## OPENING ADDRESSES

<i>Information technology and education: Is the "new girl in town" now fully accepted?</i>	xix
E. VAN SPIEGEL	
<i>Address to the conference</i>	xxiii
RICHARD FOTHERGILL	
<i>Information technology in education</i>	xxvii
SHIRLEY WILLIAMS	
<i>Curricular and implementation aspects of the introduction of information technology in education</i>	xxxix
TJEERD PLOMP, JAN VAN DEN AKKER	

## Subthemes, Subject Areas and Papers

### 1. INNOVATIVE PROTOTYPES

<i>Keynote address: Working within limitations: Computer aided instruction and expert systems</i>	3
J. L. ALTY	
(a) INTELLIGENT TUTORING AND EXPERT SYSTEMS	
<i>Expert system as a tool for continuing education in medicine</i>	13
A. KUMAR, W. F. HOFMAN, Y. KOBASHI, H. VAN DEN BRINK, P. LIM	
<i>CIR: A computer coach for information retrieval</i>	21
JOS BEISHUIZEN	
<i>Integrated learning environments</i>	29
WENDY E. MACKAY	
(b) ARITHMETIC AND MATHEMATICS	
<i>Diagnostic systems in mathematical education</i>	35
E. RIEDLING, G. G. BITTER	
<i>Using a computer program for training the skill of diagnosing errors in addition and subtraction</i>	41
E. DE CORTE, L. VERSCHAFFEL, H. SCHROOTEN	
<i>Estimation and arithmetic strategies in learning multiplication facts</i>	49
F. H. J. VAN GALEN, A. P. J. MEEUWISSE	
<i>Precollege mathematics software: Limitations and potential</i>	55
JOHN NIMAN	

- (c) **(FOREIGN) LANGUAGE TEACHING**
- Learning foreign languages by means of a flexible educational program* 61  
A. J. MENDES, TERESA MENDES
- Teaching writing skills with computers — the development of a writing aid for secondary education* 67  
THEA VAN DER GEEST
- Development stimulation in computer based foreign language teaching* 75  
M. A. BALABAN, T. GERGELY, L. KÁLMÁN
- ALEXIS: Computer-assisted feedback on written assignments* 81  
CAREL J. M. JANSEN, PAUL J. M. LOOIJMANS, ALBERT A. PILOT, DICK P. SCHRAUWEN, MICHAEL F. STEEHOUDER
- (d) **SPECIAL EDUCATION**
- A prototype of a computer based education system for children with initial reading problems* 89  
C. FISCHER, J. J. M. L. VAN DEN BORN, A. PENNING
- Monitoring task behavior with a touchscreen as a means to train children with learning deficiencies to solve arithmetic word problems* 95  
ERNEST C. D. M. VAN LIESHOUT
- Computer-assisted instruction of component reading skills* 101  
H. FEENSTRA
- Word frequency in practice programs for poor readers* 109  
V. H. P. VAN DAAL, NICO BAKKER, ARYAN VAN DER LEIJ, PIETER REITSMA
- An electronic aid for practising letter-sound relations* 117  
P. REITSMA, H. H. ELLERMANN, G. W. G. SPAAL
- A blind student in a regular classroom using a computerized pen and paper substitute for writing, reading and drawing* 123  
KARL P. DÜRRE, F. P. SCHMIDT-LADEMANN, A. KESSELRING
- Development of software for the physically handicapped child* 129  
GILLIAN LOVEGROVE
- (e) **LEARNING ENVIRONMENTS**
- Using computer-based simulation to teach pedestrian safety skills to nonreaders* 137  
CURT SHREINER
- Teaching simulation: A CAL program based on the simulation of closed queueing networks* 143  
M. E. GONCALVES, T. MENDES
- Multilingual information handling as a cross curriculum catalyst for furthering international understanding* 149  
MIKE ASTON, DIANA FREEMAN, HILARY FARNWORTH
- Information technology in the service of a world-wide multi-institutional simulation* 157  
D. CROOKALL, J. WILKENFELD
- TNT: An automated tutor "N" trainer using synthetic speech and mastery learning pedagogy* 163  
LLOYD H. NAKATANI, DENNIS E. EGAN, LAURENCE W. RUEDISUELI, PATRICK M. HAWLEY, DEBORAH K. LEWART

<i>Empirical studies using TNT: Error diagnosis and coaching strategies</i>	171
DENNIS E. EGAN, LLOYD H. NAKATANI, ALAN C. SHAW, PATRICK HAWLEY	
<i>Computer support of the learning of problem solving: Developing a CAL course on mechanics problems</i>	177
J. H. P. VAN WEEREN, R. H. A. STAAL	
<i>Introducing the microprocessor into the secondary school curriculum — a complete courseware package</i>	183
M. K. SUMMERS	
<i>An inexpensive system for signal analysis especially designed for educational purposes</i>	193
SVEN-ÅKE ERIKSSON, ANDERS SVÄRDSTRÖM	
<i>WEP: A workstation for education in programming</i>	199
T. PANTZIOU, D. CHRISTODOULAKIS	
<i>Cheap local computer network: An ultimate solution for the classroom?</i>	207
A. C. DERYCKE, P. LOOSFELT, G. CORNILLET	

## 2. DESIGN AND DEVELOPMENT APPROACHES

<i>Keynote address: Component design theory: Instructional design for courseware authoring</i>	213
M. DAVID MERRILL	
(a) COURSEWARE DEVELOPMENT MODELS AND AUTHORIZING TOOLS	
<i>Developing CAL — the computers in the curriculum (CIC) model</i>	225
DERYN M. WATSON	
<i>A methodology for the development of educational software</i>	235
JAN SCHOENMAKER, CHARLES VAN DER MAST, JEF MOONEN	
<i>Software tools for teachers and learners</i>	243
JOACHIM WEDEKIND	
<i>Extending the use of authoring systems</i>	249
THOMAS R. BLACK	
<i>Towards a set of European standards for the development of educational software tools for 16/32 bit microcomputers</i>	257
MIKE ASTON, JUKKA RANTENEN	
<i>An interactive graphics environment for learning foreign language</i>	267
JAN SCHOENMAKER, PIETER BURGHART, MARIA WALNER, KURT VAN DAALEN, THOMAS TOUTENHOOFD	
<i>The educational potential of interactive literature</i>	275
BOB HART	
(b) INSTRUCTIONAL DESIGN RESEARCH	
<i>A lattice representational model of an instructional processor</i>	283
I. P. F. DE DIANA, H. J. VOS	
<i>Designing optimal rules for instructional decision making in CAI systems</i>	291
H. J. VOS, W. J. VAN DER LINDEN	
<i>Models for use in computerized test systems</i>	299
W. J. VAN DER LINDEN	

<i>Computerized testing service systems: A description</i>	309
M. A. ZWARTS	

### 3. ORGANIZATION OF PRODUCTION

<i>Keynote address: Organization for educational software production in Scotland</i>	317
--	-----

DAVID D. WALKER

#### (a) COURSEWARE DEVELOPMENT IN PRACTICE

<i>A case study of an Ontario exemplary lessonware project — The creation of the Puzzler: Reading strategy lessons in multiple presentation modes</i>	327
---	-----

J. DALE BURNETT, LARRY MILLER

<i>A case study in the development of in-service courseware for an author language</i>	333
--	-----

M. J. BYARD

<i>An educational software unit as part of a college of education</i>	339
---	-----

ROGER KEELING

<i>Developing educational microcomputer software</i>	343
--	-----

TATJANA CAREV-MARUNA

<i>The design team: Ensuring a balance of creativity and classroom-based reality</i>	353
--	-----

BRENDA L. JOCHUMS

<i>Implementing problem solving in the curriculum using computer simulation — the industry/education link</i>	361
---	-----

WENDY HALL, JOHN LAYMAN

<i>Managing CBI projects</i>	369
------------------------------	-----

WENDY E. MACKAY

<i>The use of business software as a content free teaching tool; Emulation or assimilation?</i>	375
---	-----

STEPHEN HEPPELL

#### (b) INTERACTIVE VIDEO

<i>Interactive video courseware as a research tool</i>	381
--	-----

JANET WHITE AZBELL

<i>Formal instruction on the development of interactive video courseware</i>	385
--	-----

DENT M. RHODES

<i>Authoring systems for interactive video instruction</i>	391
--	-----

DENT M. RHODES, JANET WHITE AZBELL

### 4. PRODUCT EVALUATION

<i>Keynote address: Educational microcomputer software evaluation: Its challenge and its uniqueness</i>	399
---	-----

P. KENNETH KOMOSKI

#### (a) RESEARCH IN COMPUTER-BASED EDUCATION

<i>Courseware quality: Do development and design procedures make a difference?</i>	405
--	-----

ROBIN TAYLOR, DONALD P. ELY

	<i>Some aspects of pre-testing of tutorial courseware prior to the prototype phase</i>	411
	I. P. F. DE DIANA	
	<i>Designing user interfaces for educational software</i>	417
	NOEL WILSON	
	<i>Ergonomic knowledge and CAL</i>	425
	A. A. J. MANNAERTS	
(b)	<b>EVALUATION IN SOFTWARE DEVELOPMENT</b>	
	<i>Evaluation of educational software: some experiences</i>	433
	T. MENDES, C. COSTA	
	<i>Evaluation of CAL in the humanities</i>	439
	FRANCES BLOW	
	<i>The description and evaluation of computer based instruction</i>	445
	GELLOF KANSELAAR	
	<i>What to do with evaluation of educational software</i>	451
	BERT VAN MUYLWIJK	
	<i>Criteria for educational software</i>	457
	C. NELISSEN, G. EISENDRATH	

## 5. IMPLEMENTATION

	<i>Keynote address: Psychological and pedagogical considerations in relation to implementation of educational software</i>	463
	STEEN LARSEN	
(a)	<b>NATIONAL PLANS AND PROJECTS</b>	
	<i>15 years of CAL. The Chelsea experience</i>	477
	DAVID RIDDLE	
	<i>Recent trends and developments in computer education in Canada</i>	487
	D. J. BALE	
	<i>Design and production techniques for educational software: a Dutch experience</i>	493
	JEF MOONEN, CHARLES VAN DER MAST, GUUS VONK, DIRK DE JONG	
	<i>A model for designing, developing and testing of educational software</i>	501
	METTE RAMBERG	
	<i>On the production of educational computer software for the Swedish school system</i>	507
	STEFAN ÖSTERGREN	
	<i>Information technology in Nigerian education</i>	515
	KUNLE AKINYEMI	
	<i>Education/training and technology: Learning processes and achievements</i>	523
	I. K. F. BIRCH, M. LALLY, K. F. PUNCH	
(b)	<b>TEACHING PROGRAMMING</b>	
	<i>The use of logic programming in education</i>	531
	Z. SCHERZ, O. MALER, E. SHAPIRO	
	<i>Modula-2 in education</i>	539
	B. LEES	

*Designing programming environments for young learners* 545

P. GOODYEAR

(c) LOGO

*Learning to control the environment through Logo* 551

BOB SPARKES

*Logo as a software development language* 559

DAVID SQUIRES

(d) INTRODUCING CAL AND IT IN CLASSROOM

*Curricular aspects of the development of educational software in the national project for computer and information literacy* 567

A. P. HARTSUIJKER, I. H. VAN WEERING

*Information technology for the basic education of adults* 575

LOURENS HOEKSTRA, ROBERT DE HOOG, HENK SLIGTE, HARRY STROOMBERG

*Networking, twinning, professionalism . . . The role of professional societies in computers and education* 581

ROBERT M. AIKEN

*From computer literacy to the scholastic integration of information technology* 589

JULIEN FONJALLAZ

*Planning 60 hour information technology courses for students studying for Arts/Humanities degrees: A practical, problem-solving, self-learning approach* 597

MAURICE HART

*Effective educational courseware — the microcomputer as a learning medium* 603

BRENDAN MACKEY

*Modern media instead of traditional practical work* 611

STEF BLOM

*The use of current software and technology and the selection pressure for new developments to support the science curriculum* 619

GEOFFREY STRACK

*Computer assisted information handling as a tool for change* 627

DIANA FREEMAN, JOHN LEVETT

*Otopia: An implementation strategy for computers in education* 635

JOS BEISHUIZEN, GUUS MANNAERTS, FRANCES BRAZIER

*The curriculum conference — a procedure for the formulation of a computer literacy curriculum for all pupils* 643

ULRICH BOSLER

*Implementing information technology across the curriculum — what does it mean?* 649

JOHN S. A. ANDERSON

*Integration of the computer in the "schoolwerkplan"* 657

A. A. J. MANNAERTS

## 6. WORKSHOPS/ROUND TABLE/DEMONSTRATIONS

### WORKSHOPS

- Creating effective CBI screens* 667  
CAROL ENDRISS
- Courseware development using a driver system* 669  
J. LOONEN
- Ecological integration of educational microcomputers* 671  
M. P. DOYLE

### ROUND TABLE

- Sources of conceptual dissonance in software production* 679  
BRUCE ROSEN

### DEMONSTRATIONS

- Development of courseware for training in social research methods* 685  
D. B. BAARDA, M. P. M. DE GOEDE
- Macthesis: A design system for educational computer simulation programs* 689  
F. B. M. MIN, M. RENKEMA, B. REIMERINK, P. C. VAN SCHAICK ZILLESSEN
- The Elan programming environment* 693  
C. H. A. KOSTER
- Developing software for nursing education* 695  
BARBARA THOMAS
- Application of interactive video in the laboratory* 703  
E. H. VAN VEEN, J. W. M. WASSENAAR, J. B. KRZEMINSKI

## 7. CLOSING SESSION

- The courseware dilemma* 707  
M. J. VAN DALEN
- EURIT '86: General impressions* 715  
JEF MOONEN, TJEERD PLOMP

- INDEX 719
