<b>Contents</b>		<b>vii</b>
<b>List of Contributors</b>		<b>xi</b>
<b>Credits and Acknowledgements</b>		<b>xvii</b>
<b>Preface</b>		<b>xix</b>
<b>SECTION I.</b>	<b>MOLECULAR PERSPECTIVES</b>	<b>1</b>
<b>Chapter I</b>	Chromatographic Analyses of Biogenic Melatonin and Its Related Indoleamines <i>T. Harumi, S. R. Pandi-Perumal, G. R. Martinez, P. Di Mascio and Y. Hayash</i>	<b>3</b>
<b>Chapter II</b>	5-Methoxylated Kynuramines – Biologically Active Melatonin Metabolites and Sources of New Products <i>Rüdiger Hardeland</i>	<b>23</b>
<b>Chapter III</b>	Advances on the Development of Subtype Selective Melatonin Ligands <i>Gilberto Spadoni and Annalida Bedini</i>	<b>33</b>
<b>Chapter IV</b>	The Interaction between Melatonin and Calmodulin: A NMR and Molecular Dynamics Study <i>Adrián G. Turjanski, Darío A. Estrin, Ruth E. Rosenstein, John E. McCormick, Stephen R. Martin, Annalisa Pastore, Rodolfo R. Biekořsky and Vincenzo Martorana</i>	<b>47</b>
<b>Chapter V</b>	The Low Affinity Binding of Melatonin to Calmodulin: Use of Computational Methods to Explain its Physiological Relevance <i>Landau Meytal and Zisapel Nava</i>	<b>69</b>
<b>Chapter VI</b>	Neural Regulation of Melatonin Synthesis <i>Piyarat Govitrapong, Banthit Chetsawang, Sujira Mukda and Pansiri Phansuwan-Pujito</i>	<b>81</b>
<b>Chapter VII</b>	Regulation of Melatonin Synthesis: Animal versus Human Studies <i>B. B. P. Gupta and R. Spessert</i>	<b>117</b>
<b>Chapter VIII</b>	Toward a Chronome (Time Structure) of Melatonin <i>Germaine Cornélissen, Franz Halberg, Michal Zeman, Rita Józsa, Roberto Tarquini, Federico Perfetto, Roberto Salti and Earl E Bakken</i>	<b>135</b>

<b>Chapter IX</b>	Chronobiological Aspects of Melatonin Activity <i>Diego A. Golombek and Gastón A. Pizzio</i>	<b>177</b>
<b>Chapter X</b>	The Molecular Basis to the Circadian Effects of Melatonin <i>D. G. Hazlerigg, J. D. Johnston and J-M. Fustin</i>	<b>197</b>
<b>Chapter XI</b>	Melatonin Effects on Uterine Physiology <i>James Olcese</i>	<b>207</b>
<b>Chapter XII</b>	Melatonin and Human Reproduction: Why the Effect is so Elusive? <i>Amnon Brzezinski</i>	<b>219</b>
<b>Chapter XIII</b>	Melatonin: Immunomodulatory Signal <i>Andrew K. Hotchkiss and Randy J. Nelson</i>	<b>227</b>
<b>Chapter XIV</b>	Photoperiodic vs. Non-Photoperiodic Animals: Circadian and Seasonal Changes in Immunity <i>Krystyna Skwarlo-Sonta, Pawel Majewski, Joanna Pawlak and Magdalena Markowska</i>	<b>247</b>
<b>Chapter XV</b>	Melatonin: An Endogenous Antiestrogen with Oncostatic Properties <i>E. J. Sánchez-Barceló, M.D. Mediavilla, S. Cos, C. M. Martínez-Campa, A. González, C. Alonso-González and S. Sánchez-Mateos</i>	<b>261</b>
<b>Chapter XVI</b>	Melatonin and Cancer: Basic Research <i>Marek Pawlikowski and Katarzyna Winczyk</i>	<b>273</b>
<b>Chapter XVII</b>	Melatonin in Retinal Pathophysiology <i>Ruth E. Rosenstein</i>	<b>283</b>
<b>Chapter XVIII</b>	The Physiology, Pharmacology and Anatomical Distribution of Melatonin Receptors in Visual System Nuclei in the Vertebrate CNS <i>Susan B. Udin and Irina V. Zhdanova</i>	<b>295</b>
<b>Chapter XIX</b>	Antioxidant Capacity of the Neurohormone Melatonin <i>E. Sofic and I. Tahirovic</i>	<b>317</b>
<b>Chapter XX</b>	Protective Role of Melatonin against Mitochondrial Damage in Inflammation <i>D. Acuña-Castroviejo, G. Escames, L. C. López and F. Ortiz</i>	<b>327</b>
<b>Chapter XXI</b>	Protective Effects of Melatonin against Hyperhomocysteinemia <i>Giyasettin Baydas</i>	<b>349</b>
<b>Chapter XXII</b>	Photo- and Radiation Induced Reactions of Melatonin by Laser Photolysis and Pulse Radiolysis <i>Mingzhang Lin, Hui He and Yosuke Katsumura</i>	<b>369</b>
<b>Chapter XXIII</b>	Melatonin Action on Neuropeptide Induction through Receptor-Mediated Mechanisms in the Brain <i>Kazuyoshi Tsutsui, Takayoshi Ubuka and George E. Bentley</i>	<b>387</b>
<b>Chapter XXIV</b>	Melatonin Receptors in Neuroendocrine Development <i>J. D. Johnston, D. G. Hazlerigg and G. Wagner</i>	<b>401</b>
<b>Chapter XXV</b>	The Effects of Exogenous Melatonin on the Morphology of Thyrocytes in Pinealectomized and Irradiated Rats <i>Z. Kundurovic and E. Sofic</i>	<b>413</b>

<b>Chapter XXVI</b>	The Control of MT Release from Mammalian and Avian Pineal Glands <i>Valér Csernus, András D. Nagy and Nándor Faluhelyi</i>	<b>425</b>
<b>Chapter XXVII</b>	Effect of Chronic Melatonin Administration on Various Physiological Parameters from Old Wistar Rats <i>Jesus A. F. Tresguerres, Carmen Castillo, Veronica Salazar, Ana F Tresguerres, Elena Vara, Iñigo Azcoitia, Mónica de la Fuente and Carmen Ariznavarreta</i>	<b>457</b>
<b>SECTION II.</b>	<b>THERAPEUTIC PERSPECTIVES</b>	<b>481</b>
<b>Chapter XXVIII</b>	Pineal Region Tumors <i>Michal Karasek, Marek Mandra and Wielislaw Papierz</i>	<b>483</b>
<b>Chapter XXIX</b>	Melatonin and Cancer <i>Eva S. Schernhammer</i>	<b>499</b>
<b>Chapter XXX</b>	Therapeutic Perspectives of Gastrointestinal Melatonin <i>George A. Bubenik</i>	<b>529</b>
<b>Chapter XXXI</b>	Endogenous Versus Exogenous Effects of Melatonin <i>Kenneth P. Wright Jr. and Naomi L. Rogers</i>	<b>547</b>
<b>Chapter XXXII</b>	Melatonin Circadian Rhythms in Women with Depression: Relationship to the Reproductive Cycle <i>Barbara L. Parry, Charles J. Meliska, L. Fernando Martínez, Ana M. López, Diane L. Sorenson, Sara Nowakowski and Richard T. Loving</i>	<b>571</b>
<b>Chapter XXXIII</b>	Melatonin Therapy of Circadian Rhythm Sleep Disorders in Neurodevelopmentally Disordered Children: A Neurological Viewpoint <i>James E. Jan, Michael B. Wasdell, Melissa Bomben, Roger D. Freeman and Wop J. Rietveld</i>	<b>581</b>
<b>Chapter XXXIV</b>	Treatment by Melatonin of a Genetic Disorder: Smith-Magenis Syndrome <i>Hélène De Leersnyder</i>	<b>605</b>
<b>Chapter XXXV</b>	Melatonin and Sleep in Shift-Workers <i>V. Srinivasan, S. R. Pandi-Perumal, W. Spence, L. Kayumov and D. P. Cardinali</i>	<b>615</b>
<b>Chapter XXXVI</b>	Role of Melatonin in the Regulation of Human Circadian Rhythms and Sleep <i>Christian Cajochen, Kurt Kräuchi and Anna Wirz-Justice</i>	<b>633</b>
<b>Chapter XXXVII</b>	Ramelteon, a Selective MT <sub>1</sub> /MT <sub>2</sub> Receptor Agonist, Provides a Novel Treatment for Insomnia <i>Masaomi Miyamoto</i>	<b>647</b>
<b>Chapter XXXVIII</b>	Melatonin, Dopamine and Circadian Rhythm in the Restless Legs Syndrome <i>Stephany Fulda and Thomas C. Wetter</i>	<b>669</b>
<b>Chapter XXXIX</b>	Sleep and Circadian Neuroendocrine Dysregulation in Seasonal Affective Disorder <i>S. R. Pandi-Perumal, W. Spence, A. D. Lowe, L. Kayumov, D. P. Cardinal, T. Partonen and A. A. Putilov</i>	<b>681</b>

---

<b>Chapter XL</b>	Involvement of Free Radicals and Reactive Oxygen Species in Physiological and Pathological Processes in the Thyroid Gland; A Potential Role of Melatonin <i>Andrzej Lewinski and Malgorzata Karbownik</i>	<b>699</b>
<b>Chapter XLI</b>	Role of Melatonin in Health and Diseases: Headache Disorders <i>Mario Fernando Prieto Peres</i>	<b>717</b>
<b>Chapter XLII</b>	Ambient Illumination and Melatonin in the Natural Setting <i>Jean-Louis Girardin</i>	<b>731</b>
<b>Chapter XLIII</b>	Melatonin: Effect on Smooth Muscle and Clinical Utility <i>Mustafa Sajeel and Marcus Drake</i>	<b>753</b>
<b>Chapter XLIV</b>	Melatonin and Woman <i>Betul Ugur-Altun and Armagan Altun</i>	<b>759</b>
<b>Chapter XLV</b>	Effects of Melatonin on the Cardiovascular System <i>Armagan Altun and Betul Ugur-Altun</i>	<b>771</b>
<b>Chapter XLVI</b>	Melatonin and Cerebrovascular Disease <i>Raymond Tak Fai Cheung</i>	<b>785</b>
<b>Chapter XLVII</b>	Melatonin in Focal Cerebral Ischaemia- Evidence for Efficacy and Priorities for Future Research <i>Malcolm Macleod</i>	<b>803</b>
<b>Chapter XLVIII</b>	Understanding the Role of Melatonin in Epilepsy: From Bench to Bedside <i>Madhur Gupta, Lee S. Stewart and Y. K. Gupta</i>	<b>813</b>
<b>Chapter XLIX</b>	Role of Melatonin on Alzheimer's Disease <i>Ze-Feng Wang and Jian-Zhi Wang</i>	<b>827</b>
<b>Chapter L</b>	Longitudinal Measurements of Melatonin Secretion in the Elderly: Implications for Alzheimer's Disease <i>N. M. K. Ng Ying Kin, N. P. V. Nair, G. Schwartz and J. X. Thavundayil</i>	<b>841</b>
<b>Chapter LI</b>	Interactions of Melatonin with Environmental Factors <i>Masami Ishido</i>	<b>849</b>
<b>Index</b>		<b>863</b>
