Preface	vii
---------------	-----

Introduction

1. Mathematics Education: Historical Perspectives	3
<i>Myron F. Rosskopf</i> , Teachers College, Columbia University, New York, New York	

Part One: Forces Shaping Today's Mathematics Program

2. The Human Components	33
<i>Stephen S. Willoughby</i> , New York University, New York, New York	
3. Curriculum, Development, and Research	56
<i>Thomas A. Romberg</i> , Research and Development Center for Cognitive Learning, The University of Wisconsin, Madison, Wisconsin	
4. Textbooks and Supplementary Materials	89
<i>Jack E. Forbes</i> , Calumet Campus, Purdue University, Lafay- ette, Indiana	
5. Other Media and Systems	110
<i>William M. Fitzgerald</i> , Michigan State University, East Lan- sing, Michigan	
<i>Irvin E. Vance</i> , Michigan State University, East Lansing, Michigan	

Part Two: Teaching for Special Outcomes

- | | |
|---|-----|
| 6. The Art of Generating Interest | 137 |
| <i>Herman Rosenberg, Jersey City State College, Jersey City, New Jersey</i> | |
| 7. Concepts | 166 |
| <i>Kenneth B. Henderson, College of Education, University of Illinois, Urbana, Illinois</i> | |
| 8. Proof | 196 |
| <i>Robert M. Exner, Syracuse University, Syracuse, New York</i> | |
| <i>Myron F. Roszkopf, Teachers College, Columbia University, New York, New York</i> | |
| 9. Problem Solving | 241 |
| <i>John J. Kinsella, Newark State College, Union, New Jersey</i> | |
| 10. Generalizations | 267 |
| <i>Herbert Wills, The Florida State University, Tallahassee, Florida</i> | |
| 11. Skills | 291 |
| <i>Max A. Sobel, Montclair State College, Upper Montclair, New Jersey</i> | |

Part Three: Classroom Applications

- | | |
|---|-----|
| 12. Implications for Teacher Planning | 313 |
| <i>F. Joe Crosswhite, The Ohio State University, Columbus, Ohio</i> | |
| 13. An Example from Arithmetic | 337 |
| <i>Clarence H. Heinke, Capital University, Columbus, Ohio</i> | |
| 14. An Example from Algebra | 359 |
| <i>Harold C. Trimble, The Ohio State University, Columbus, Ohio</i> | |
| 15. An Example from Geometry | 380 |
| <i>Ramon F. Steinen, The University of Akron, Akron, Ohio</i> | |
| 16. An Example of Planning for Low Achievers | 397 |
| <i>David W. Wells, Oakland Schools, Pontiac, Michigan</i> | |
| <i>Albert P. Shulte, Oakland Schools, Pontiac, Michigan</i> | |
