Acknowledgements.....	11
Foreword.....	13
1. Introduction.....	17

Theory

2. Theoretical Background.....	23
2.1 Measuring Life Satisfaction	23
2.1.1 Quality of Life Research.....	23
2.1.2 Objective Measures of Well-Being.....	29
2.1.3 Subjective Measures of Well-Being.....	33
2.1.4 Generalised Life Satisfaction.....	40
2.2 Theoretical Approaches to Explain Differences in Subjective Well-Being (SWB).....	44
2.3 Social Capital.....	58
2.4 Theoretical Links from Social Capital to SWB	65

Analysis

3. Hypotheses	79
----------------------------	-----------

4. Operationalisation	83
4.1 Life Satisfaction.....	83
4.2 Cognitive Social Capital.....	83
4.3 Structural Social Capital.....	84
4.4 Linking Social Capital.....	86
4.5 Control Variables.....	87
5. Data and Method	89
6. Descriptive Statistics	95
7. Analysis and Interpretation of Results	99
7.1 All Countries: In Summary a Considerable Effect of Social Capital.....	99
7.1.1 Bivariate Analysis.....	99
7.1.2 Multivariate Regression Analysis.....	107
7.2 Rich Countries: Effect of Social Capital Even More Important than Effect of Income.....	113
7.2.1 Bivariate Analysis.....	114
7.2.2 Multivariate Regression Analysis.....	117
7.3 Poor and Middle-Income Countries: Economic Factors (Still) More Prominent than Social Capital.....	120
7.3.1 Bivariate Analysis.....	120
7.3.2 Multivariate Regression Analysis.....	123

8. Conclusion	127
8.1 Central Outcome: A Positive and (Largely) Significant Effect whose Strength Varies between Rich and Poor Countries.....	127
8.2 Limitations.....	132
8.3 Research Implications.....	135
8.4 Policy Implications.....	136
Appendix.....	139
List of Figures and Tables.....	153
Bibliography.....	157

List of Figures and Tables

Figures

Figure 1: Equation of SWB.....	35
Figure 2: The basic framework of QOL research as discussed in this book.....	43
Figure 3: SWB and democratic institutions.....	50
Figure 4: SWB by level of economic development.....	51
Figure 5: GDP and life satisfaction in the UK 1975 – 1996.....	54
Figure 6: Summary of chapter 2.4 - the theoretical links at a glance.	66
Figure 7: Social capital variables and happiness..	68
Figure 8: Path diagram.	82
Figure 9: National mean life satisfaction (y) and generalised trust (cognitive social capital) (x_1) in all countries	100
Figure 10: National mean life satisfaction (y) and average number of memberships in types of associations (structural social capital) (x_2) in all countries	101
Figure 11: National mean life satisfaction (y) and average <i>active</i> memberships in types of associations (x_{2a}) in all countries	103
Figure 12: National mean life satisfaction (y) and average <i>inactive</i> memberships in types of associations (x_{2b}) in all countries.	104
Figure 13: National mean life satisfaction (y) and national mean index trust in institutions (linking social capital) (x_3) in all countries	107

Figure 14: National mean life satisfaction (y) and generalised trust (cognitive social capital) (x_1) in rich countries	115
Figure 15: National mean life satisfaction (y) and average memberships in types of associations (structural social capital) (x_2) in rich countries	116
Figure 16: National mean life satisfaction (y) and generalised trust (cognitive social capital) (x_1) in poor and middle-income countries	121
Figure 17: National mean life satisfaction (y) and average memberships in types of associations (structural social capital) (x_2) in poor and middle-income countries	122

Tables

Table 1: Objective and Subjective Social Indicators.....	28
Table 2: Dimensions of Objective and Subjective Well-Being.....	53
Table 3: The Hypothesised Relative Importance of the Effect of Social Capital vs. GDP on National Mean Life Satisfaction in Rich vs. Poor Countries	81
Table 4: Descriptive Statistics of the Variables in the Index Variable “Confidence in Institutions” (Linking Social Capital).....	86
Table 5: Correlation between Index Variable “Confidence in Institutions” and the Variables that it Consists of	87
Table 6: Descriptive Statistics of the Dependent and the Independent Variables for All Countries.....	95
Table 7: Descriptive Statistics of the Control Variables for All Countries	97
Table 8: Multivariate Regression Analysis for all Countries	109

Table 9: Multivariate Regression Analysis for Rich Countries.....	118
Table 10: Multivariate Regression Analysis for Poor and Middle-Income Countries.....	123
Table 11: The Observed and Hypothesised Relative Importance of the Effect of Cognitive Social Capital vs. GDP on Life Satisfaction in Rich vs. Poor Countries	131
Table 12: Descriptive Statistics of the Rich Countries only.....	139
Table 13: Descriptive Statistics of the Poor and Middle-Income Countries only.....	141
Table 14: Descriptive Statistics of the Dependent and Independent Variables for the 125 Cases as Used in the Regression Analysis only	143
Table 15: Descriptive Statistics of Freedom House Index	145
Table 16: Bivariate Correlation of GDP and Freedom House Index.....	146
Table 17: Mean Life Satisfaction Score for each Country and Survey Year ...	147
