List of figures	viii
List of tables	ix
List of boxes	x
Preface	xiii
1 Emerging educational technologies	1
<i>The curriculum and teaching practice</i>	2
<i>The teaching profession and teaching practice</i>	4
<i>Four important programme criteria</i>	6
<i>What PBI is designed to achieve</i>	10
<i>The bases of PBI</i>	10
<i>The educational objectives of PBI</i>	12
<i>What teachers have said about PBI</i>	14
<i>Using PBI with your students</i>	14
<i>Why Process-Based Instruction?</i>	15
<i>Summary</i>	15
2 Classroom dynamics	16
<i>Learner factors</i>	17
<i>Content factors</i>	21
<i>Classroom setting factors</i>	23
<i>Instructor factors</i>	28
<i>Summary</i>	31
3 Human learning and problem-solving	32
<i>What is learning?</i>	32
<i>What is cognition?</i>	33
<i>The role of cognitive research in education</i>	37
<i>Have cognitive education programmes worked?</i>	41
<i>Why Process-Based Instruction was developed</i>	46
<i>Problem-solving and planning</i>	46
<i>The nature of planning</i>	49
<i>Summary</i>	54

4 An overview of the PBI model	55
<i>The PBI model</i>	56
<i>Phases of the PBI model</i>	58
<i>PBI plans</i>	61
<i>Summary</i>	73
5 Preparing to use PBI	75
<i>Student considerations</i>	76
<i>Curriculum and teaching strategies</i>	78
<i>Teaching strategies</i>	84
<i>Incorporating planning across grades</i>	86
<i>PBI and integration</i>	87
<i>When to use, and when not to use, a plan</i>	88
<i>Adapting PBI plans to your situation</i>	89
<i>Making your first plan</i>	90
<i>Summary</i>	94
6 Starting PBI in the classroom	95
<i>The introduction phase</i>	95
<i>The establishment phase</i>	105
<i>Refining plans for classroom use</i>	108
<i>Using PBI flexibly</i>	113
<i>Summary</i>	116
7 Maintaining PBI in the classroom	117
<i>The consolidation phase</i>	117
<i>The incorporation phase</i>	123
<i>Summary</i>	126
8 Plans in the social and affective domains	127
<i>The PBI model and behaviour change</i>	129
<i>Criteria for PBI behaviour plans</i>	130
<i>Plans for the social and affective domains</i>	132
<i>Implementing a programme for behaviour change</i>	133
<i>Maintaining PBI behaviour management plans</i>	138
<i>Summary</i>	138
9 Applications of PBI for school personnel	139
<i>The use of PBI by individual teachers</i>	139
<i>The use of PBI by resource/remedial teachers</i>	140
<i>Whole-school approaches to PBI</i>	141
<i>Coordinators and consultants</i>	141
<i>Staff development within the school</i>	144
<i>Applying PBI in the home</i>	150
<i>Summary</i>	152

10 Trouble-shooting in PBI	153
<i>A positive disposition to classroom change</i>	153
<i>Maintaining progress</i>	154
<i>Regaining the initiative</i>	155
<i>Trouble in getting started</i>	155
<i>Solutions to some common problems with plans</i>	157
<i>A closer look at the situation</i>	161
<i>Focusing on curriculum content</i>	162
<i>Focusing on the student</i>	164
<i>Focusing on teaching strategies</i>	167
<i>Summary</i>	176
Notes	177

Appendix	185
Index	189

Figures

1.1	A graphic illustration of factors into which new educational technologies must fit	3
1.2	Influences on student learning outcomes	6
2.1	Three factor groups associated with learning and problem-solving performance	17
2.2	The effect of changes in competencies associated with learning and problem-solving performance	21
3.1	A diagrammatic representation of the relationship between executive control processes and information-processing activities using a task involving the learning of the periodic table of elements in chemistry	36
3.2	A representation of a hierarchy of strategies	45
4.1	The teaching–learning phases, and their foci, involved in PBI	57
4.2	A graphic representation of the teaching–learning strategy cycle within the ‘Introduction of plans’ phase	61
6.1	Relationship between the introduction and other phases of the PBI model	96
6.2	Relationship between the establishment and other phases in the PBI model	105
7.1	Relationship between the consolidation and other phases of the PBI model	118
7.2	Relationship between incorporation and the other PBI phases	123
10.1	A model for overcoming blockages in the PBI process	156

Tables

3.1	A list of problem-solving competencies and processes	48
3.2	Generalizable problem-solving procedures	48
4.1	The four teaching–learning phases of the PBI model	57
4.2	The key components of a PBI plan	63
4.3	A summary of the ways in which plans can be made	66
5.1	Categories of learners for any specific curriculum task	77
5.2	Planning goals across grades	86
5.3	A short PBI plan checklist	93
6.1	A checklist for orientation	98
6.2	Using a teacher-made plan to introduce PBI plans	102
6.3	Using a student–teacher plan to introduce PBI plans	102
6.4	A checklist for the introduction phase	104
6.5	Checklist for establishment phase	115
7.1	A checklist for skills developed during the consolidation phase	122
7.2	Checklist of skills to be demonstrated in the incorporation phase	126

Boxes

1.1	Some comments by teachers about Process-Based Instruction	13
2.1	What do we know about Christmas?	18
2.2	A mismatch of learner and content factors	22
2.3	A mismatch of learner and classroom setting factors	27
3.1	Cognitive behavioural instruction through verbal self-instruction training	39
3.2	Strategies Program for Effective Learning/Thinking (SPELT): an outline	39
3.3	An example of a differentiated plan	53
4.1	A plan for writing a paragraph	64
4.2	A jointly-prepared PBI plan for writing and punctuating a sentence	65
4.3	A plan for two-column addition	67
4.4	Example of a plan using drawings – ‘Our trip to the zoo’	68
4.5	A plan for subtracting with trading	70
4.6	A young student’s ‘plan’ for cleaning the dog	72
4.7	An example of a teacher-made plan and a PBI plan for an arithmetic task	73
5.1	A PBI plan for sounding words	79
5.2	Plan for calculating area	80
5.3	A PBI plan for a description of an Australian animal	81
5.4	A PBI plan for sandwich-making	82
5.5	A PBI plan for preparing an essay	83
5.6	How to do homework	84
5.7	A PBI plan for putting shoes away	85
5.8	A plan to make initial plans as a teacher	90
6.1	Which boy had a plan?	97
6.2	Modes of introducing PBI plans to students	99
6.3	Incorporating the four components within a visual plan	101
6.4	Developing a student/teacher-made plan for finding the area of a shape	103
6.5	An outline of a lesson in which a PBI plan was developed for finding project information	106

6.6	Robyn's initial plan for writing a story	110
6.7	Robyn's amended plan for writing a story	111
6.8	A teacher's plan for multiplication	112
6.9	A plan for writing a business letter	113
7.1	A plan for writing a summary of ideas from library research	119
7.2	Two plans for comparing plant growth	120
7.3	A generalized plan for homework	120
7.4	Example of the generalization of a plan for mathematics problems	121
7.5	Reducing plans	122
7.6	A general organizational framework plan	125
8.1	Levels approach to whole school discipline	131
8.2	Development of a plan for managing behaviour	134
8.3	My plan	137
9.1	A plan devised by a parent and her two children	151
9.2	Some comments on the effectiveness of a home-based PBI programme	152
10.1	Putting an egg in a bottle	159
10.2	Worksheet incorporating an evaluation of a student's planning skills	175
