CONTRIBUTOR LIST	xv
SECTION I OVERVIEW OF E-COMMERCE RESEARCH CHALLENGES	1
1. Statistical Challenges in Internet Advertising	3
<i>Deepak Agarwal</i>	
2. How Has E-Commerce Research Advanced Understanding of the Offline World?	19
<i>Chris Forman and Avi Goldfarb</i>	
3. The Economic Impact of User-Generated and Firm-Generated Online Content: Directions for Advancing the Frontiers in Electronic Commerce Research	35
<i>Anindya Ghose</i>	
4. Is Privacy Protection for Data in an E-Commerce World an Oxymoron?	59
<i>Stephen E. Fienberg</i>	

5. Network Analysis of Wikipedia	81
<i>Robert H. Warren, Edoardo M. Airoldi, and David L. Banks</i>	
SECTION II E-COMMERCE APPLICATIONS	103
6. An Analysis of Price Dynamics, Bidder Networks, and Market Structure in Online Art Auctions	105
<i>Mayukh Dass and Srinivas K. Reddy</i>	
7. Modeling Web Usability Diagnostics on the Basis of Usage Statistics	131
<i>Avi Harel, Ron S. Kenett, and Fabrizio Ruggeri</i>	
8. Developing Rich Insights on Public Internet Firm Entry and Exit Based on Survival Analysis and Data Visualization	173
<i>Robert J. Kauffman and Bin Wang</i>	
9. Modeling Time-Varying Coefficients in Pooled Cross-Sectional E-Commerce Data: An Introduction	203
<i>Eric Overby and Benn Konsynski</i>	
10. Optimization of Search Engine Marketing Bidding Strategies Using Statistical Techniques	225
<i>Alon Matas and Yoni Schamroth</i>	
SECTION III NEW METHODS FOR E-COMMERCE DATA	243
11. Clustering Data with Measurement Errors	245
<i>Mahesh Kumar and Nitin R. Patel</i>	
12. Functional Data Analysis for Sparse Auction Data	269
<i>Bitao Liu and Hans-Georg Müller</i>	
13. A Family of Growth Models for Representing the Price Process in Online Auctions	291
<i>Valerie Hyde, Galit Shmueli, and Wolfgang Jank</i>	

14. Models of Bidder Activity Consistent with Self-Similar Bid Arrivals	325
<i>Ralph P. Russo, Galit Shmueli, and Nariankadu D. Shyamalkumar</i>	
15. Dynamic Spatial Models for Online Markets	341
<i>Wolfgang Jank and P.K. Kannan</i>	
16. Differential Equation Trees to Model Price Dynamics in Online Auctions	363
<i>Wolfgang Jank, Galit Shmueli, and Shanshan Wang</i>	
17. Quantile Modeling for Wallet Estimation	383
<i>Claudia Perlich and Saharon Rosset</i>	
18. Applications of Randomized Response Methodology in E-Commerce	401
<i>Peter G.M. van der Heijden and Ulf Böckenholt</i>
