

CONTENTS

Preface	v
Contributors and Participants in the Conference	xi

PART 1: INTRODUCTION AND KEYNOTE ADDRESS

1. Introduction B.Z. Barta and B.H. Raab	3
2. National Goals on the Road to the Information Age (Keynote Address) J. Kella	5

PART 2: BUSINESS PROFESSIONS

1. The Introduction of Data Processing in Middle-Level Accountancy Training Programmes in Developing Countries – A Case Study K. Schramm	9
2. Integrating Informatics within the Vocational High School Curricula for the Business Professions A. Adereth, B.Z. Barta, S. Naaman, and M. Telem	23
3. Information Technology in Business P. McHugh	37
4. Word Processing Career Training S.J. Wolfson	51
5. User Education in Informatics and its Impact – An Indian Overview U.K. Banerjee	57

6. Discussion Group on Vocational Education for Business Careers
K. Schramm and S. Naaman (Rapporteurs) 69

PART 3:

TECHNICAL PROFESSIONS

1. Integrating Computer Aided Design and Manufacture (CAD/CAM)
Concepts into Curricula for Vocational and Continuing Education
A. Sagiv, B.Z. Barta, and Z. Behar 75
2. An Introduction to Computer-Controlled Systems Using a Laboratory
Trainer
D. Cohen 83
3. The Development and Operation of B/TEC Post-Experience Units in
Computer Studies in the U.K.
B.S. Lee 93
4. The Role of Computer Sciences in Vocational Education in Finland
L. Fontell 111
5. Discussion Group on Vocational Education for Technical Careers
Y. Berezansky and N. Goldenberg (Rapporteurs) 115

PART 4:

TEACHERS' TRAINING, METHODOLOGY AND DELIVERY SYSTEMS

1. Courseware Development – An Essential Ingredient of Technological
Teacher Education Curricula
S. Waks 121
2. Vocational Teachers' Training and Information Technology in the
Netherlands
J.W.M.A. Houben and J.A. Verbunt 131
3. Planning and Development of an Everyman's Tech in the Informatics Era
I. Silberstein 149
4. Developments in the Application of New Technology to the Delivery
of Open Learning
M.R. Freshwater 161

5. The Skills Center Concept Vocational Training Computer
– Management System
S. Charp 177
6. The Problems of Updating Teachers in Informatics in West Germany
R.F.H. Hambusch 181
7. Vocational Training and Technological Development Trends and
Problems in Austria
H. Fielhauer 189
8. Discussion Group on Training Methodology
C.R. Boswell and S. Waks (Rapporteurs) 201

PART 5:**FUTURE DEVELOPMENTS OF VOCATIONAL EDUCATION**

1. Towards Fifth Generation Training Systems
P.G. Raymont 211
2. Micro-Computers in Schools – A “Gimmick” or a Tool for
Future Education?
D. Millin 217
3. Discussion Group on Future Developments in Vocational Training
P.G. Raymont 223
