

# Contents

<b>Preface</b>	<b>vii</b>
<b>1 Elementary theory of one-parameter semigroups</b>	<b>1</b>
1.1 Mean ergodic theorems . . . . .	1
1.2 Elementary theory of $C_0$ -semigroups . . . . .	23
1.3 Constrictive and quasi-constrictive semigroups . . . . .	43
<b>2 Positive semigroups in ordered Banach spaces</b>	<b>65</b>
2.1 Ordered Banach spaces, constrictors, domination . . . . .	65
2.2 Positive semigroups in Banach lattices . . . . .	80
2.3 Positive semigroups and geometry of Banach lattices . . . . .	102
<b>3 Positive semigroups in <math>L^1</math>-spaces</b>	<b>117</b>
3.1 Mean ergodicity of positive semigroups in $L^1$ -spaces . . . . .	117
3.2 Stability and lower-bounds for positive semigroups in $L^1$ -spaces . .	135
3.3 Positive semigroups in non-commutative $L^1$ -spaces . . . . .	144
<b>Bibliography</b>	<b>159</b>
<b>List of special symbols</b>	<b>173</b>
