .	157
8	Wisconsin Comparative Ordination, by GRANT COTTAM, F. GLENN GOFF and ROBERT H. WHITTAKER . . . . .	193
9	L'analyse factorielle, by PIERRE DAGNELIE . . . . .	223
10	Ordination by Resemblance Matrices, by LAZSLO ORLOCI .	249
11	Evaluation of Ordination Techniques, by ROBERT H. WHITTAKER and HUGH G. GAUCH, Jr. . . . .	287
<b>Classification</b>		
12	Approaches to Classifying Vegetation, by ROBERT H. WHITTAKER . . . . .	323
13	The Physiognomic Approach, by JOHN S. BEARD . . . . .	355
14	Dominance-Types, by ROBERT H. WHITTAKER . . . . .	387
15	The Finnish School and Forest Site-Types, by TOOMAS E. A. FREY . . . . .	403
16	Synusial Approaches to Classification, by JAN J. BARKMAN .	435
17	Russian Approaches to Classification, by VERA D. ALEKSANDROVA . . . . .	493
18	North European Approaches to Classification, by HANS TRASS and NILS MALMER . . . . .	529
19	Numerical Classification, by DAVID W. GOODALL . . . . .	575
20	The Braun-Blanquet Approach, by VICTOR WESTHOFF and EDDY VAN DER MAAREL . . . . .	617
	Index . . . . .	727
