

TABLE OF CONTENTS

	Page
UNIT I - BASIC CONCEPTS AND PROCEDURES	
Instructional Objectives for Unit I	2
Basic Measurement Concepts	3
X Role of Tests in Teaching and Learning	4
X Norm Referencing and Criterion Referencing	6
X Steps in Achievement Measurement	9
Learning Exercises	11
UNIT II - INSTRUCTIONAL OBJECTIVES	
Instructional Objectives for Unit II	16
Writing Instructional Objectives	17
Classifying Instructional Objectives	22
Using a Table of Specifications	27
Learning Exercises	31
UNIT III - TEST DESIGN AND ITEM WRITING	
Instructional Objectives for Unit III	60
X Principles Underlying Achievement Test Construction	61
X Major Item Types	65
Learning Exercises	90
UNIT IV - STATISTICAL CONCEPTS FOR INTERPRETING RESULTS AND EVALUATING TEST QUALITY	
Instructional Objectives for Unit IV	104
Statistical Concepts for Analyzing Test Results and Evaluating Test Quality	105
Central Tendency	105

**UNIT IV - STATISTICAL CONCEPTS FOR INTERPRETING RESULTS
AND EVALUATING TEST QUALITY**

Measures of Variability	108
The Normal Curve of Probability	113
Evaluating Test Quality	116
Learning Exercises	125
Table of Specifications	133
X Unit Test - Achievement Test Construction	134

UNIT V - ASSIGNING GRADES AND REPORTING STUDENT PROGRESS

Instructional Objectives for Unit V	142
Assigning Grades and Reporting Student Progress	143
Traditional Procedures for Assigning Grades	144
Criterion Referenced Grading	149
Norm Referenced Grading by Visual Inspection of Scores	150
Summarizing Grades and Making the Report of Achievement	156
Learning Exercises	159
