Preface	xv
List of Abbreviations	xxi
1 Sociolinguistic Introduction	1
1.0 Introduction	1
1.1 From the Loss of Independence until 1934	2
1.2 From 1934 until Today	6
1.3 The Traditional Sociolinguistic Situation in Sestu	8
1.4 The Present Sociolinguistic Situation in Sestu	9
1.5 Consequences for this Research	10
2 The Data	13
2.0 Introduction	13
2.1.1 The Methodological Approach	14
2.1.2 Two Stories	15
2.2 Segmental Phenomena of Sestu Campidanian Phonology	16
2.2.0 Introduction	16
2.2.1 Vowels	16
2.2.1.1 The Basic Distribution of Vowels in Campidanian	16
2.2.1.2 Word-final <i>Vowel-reduction</i>	18
2.2.1.3 <i>Metaphony</i>	19
2.2.1.4 <i>Reduction</i> of prevocalic /ɛ/	23
2.2.1.5 Word-internal Vowel Sequences	24
2.2.1.6 Nasalized Vowels	26
2.2.2 The Consonantal System	27
2.2.2.1 Word-initial Consonants	28
2.2.2.2 Obstruents	29
2.2.2.2.1 Voiceless Obstruents and <i>Lenition</i>	30
2.2.2.2.2 Regularly Inalterable Voiceless Obstruents	33
2.2.2.2.3 Inalterability <i>vs.</i> <i>Deletion</i> of Voiced Stops	35
2.2.2.3 Word-initial Sonorants	40
2.2.2.3.1 Word-initial Sonorants: Nasals	40
2.2.2.3.2 Word-initial Sonorants: Liquids	42
2.2.2.3.3 Word-initial Sonorants: Glides	44

2.2.3	Word-final Consonants	46
2.2.4	Consonantal Clusters	54
2.2.4.1	Liquid + Consonant Clusters	54
2.2.4.2	Consonant + Liquid Clusters	56
2.2.4.3	Nasal + Consonant Clusters	58
2.2.4.4	s + Consonant Clusters	61
2.2.4.5	Other Kinds of Clusters	64
2.3	The Stress System	65
2.3.1	Word Stress	65
2.3.2	Phrasal Stress	71
2.4	Conclusions	73
Chapter 3: Theoretical Introduction		75
3.0	Introduction	75
3.1	Faithfulness and Wellformedness in Optimality Theory	77
3.2	A Theory of <i>Absolute Wellformedness</i>	80
3.3	A Theory of GEN	85
3.4	Conclusions	93
4 A Theory of Segmental Structure		95
4.0	Introduction	95
4.1	4.1 Binary <i>vs.</i> Unary Features	96
4.2	A Dependency-based Approach to Segmental Structure	100
4.2.1	"Standard" Dependency Phonology	100
4.2.2	Gesture Geometry	102
4.2.3	Obstruents and Sonorants	108
4.2.4	Occlusions	112
4.2.5	Oral Cavity	114
4.2.6	The Internal Organization of the <i>Place</i> node	115
4.2.7	Conclusions	118
4.3	A Theory of Segmental Alternations	119
4.3.1	Assimilation	119
4.3.2	Conditions on Assimilation	121
4.3.3	Empty nodes, <i>Spreading</i> and <i>Snatching</i>	123
4.3.4	The <i>Principle of Completeness</i> and the Constraint * <i>Empty</i>	125
4.3.5	Assimilation is Directional	132
4.3.6	"Empty" Nodes in Segmental and Syllable Structure	136
4.4	Conclusions	140
5 Segmental Phenomena		143
5.0	Introduction	143
5.1	A Theory of <i>Voicing</i>	144

5.1.1	<i>Post-vocalic Voicing</i>	145
5.1.2	<i>Voicing and Multiply Linked Structures</i>	148
5.1.3	<i>Conclusions</i>	152
5.2	<i>A Theory of Multiply Linked Structures</i>	152
5.2.1	<i>Common Properties of <i>sC clusters</i> and Geminates</i>	152
5.2.2	<i>Short Geminates in Campidanian</i>	158
5.2.3	<i>Geminate Resistance to Epenthesis</i> and Other Modifications	166
5.2.4	<i>Post-lexical <i>sC clusters</i></i>	171
5.2.5	<i>Multiple Linking and the Constraint *Complex Node</i> .	176
5.2.6	<i>Conclusions</i>	187
5.3	<i>Spirantizations</i>	188
5.3.1	<i>The Facts</i>	188
5.3.2	<i>Explaining Spirantization</i>	193
5.3.3	<i>Oppositions and Meaning</i>	195
5.3.4	<i>Phonology and Meaning</i>	200
5.3.5	<i>Defining the Constraint *Neut and its Effects</i>	203
5.3.6	<i>Word-internal Spirantizations</i>	212
5.3.7	<i>Deletion of Voiced Stops</i>	214
5.3.8	<i>The Traditional Concept of Lenition</i>	219
5.3.9	<i>Conclusions</i>	222
5.4	<i>Total Assimilation</i>	223
5.4.1	<i>s-Palatalization before Palatals</i>	223
5.4.2	<i>Total Assimilations and Ghost Segments</i>	228
5.4.3	<i>Total Assimilation to Sonorants</i>	234
5.5	<i>Conclusions</i>	238
6 A General Theory of Prosodic Structure		243
6.0	<i>Introduction</i>	243
6.1	<i>Previous Proposals</i>	244
6.1.1	<i>The Traditional Non-definition of Prosody</i>	244
6.1.2	<i>Phonology and Syntax</i>	249
6.1.3	<i>The Prosodic Hierarchy</i>	256
6.1.4	<i>Metrical Prosody</i>	261
6.2	<i>A General Templatistic Theory of Prosodic Structure</i> . . .	263
6.2.1	<i>The Generation of Prosodic Structure</i>	263
6.2.2	<i>Rhythmic Templates and the Principle of Completeness</i> .	266
6.2.3	<i>Relative Prominence</i>	270
6.2.4	<i>Evidence for Rhythmic Templates</i>	275
6.2.4.1	<i>Acquisition of Dutch Stress</i>	275
6.2.4.2	<i>Entirely Left-Headed Stress Patterns in Pintupi</i>	279
6.2.4.3	<i>Evidence for the Binarity Principle in Campidanian</i> . . .	280

6.2.5	Directionality of Headedness	284
6.2.5.1	The <i>Iambic/Trochaic Law</i>	285
6.2.5.2	Quantity-insensitive Rhythmic Systems	286
6.2.5.3	Quantity-sensitive Rhythmic Systems	288
6.2.5.4	Iambic Words in Campidanian	292
6.3	Segmental Prosodicity	298
6.3.1	Intrinsic Prominence	299
6.3.2	The Prosody-morphology Interface	302
6.4	Segmental Extraprosodicity	305
6.4.1	The Standard View	306
6.4.2	Extraprosodicity and <i>Correspondence Theory</i>	309
6.5	Mismatches Between Prosodic and Distinctive Interpretation	312
6.6	Conclusions	318
7 A Rhythmic Theory of the Syllable	323
7.0	Introduction	323
7.1	The Basic Properties of Syllable Structure	324
7.1.1	A Definition of Syllables	324
7.1.2	The Rhyme and <i>Asymmetric Binarity</i> in Syllable Structure	327
7.1.3	The Rhyme and the Constraint <i>Head Condition</i>	333
7.2.	Rejecting the Arboreal Model of Syllable Structure . .	342
7.2.1	Rejecting the X-bar Theory of Syllable Structure . .	343
7.2.2	The Paradoxes Related to Syllable Nodes	345
7.2.3	The Prosodic Irrelevance of Syllable Nodes	350
7.2.4	The Prosodic Visibility of Rhymes	355
7.3	Constraints on Syllable Structure and the Syllabic Prototype	358
7.3.1	The Constraints	358
7.3.2	The Syllabic Prototype in Child Language	362
7.4	The Traditional Approach to Syllabification	366
7.4.1	The Sonority Sequencing Principle	366
7.4.2	The Emergence of the Problem	369
7.4.3	More Problems	372
7.4.4	The <i>Minimal Sonority Distance</i>	380
7.5	Evidence for a Rhythmic Model of Syllable Structure .	383
7.5.1	Phonetic Evidence for Extraprosodic Sonorants . .	384
7.5.2	The Treatment of Sonorants in Campidanian Syllabification	387
7.5.2.1	Sonorants and Onsets	387
7.5.2.2	Glide Extraprosodicity and Vowel Deletion	391

7.5.2.3	Epenthesis and <i>Onset Condition</i> in Campidanian	393
7.5.2.4	Extraprosodic Sandwiched Sonorants in Campidanian	397
7.6	Conclusions	399
 8 Syllabification Phenomena		 403
8.0	Introduction	403
8.1	<i>Gemination</i>	404
8.2	<i>Metathesis</i>	418
8.2.0	Introduction	418
8.2.1	The Facts	419
8.2.2	The Analysis	422
8.3	The Syllabification of <i>s + Sonorant Clusters</i>	431
8.4	Conclusions	437
 9 Language-specific Constraints		 439
9.0	Introduction to a Theory of Exceptions	439
9.1	OT and Universality	440
9.2	Universal Constraints	442
9.3	Language Particular Constraints	446
9.4	Empirical Evidence from Campidanian	447
9.4.1	An Epenthetic Sonorant	448
9.4.2	A "Funny" <i>Epenthesis</i>	454
9.4.3	Another Unmotivated Epenthesis	459
9.4.4	<i>Lenition-blocking</i> Loan Words	462
9.4.5	<i>Spontaneous Mutations</i>	464
9.4.6	A Weird Dissimilation	467
9.5	Conclusions	469
 10 Conclusions		 471
 11 References		 479
 Appendix		 495
 Samenvatting		 515
