PREFACE	xi
1. COMPUTERS AND THE INSTRUCTIONAL PROCESS	1
Objectives	1
Introduction: The Integration of Computers in the Schools	1
Computer Competency for Educators	2
Current Instructional Uses of Computers	5
Assumptions Underlying Instructional Uses of Computers	6
<i>Computers and Teachers</i>	6
<i>Instructional Objectives</i>	7
<i>The Computer as an Instructional Tool</i>	8
<i>Effective Instruction and Computer-Based Instruction</i>	8
<i>Curriculum and Computers</i>	9
The Instructional Model, Computers, and the Organization of This Book	10
Putting the Book to Work	13
2. PRINCIPLES OF EFFECTIVE INSTRUCTION AND COMPUTERS IN THE SCHOOLS	15
Objectives	15
Instructional Principles and Computer-Based Instruction	15
Research-Based Instructional Principles Related to Computer- Based Instruction	18
<i>Beginning Lessons with Review</i>	18

<i>Beginning Lessons with an Introduction</i>	19
<i>Presenting Instruction Fluently and Precisely</i>	20
<i>Using Understandable Language and Concepts</i>	22
<i>Using Relevant Examples and Demonstrations</i>	22
<i>Ensuring High Rates of Success</i>	23
<i>Presenting Instruction at a Brisk Pace</i>	24
<i>Making Smooth Transitions Within and Between Lessons</i>	25
<i>Making Assignments and Instructions Clear</i>	25
<i>Summarizing the Main Points of the Lesson</i>	26
<i>Maintaining Reasonable Standards</i>	26
<i>Checking Student Performance Routinely</i>	28
<i>Posing Questions One at a Time</i>	28
<i>Providing Instructional Feedback</i>	29
<i>Affirming Correct Responses</i>	29
<i>Providing Sustained Feedback After Incorrect Responses</i>	30
Summary	31
Putting the Book to Work	32
3. EFFECTIVE COURSEWARE DESIGN	35
Objectives	35
Introduction: The Importance of Good Design	35
CBI Lesson Development	36
Lesson Organization	38
<i>Drill and Practice</i>	38
<i>Tutorial</i>	38
<i>Simulation</i>	39
<i>Other Possibilities</i>	41
<i>Basic Principles of Organization</i>	42
Types of Instructional Displays	42
<i>Preinstructional Displays</i>	43
<i>Instructional Displays</i>	44
<i>Postinstructional Displays</i>	45
Designing Instructional Displays	46
<i>Screen Layout</i>	46
<i>Design of the Instructional Stimuli</i>	47
<i>Directions to the Students</i>	48
<i>Learning Guidance</i>	49
Summary	50
Putting the Book to Work	51

4. INSTRUCTIONAL MANAGEMENT	53
Objectives	53
Introduction: Managing Instruction with Computers	54
Promoting Effective Schools through Computer-Managed Instruction	55
<i>Computer-Managed Instruction and Mastery Learning</i>	56
<i>Computer-Managed Instruction and Research on Effective Schools</i>	58
Components of Comprehensive Computer-Managed Instructional Programs	58
<i>Electronic Storage of Curricular Scope and Sequence</i>	60
<i>Electronic Storage of Individual Student Files and Records</i>	64
<i>Testing, Scoring, and Interpretation</i>	65
<i>Instructional Management Reports</i>	66
Computer-Managed Instructional Systems in Use	66
<i>Integrated Learning Systems</i>	68
<i>Generic Instructional Management Systems</i>	75
<i>Subject-Specific Instructional Management Systems</i>	84
Selecting and Implementing a Computer-Based Instructional Management System	85
<i>Staff Attitudes and Training</i>	86
<i>Organizational Issues</i>	86
<i>Technology Issues</i>	87
Summary	88
Putting the Book to Work	89
5. ASSESSMENT AND EVALUATION	91
Objectives	91
Introduction: Testing in Today's Schools	92
Components of Computer-Based Testing Systems	95
<i>Constructing Item Banks and Tests</i>	96
<i>Constructing a Test</i>	100
<i>Test Administration</i>	100
<i>On-Line Testing</i>	102
<i>Test Scoring</i>	104
<i>Test Interpretation</i>	105
<i>Computations and the Assignment of Grades</i>	105

Computer-Assisted Test Interpretation	108
<i>Diagnostic Classification</i>	111
<i>Item Analysis</i>	116
Monitoring and Reporting	117
Summary	118
Putting the Book to Work	118
6. SPECIAL LEARNERS AND SPECIAL APPLICATIONS	121
Objectives	121
Introduction: Special Learners in Today's Classroom	122
Information Processing, Computers, and Learning	123
Special Populations in the Schools	125
Learning Characteristics and Computer-Assisted Instruction	128
<i>Students with Learning Problems Related to Information</i>	
<i>Reception</i>	128
<i>Students with Learning Problems Related to</i>	
<i>Information Processing</i>	133
<i>Students with Learning Problems Related to</i>	
<i>Language Expression</i>	138
<i>Gifted and Talented Students</i>	141
Summary	147
Putting the Book to Work	148
7. COURSEWARE EVALUATION	151
Objectives	151
Introduction: The Why and How of Courseware Evaluation	151
Evaluation Procedures	153
Using the LONGMAN Courseware Evaluation Checklist	154
<i>Instructional Content</i>	154
<i>Instructional Procedures</i>	162
<i>Instructional Management</i>	167
Validity and Reliability of the LONGMAN Checklist	169
Summary: Putting the Book to Work	172
LONGMAN Courseware Evaluation Checklist	171

8. COMPUTERS AND INSTRUCTION IN THE SCHOOLS OF TOMORROW	173
Objectives	173
Introduction: Options for the Future	173
Scenario I: Instruction as Usual with the Miscellaneous Use of Computers	175
Scenario II: The Decline and Fall of Computer Technology in the Schools	176
Scenario III: New Horizons in American Education on the Wings of Computer Technology	176
<i>Public Policy, Accountability, and the Comprehensive Use of Computers</i>	178
<i>Advanced Networking Technology</i>	178
<i>Improvements in Instructional Courseware</i>	180
<i>Teacher Authoring</i>	183
Epilogue: Integration of Informed Instructional Practice and Computer Technology	183
