Contents

List of Symbols xiii

Chapter 1
Geysers of the World 1

1.1 Introduction 1
1.2 The Geyser as a Geographic and Geologic Feature 3
1.3 Geyser Studies 13
1.4 Behavioral Characteristics of Some Geysers 18

Chapter 2
The Geologic, Thermal, and Hydrologic State of the Earth 24

2.1 Geologic Features of the Earth 24
2.2 The Earth as a Source of Heat 33
2.3 Transport and Distribution of Heat 36
2.4 Storage of Heat 38
2.5 Heat Efflux 42

Chapter 3
Fundamentals of Geyser Operation 49

3.1 Essential Elements of a Geyser 49
3.2 Properties of Water and Steam 54
3.3 Geysering from a Pool: Fountain or Pool Geysers 61
3.4 Geysering from a Pipe: Columnar or Cone Geysers 62
3.5 Complex Geyser Systems 69

Chapter 4
The Role of Gases in Geysers 78

4.1 Formation and Evolution of Gases 78
4.2 Theory of Effects of Gases 80
4.3 Gassy Geysers 86

Chapter 5
Chemistry of Geothermal Waters 92

5.1 Water Sources 92
5.2 Composition of Geothermal Fluids 93
5.3 Water Movements and Contacts: Geothermometry 98
5.4 Solubility of Rocks; Rock Alteration by Thermal Waters 105

Chapter 6
Geyser Area Complexes 109

6.1 Fumaroles, Mud Pots, and Spouters 109
6.2 Nonerupting Hot Springs; Boiling Springs 112
6.3 Temperature Regimes within Geysers 114
6.4 Interactions among Geysers 122

Chapter 7
Environmental Aspects of Geysers 126

7.1 General 126
7.2 Mineral Deposition 128
7.3 Plant and Animal Life 132
7.4 Ground Noise and Seismicity 134

Chapter 8
Temporal Changes in Geyser Activity and Their Causes 142

8.1 General Nature of the Changes 142
8.2 Bimodal Eruption Patterns 144
8.3 Climatic, Seasonal, and Barometric Effects 152
8.4 Earthquake Effects 154
8.5 Earth Tidal Effects 159

Chapter 9
Man's Influence on Geyser Activity 167

9.1 Some Man-Made Geysers 167
9.2 Changing the Activity of Geysers 170

Chapter 10
Practical Uses of Geothermal Fluids 175

10.1 Introduction 175
10.2 Characteristics of Exploited Geothermal Areas 179
10.3 Agricultural and Other Husbandry Uses 186
10.4 Space Heating and Cooling 188
10.5 Industrial Processing 191
10.6 Electric Power Production 193
10.7 Economic and Environmental Aspects 199

Appendix
Geologic Time (Stratigraphic Column) 205

Chapter References 206

Bibliography 209
