<b>Preface</b>	ix
<b>Introduction: Breaking Camp to Find New Summits</b> <i>Susanne P. Lajoie</i>	xv
 <b>PART I: TECHNOLOGIES FOR SUPPORTING KNOWLEDGE BUILDING IN DISTRIBUTED LEARNING CONTEXTS</b>	
<b>1. Modeling the Process, Not the Product, of Learning</b> <i>Fabio N. Akhras and John A. Self</i>	3
<b>2. Toward Assessment of Knowledge-Building Practices in Technology-Mediated Work Group Interactions</b> <i>Sharon J. Derry, Stephen Gance, Laura Lee Gance, and Mark Schlager</i>	29
<b>3. Integrating Cognitive Tools for Peer Help: The Intelligent Intranet Peer Help-Desk Project</b> <i>Jim Greer, Gordon McCalla, John Cooke, Jason Collins, Vive Kumar, Andrew Bishop, and Julita Vassileva</i>	69
<b>4. Facilitating Students' Inquiry Learning and Metacognitive Development Through Modifiable Software Advisers</b> <i>Barbara Y. White, Todd A. Shimoda, and John R. Frederiksen</i>	97
<b>5. Cognitive Approaches to Web-Based Instruction</b> <i>Brenda Sugrue</i>	133

## **PART II: COGNITIVE TOOLS THAT FOSTER NEW FORMS OF REPRESENTATION**

- |  |  |     |
|--|--|-----|
| <b>6. Mindtools: Affording Multiple Knowledge Representations for Learning</b>                                     | <i>David H. Jonassen and Chad S. Carr</i>  | 165 |
| <b>7. What's in a Link? Student Conceptions of the Rhetoric of Association in Hypermedia Composition</b>           | <i>Julie Erickson and Richard Lehrer</i>   | 197 |
| <b>8. Employing Cognitive Tools Within Interactive Multimedia Applications</b>                                     | <i>Barry Harper, John Hedberg, Bob Corderoy, and Robert Wright</i>                                       | 227 |
| <b>9. Cognitive Tools for Medical Informatics</b>  | <i>Susanne P. Lajoie and Roger Azevedo</i>   | 247 |
| <b>10. Computer Tools That Link Assessment and Instruction: Investigating What Makes Electricity Hard to Learn</b> | <i>Daniel L. Schwartz, Gautam Biswas, John D. Bransford, Bharat Bhuva, Tamara Balac, and Sean Brophy</i> | 273 |
| <b>11. DNA: Toward an Automated Knowledge Elicitation and Organization Tool</b>                                    | <i>Valerie J. Shute, Lisa A. Torreano, and Ross E. Willis</i>  | 309 |

## **PART III: EPILOGUE**

- |  |   |     |
|--|---|-----|
| <b>12. Fallible, Distractible, Forgetful, Willful, and Irrational Learners</b>   | <i>Benedict du Boulay</i>                   | 339 |
| <b>13. It Won't Happen Soon: Practical, Curricular, and Methodological Problems in Implementing Technology-Based Constructivist Approaches in Classrooms</b> | <i>Ellen B. Mandinach and Hugh F. Cline</i> | 377 |

---

**PART IV: DISCUSSION****14. What Are the Tools For? Revolutionary Change  
Does Not Follow the Usual Norms***Alan Lesgold*
