## **1**

### **Foundations of Intelligent Tutoring Systems: An Introduction**

**1**

Hugh L. Burns and Charles G. Capps

The Expert Module, *2*

The Student Diagnosis Module, *5*

The Curriculum and Instruction Module, *7*

The Instructional Environment, *9*

The Human-Computer Interface, *11*

ITS Pragmatics, *13*

ITS Evaluation, *15*

Toward Knowledge-Based Educational Systems, *17*

References, *18*

## **2**

### **The Expert Module**

**21**

John R. Anderson

Relationship of Expert Modules to Expert Systems, *23*

Black Box Models, *26*

Glass Box Expert Systems, *29*

Cognitive Models, *34*

Procedural Knowledge, *35*

Declarative Knowledge, *40*  
Qualitative Process Models, *45*  
Basic Research Issues, *48*  
Near-Term Goals, *49*  
References, *50*

### **3**

#### **Student Modeling 55**

Kurt VanLehn

The Student Modeling Problem, *56*  
A Three-Dimensional Space of Student Models, *57*  
Diagnostic Techniques, *64*  
Research Issues, *74*  
References, *76*

### **4**

#### **Curriculum and Instruction in Automated Tutors 79**

Henry M. Halff

Curriculum, *81*  
Instruction, *89*  
Research and Practice in Automated Tutors, *96*  
Conclusion, *105*  
References, *106*

### **5**

#### **The Environment Module of Intelligent Tutoring Systems 109**

Richard R. Burton

Introduction to the Environment Module, *109*  
Issues of Instructional Environments, *115*  
Tools for Building Instructional Environments, *129*  
Future Technology and Instructional Environments, *136*  
Research Opportunities in Instructional Environments, *137*  
References, *139*

## 6

### **The Role of Human-Computer Interaction in Intelligent Tutoring Systems**

143

James R. Miller

Introduction, *143*Human-Computer Interaction: The State of the Art, *145*

Going Beyond Interface Technology:

    Toward Interface Semantics, *168*Where Can We Begin?, *181*References, *184*

## 7

### **Pragmatic Considerations in Research, Development, and Implementation of Intelligent Tutoring Systems**

191

William B. Johnson

Introduction, *191*Existing Intelligent Tutoring Systems for Training, *193*Designing the System to Meet User Needs, *195*Issues in Implementing ITSs, *199*ITS Applications and Research, *203*Summary, *206*References, *206*

## 8

### **Evaluating ITSs: The Cognitive Science Perspective**

209

David Littman and Elliot Soloway

Introduction, *209*External Evaluation: The Cognitive Perspective, *211*Internal Evaluation: The Architecture Perspective, *224*Existing Evaluations Interpreted, *229*Directions for Future Work, *234*Conclusions, *241*Acknowledgments, *241*References, *241*

# 9

## **Directions for Research and Applications** **243**

J. Jeffrey Richardson

Recommended Research, *243*

Recommended Applications, *248*

References, *252*

## **Appendix I: Selected Intelligent Tutoring Systems** **253**

## **Glossary of ITS Terms** **261**

## **Author Index** **267**

## **Subject Index** **273**
