Detailed contents

Foreword xvii

Preface xix

Abbreviations xxi

1 Introduction 1

The history of child and adolescent psychiatry 2

2 Classification of disorders 5

Diagnosis and classification 6

ICD-10 8

Differences between ICD-10 and DSM-IV 10

3 Normal child development 11

Stage theories of psychosocial development 12

Attachment: definition, phases, and theories 14

Attachment: research and impact 16

Temperament: definition, course, and studies 18

Temperament: measurement and impact 20

The development of self-concept 22

Cognitive development 24

Moral development 26

Peer relationships 30

Adolescence: definitions and tasks 32

Adolescence: theories of adolescent developments 34

Brain development 36

4 Abnormalities of child development 39

Psychiatric aspects of premature birth 40

Attachment disorders 42

Personality disorders 44

Gender identity disorders 46

Specific developmental disorders of speech and language 48

Sensory impairment 50

5 Social and family effects	53
Parenting 54	
Family conflict and divorce 56	
Separation and loss 58	
Care outside the family: general issues and residential care 60	
Care outside the family: foster care and adoption 62	
Bereavement 64	
Ethnicity and culture 65	
Refugees 66	
Parental mental illness 68	
<hr/>	
6 Pre-school problems	71
Sleep disorders 72	
Sleep disorders: management 74	
Feeding issues 76	
Enuresis 78	
Encopresis and soiling 80	
<hr/>	
7 School issues	83
Absence from school 84	
Bullying 86	
Special educational needs 87	
Educational psychology services 88	
<hr/>	
8 Mental retardation	91
Cognition and intelligence 92	
Mental retardation: epidemiology 94	
Mental retardation: aetiology 96	
Mental retardation: psychiatric co-morbidity and effects on the family 98	
Mental retardation: assessment 100	
Mental retardation: approaches to management 102	
Specific learning disability: language development and disorders 104	
Specific learning disability: reading and reading disorders 106	

9	Assessment	109
	Purpose and structure of assessment	110
	Problem clarification	112
	Interviewing children and adolescents	114
	Genograms	118
	Assessing family functioning	120
	Diagnosis, formulation, and report writing	122
<hr/>		
10	The pervasive developmental disorders	125
	The pervasive developmental disorders (PDD): definitions	126
	Autism: definition	128
	Autism: epidemiology	130
	Autism: aetiology	132
	Autism: assessment 1	134
	Autism: assessment 2	136
	Autism: management	138
	Autism: prognosis and outcome	140
	Rett's syndrome	142
	Childhood disintegrative disorder (CDD): Heller's disease	144
	Asperger syndrome: definitions	146
	Asperger syndrome: epidemiology, aetiology, diagnosis, management, prognosis	148
<hr/>		
11	Attention deficit hyperactivity disorder	151
	Definitions	152
	Epidemiology	154
	Aetiology	156
	Assessment	158
	Differential diagnosis	159
	Co-morbid disorders	160
	Management: general issues and decision making	162
	Management: psychosocial treatments	164
	Management: pharmacological 1	166
	Management: pharmacological 2	168
	Management: pharmacological 3	169

Prognosis, course, and outcome 170

Clinical example 172

12 Oppositional defiant disorder and conduct disorder 175

Definitions and epidemiology 176

Aetiology 178

Assessment 180

Differential diagnosis and co-morbidity 182

Management: psychological interventions 184

Management: pharmacological interventions 186

Prognosis 187

Clinical example 188

13 Tics and Tourette's 191

Definitions and typical presentation 192

Aetiology 193

Epidemiology 194

Assessment 195

Differential diagnosis 196

Co-morbidity 197

Management 198

Prognosis 200

14 Psychiatric complications of epilepsy in childhood 201

Background 202

Seizures with psychiatric content 203

Behavioural problems associated with epilepsy 204

Psychiatric disorders co-morbid with epilepsy 205

Pseudoseizures 206

Psychiatric adverse effects of antiepileptic drugs 207

Approach to assessment 208

Approach to management 210

15 Schizophrenia and psychotic disorders 213

Concepts and definitions 214

Epidemiology 216

Aetiology and risk factors 218

Assessment 220

Differential diagnosis and co-morbidity	222
Management	224
Course and outcome	228
Case example	230
<hr/>	
16 Bipolar disorder	233
Definitions	234
Epidemiology and aetiology	236
Assessment	238
Differential diagnosis and co-morbidity	240
Treatment	242
Course and prognosis	244
Clinical examples	245
Treatment algorithms	246
<hr/>	
17 Depression	249
Definitions and epidemiology	250
Aetiology	252
Assessment, differential diagnosis, and co-morbidity	254
Management 1: general principles and psychological treatments	256
Management 2: pharmacological treatments	258
Prognosis, course, and outcomes	262
Clinical example	264
<hr/>	
18 Suicide and deliberate self-harm	267
Suicide: definition and epidemiology	268
Deliberate self-harm	270
Aetiology	272
Assessment, differential diagnosis, and co-morbidity	274
Clinical example	276
Management	278
Prognosis, course, and outcome	279
<hr/>	
19 Anxiety disorders	281
Definition, epidemiology, aetiology, differential diagnosis, and co-morbidity	282
General management principles both psychological and pharmacological	284

Generalized anxiety disorder and panic disorder 286

Separation anxiety and school refusal 288

Social anxiety disorder and selective mutism 290

Specific phobias 292

Clinical examples 294

20 Obsessive compulsive disorder 297

Definitions and epidemiology 298

Aetiology 299

Assessment, differential diagnosis, and co-morbidity 300

Clinical example 302

Management: psychological 303

Management: pharmacological 304

Prognosis, course, and outcome 305

21 Somatoform disorders 307

Definitions 308

Presentation 310

Impact 311

Epidemiology and aetiology 312

Assessment, differential diagnosis, and co-morbidity 314

Management 316

Clinical example 318

22 Post-traumatic stress disorder 321

Life stresses and psychiatric disorder 322

Definitions and epidemiology 324

Aetiology 326

Assessment, differential diagnosis, and co-morbidity 328

Management 330

Prognosis, course, and outcome 332

Clinical example 333

23 Anorexia nervosa 335

Definitions 336

Epidemiology 337

Aetiology 338

Assessment 340

- Differential diagnosis and co-morbidity 342
- Management: psychological 344
- Management: pharmacological 346
- Prognosis, course, and outcome 347
- Clinical example 348
-
- 24 Bulimia nervosa and other eating disorders of childhood 351**
- Definitions and epidemiology 352
- Aetiology 353
- Assessment 354
- Differential diagnosis and co-morbidity 356
- Clinical example 358
- Management: pharmacological 360
- Management: psychological 360
- Prognosis, course, and outcome 361
- Other eating disorders of childhood 362
-
- 25 Obesity 365**
- Definitions 366
- Epidemiology and aetiology 368
- Assessment 370
- Co-morbidity and consequences of obesity 371
- Management 372
- Prognosis, course, and outcomes 374
- Clinical examples 376
-
- 26 Substance abuse 379**
- Definitions 380
- Epidemiology 381
- Current substance abuse prevalence and trends in
young people 382
- Aetiology 384
- Prevention strategies 385
- Screening 386
- Assessment 388
- Co-morbidity 390
- Management 392

27 Therapeutic interventions	395
Behavioural therapy	396
Parenting programmes	398
Cognitive behavioural therapy (CBT)	400
Interpersonal therapy (IPT)	402
Family therapy	403
Psychodynamic psychotherapy	404
Group therapy	406
Play and art therapies	407
Self-help	408
Liaison	409
<hr/>	
28 Child protection	411
Child protection: general issues	412
Physical abuse and neglect	414
Emotional abuse	416
Munchausen's syndrome by proxy	417
Child sexual abuse: definitions and prevalence	418
Child sexual abuse: impact and intervention	420
<hr/>	
29 Forensic Issues	423
Medico-legal assessments	424
Medico-legal reports and court work	426
<hr/>	
30 Legal frameworks	429
Definitions and legislation	430
Parentage, and parental responsibilities and rights	432
Responsibility, capacity, and consent to treatment	435
Child protection legislation	436
Duties and responsibilities of the local authority	438
The Juvenile Justice System (England and Wales)	439
The Children's Hearing system (Scotland)	440
Adoption and fostering	442
Disclosure checks	444
<hr/>	
31 Service development and delivery	447
Child and Adolescent Mental Health Services (CAMHS): strategic issues	448

- Implementation issues 450
 - Inpatient services 452
 - Day services and intensive outreach 455
 - Consultation to other services 456
-

32 Management and consultant issues 459

- Management 460
- Planning a service 461
- Multidisciplinary teams: understanding the team system 462
- Multidisciplinary teams: managing leadership issues 464
- Ethical and clinical responsibilities 466
- Clinical examples 469

- Appendix: Further reading 471
- Index 475
