# Contents

**List of Illustrations** ..... xiii

**Preface** ..... xvii
Acknowledgments ..... xvii

**Introduction** ..... 1
Target Audience and Structure ..... 3

**I Concepts and Principles** ..... 9

**Chapter 1. IT Design** ..... 11
1.1 What Is IT Design? ..... 11
1.2 Overview of the MUST Method ..... 17
1.3 Why IT Design? ..... 22
1.4 Organizing and Managing IT Design Projects ..... 26
1.5 Relating to Other Methods ..... 29
1.6 Five Examples of IT Design Projects ..... 32
1.6.1 Example 1: A Focused Project in a Small Business ..... 34
1.6.2 Example 2: An Ambitious Project in a Big Company ..... 36
1.6.3 Example 3: A Supplier Investigates the Feasibility of a Standard System ..... 41
1.6.4 Example 4: Focus on Strategic Alignment ..... 44
1.6.5 Example 5: Clarifying Organizational Potentials ..... 47
1.6.6 Summary ..... 50

**Chapter 2. Principles of the Method** ..... 53
2.1 The Principle of a Coherent Vision for Change ..... 53
2.2 The Principle of Genuine User Participation ..... 58
2.2.1 Mutual Learning Process ..... 61
2.3 The Principle of Firsthand Experience with Work Practices ..... 65
2.4 The Principle of Anchoring Visions ..... 70
2.5 Conflicts and Dilemmas in IT Design ..... 75

**II Phases of the Method** ..... 81

**Chapter 3. Phases, Decisions, and Contexts** ..... 83

**Chapter 4. Initiation Phase: Project Establishment . . . 91**
4.1 Objective . . . . . 92
4.2 Motivation . . . . . 92
4.3 Situations and Ambitions . . . . . 93
4.4 Examples of Initiation Phases . . . . . 96
4.4.1 Situation 1: Routine . . . . . 96
4.4.2 Situation 2: Mutual Introduction . . . . . 97
4.4.3 Situation 3: Hesitation, Disagreement, or Conflict . . . . . 98
4.5 Possible Phase Activities . . . . . 100
4.5.1 Planning the Initiation Phase . . . . . 100
4.5.2 Establishing an Overview. . . . . 101
4.5.3 Defining the Assignment . . . . . 102
4.5.4 Identifying Critical Factors . . . . . 102
4.5.5 Clarifying the In-Line Analysis Phase . . . . . 103
4.5.6 Organizing the Project . . . . . 104
4.5.7 Choosing the Participants . . . . . 105
4.5.8 Identifying Stakeholders . . . . . 107
4.5.9 Starting Project Anchoring . . . . . 108
4.5.10 Establishing the Project Group Socially . . . . 109
4.5.11 Writing the Project Charter . . . . . 110
4.5.12 Planning the Process . . . . . 110
4.6 Possible Results of the Phase . . . . . 111
4.6.1 Results in Terms of the IT Design Project . . . . 112
4.6.2 Results in Terms of the Implementation Project . . . . . 113
4.6.3 Results in Terms of Business Strategy . . . . . 114
4.6.4 Results in Terms of Work Practices . . . . . 114
4.6.5 Results in Terms of IT Systems . . . . . 114
4.6.6 Results in Terms of the IT Platform . . . . . 115
4.7 Summary and Literature . . . . . 115

**Chapter 5. In-Line Analysis Phase: Strategic Alignment Analysis . . . . . 117**
5.1 Objective . . . . . 117
5.2 Motivation . . . . . 118
5.3 Situations and Ambitions . . . . . 119
5.4 Examples of In-Line Analysis Phases . . . . . 122
5.4.1 Situation 1: The In-Line Analysis Phase Is Irrelevant . . . . . 122
5.4.2 Situation 2: Routine . . . . . 123
5.4.3 Situation 3: Responsibility Is Delegated . . . . . 124
5.4.4 Situation 4: Strategic Clarification Is Required . . . . . 125
5.5 Possible Phase Activities . . . . . 128
5.5.1 Analyzing the Environment . . . . . 129
5.5.2 Analyzing the Business Strategy . . . . . 130

5.5.3 Analyzing the IT Strategy . . . . . 130
5.5.4 Innovative Technology Analysis . . . . . 132
5.5.5 Identifying the Project's Work Domains . . . . 132
5.5.6 Writing a Report . . . . . 133
5.6 Possible Results of the Phase . . . . . 134
5.6.1 Results in Terms of the Design Project . . . . . 135
5.6.2 Results in Terms of the Implementation Project . . . . . 135
5.6.3 Results in Terms of Business Strategy . . . . . 136
5.6.4 Results in Terms of Work Practices . . . . . 136
5.6.5 Results in Terms of IT Systems . . . . . 137
5.6.6 Results in Terms of the IT platform . . . . . 137
5.7 Summary and Literature . . . . . 137

**Chapter 6. In-Depth Analysis Phase: Ethnographically Inspired Analysis . . . . . 139**
6.1 Objective . . . . . 139
6.2 Motivation . . . . . 140
6.3 Situations and Ambitions . . . . . 141
6.4 Examples of In-Depth Analysis Phases . . . . . 143
6.4.1 Situation 1: Condensed In-Depth Analysis Phase . . . . . 143
6.4.2 Situation 2: Comprehensive but Focused Analysis . . . . . 144
6.4.3 Situation 3: Broad Analysis of Limited Scope 146
6.4.4 Situation 4: Comprehensive and Broad Analysis . . . . . 148
6.5 Possible Phase Activities . . . . . 149
6.5.1 Planning the In-Depth Analysis Phase . . . . . 150
6.5.2 Data Gathering . . . . . 151
6.5.3 Analysis . . . . . 153
6.5.4 Presentation . . . . . 156
6.5.5 Changing Focus . . . . . 158
6.5.6 Reporting . . . . . 158
6.6 Possible Results of the Phase . . . . . 159
6.6.1 Results in Terms of the Design Project . . . . . 160
6.6.2 Results in Terms of the Implementation Project . . . . . 161
6.6.3 Results in Terms of Business Strategy . . . . . 161
6.6.4 Results in Terms of Work Practices . . . . . 161
6.6.5 Results in Terms of IT Systems . . . . . 162
6.6.6 Results in Terms of the IT Platform . . . . . 163
6.7 Summary and Literature . . . . . 163

**Chapter 7. Innovation Phase: Vision Development . . 165**
7.1 Objective . . . . . 166
7.2 Motivation . . . . . 167

7.3 Situations and Ambitions . . . . . 168
7.4 Examples of Innovation Phases . . . . . 170
7.4.1 Situation 1: Market Study . . . . . 170
7.4.2 Situation 2: Adapting Work Organization to Standard Systems . . . . . 171
7.4.3 Situation 3: Adapting IT Systems to Work Organization . . . . . 174
7.4.4 Situation 4: Simultaneous Development of IT Systems and Work Organization . . . . . 176
7.5 Possible Phase Activities . . . . . 178
7.5.1 Planning the Innovation Phase . . . . . 179
7.5.2 Market Study . . . . . 179
7.5.3 Developing and Gathering Ideas . . . . . 180
7.5.4 Mock-Ups and Prototypes . . . . . 182
7.5.5 Identifying Qualification Requirements . . . . . 183
7.5.6 Consequence Analyses . . . . . 183
7.5.7 Implementation Strategy and Plan . . . . . 185
7.5.8 Writing a Design Project Report . . . . . 186
7.6 Possible Results of the Phase . . . . . 188
7.6.1 Results in Terms of the Design Project . . . . . 189
7.6.2 Results in Terms of the Implementation Project . . . . . 189
7.6.3 Results in Terms of Business Strategy . . . . . 190
7.6.4 Results in Terms of Work Practices . . . . . 190
7.6.5 Results in Terms of IT Systems . . . . . 191
7.6.6 Results in Terms of the IT Platform . . . . . 192
7.7 Summary and Literature . . . . . 192

**III Method, Tools, and Techniques . . . . . 195**

**Chapter 8. An Overview of Techniques . . . . . 197**
8.1 Overview . . . . . 197
8.2 Data Gathering . . . . . 202
8.3 Analysis and Presentation . . . . . 203
8.4 Brief Description of MUST Method Techniques . . . . 205

**Chapter 9. Tools and Techniques . . . . . 217**
9.1 Baseline Planning . . . . . 217
9.2 Review . . . . . 222
9.3 Hearing . . . . . 225
9.4 Interview . . . . . 228
9.4.1 Preparation . . . . . 230
9.4.2 Execution . . . . . 231
9.4.3 Processing . . . . . 231
9.5 Document Analysis . . . . . 233
9.6 Functional Analysis . . . . . 235

9.6.1 Concepts . . . . . 236
9.6.2 Procedure . . . . . 238
9.6.3 Functional Models . . . . . 240
9.7 SWOT Analysis . . . . . 242
9.8 Observation . . . . . 246
9.8.1 Preparation . . . . . 247
9.8.2 Execution . . . . . 249
9.8.3 Processing . . . . . 250
9.9 Thinking Aloud . . . . . 250
9.10 Workshops . . . . . 252
9.10.1 Freehand Drawing . . . . . 256
9.10.2 Collage . . . . . 259
9.10.3 Dead Sea Scroll . . . . . 261
9.10.4 Role List . . . . . 263
9.10.5 Communication Model . . . . . 264
9.10.6 Timelines . . . . . 265
9.10.7 Design Sketches . . . . . 266
9.11 Future Workshop . . . . . 270
9.11.1 Preparation Phase . . . . . 273
9.11.2 Critique Phase . . . . . 274
9.11.3 Fantasy Phase . . . . . 275
9.11.4 Realization Phase . . . . . 276
9.11.5 Follow-Up Phase . . . . . 277
9.12 Mapping . . . . . 277
9.12.1 Diagnostic Maps . . . . . 280
9.12.2 Virtual Maps . . . . . 282
9.13 Prompted Reflection . . . . . 284
9.13.1 Preparation . . . . . 286
9.13.2 Workshops . . . . . 286
9.13.3 Analysis . . . . . 287
9.13.4 Discussing the Results . . . . . 289
9.14 Company Visit . . . . . 290
9.15 Experimenting with Prototypes . . . . . 293
9.15.1 Mock-Ups and Horizontal Prototypes . . . . . 294
9.15.2 Vertical Prototypes . . . . . 298
9.16 Developing Scenarios . . . . . 299

**Epilogue: How to Make Use of the Book . . . . . 305**
Including the MUST Method in Practitioners' Repertoire for Action . . . . . 305
Lessons Learned . . . . . 308
Commitment to Change . . . . . 309
Observation Led to a Breakthrough in the Dialogue . . . . . 310
Accepting the Stranger . . . . . 311
Using the Textbook for a University Course . . . . . 313
Motivation . . . . . 314

Objectives . . . . . 314
Size . . . . . 315
Prerequisites . . . . . 315
Contents . . . . . 315
Format . . . . . 315
Pedagogical Considerations . . . . . 318
Examination . . . . . 318
