VII Preface

XIII Foreword

XVII Contributors

Biological Diversity in Human Infants

**1 Developmental Perspectives on Individual Variation:
Implications for Understanding Nutritional Needs**

Gluckman, P.D.; Beedle, A.S. (New Zealand); Hanson, M.A. (UK);
Yap, E.P. (Singapore)

**13 Factors Influencing the Establishment of the Intestinal
Microbiota in Infancy**

Adlerberth, I. (Sweden)

**35 Genetically Determined Variation in Polyunsaturated
Fatty Acid Metabolism May Result in Different
Dietary Requirements**

Koletzko, B.; Demmelmair, H.; Schaeffer, L.; Illig, T.;
Heinrich, J. (Germany)

Assessment Technologies for Human Infant Health

**51 Discussion on ‘(Molecular) Imaging: Developments
Enabling Evidence-Based Medicine’**

Hofstraat, H. (The Netherlands)

55 Metabolic Profiling

Berry, G.T. (USA)

**81 Newborn Screening of Metabolic Disorders:
Recent Progress and Future Developments**

Rinaldo, P.; Lim, J.S.; Tortorelli, S.; Gavrilov, D.; Matern, D. (USA)

Health Challenges of Human Infants

- 97 The Phenotype of Human Obesity:
The Scope of the Problem**
Bier, D.M. (USA)
- 111 Intestinal Immune Health**
Conroy, M.E.; Walker, W.A. (USA)
- 127 Gut Decontamination with Norfloxacin and
Ampicillin Enhances Insulin Sensitivity in Mice**
Chou, C.J.; Membrez, M.; Blancher, F., (Switzerland)
- 141 Individual Epigenetic Variation: When, Why, and So What?**
Gomes, M.V.; Waterland, R.A. (USA)
- 157 Interaction of Early Infant Feeding, Heredity and
Other Environmental Factors as Determinants
in the Development of Allergy and Sensitization**
Savilahti, E. (Finland)
- 173 Personalized Care of Pediatric Cancer Patients**
Rabin, K.; Man, T.-K.; Lau, C.C. (USA)
- Opportunities for Improving Human Infant Nutrition and Health
-
- 189 Personalizing Nutrient Intakes of Formula-Fed Infants:
Breast Milk as a Model**
Lönnerdal, B. (USA)
- 205 Human Milk Oligosaccharides: Evolution, Structures and
Bioselectivity as Substrates for Intestinal Bacteria**
German, J.B.; Freeman, S.L.; Lebrilla, C.B.; Mills, D.A. (USA)
- 223 Opportunities for Improving the Health and Nutrition
of the Human Infant by Probiotics**
Salminen, S.; Isolauri, E. (Finland)
- 239 Do We Need Personalized Recommendations for Infants at
Risk of Developing Disease?**
Hernell, O.; West, C. (Sweden)
- 253 Concluding Remarks**
- 257 Subject Index**
