

TABLE OF CONTENTS

COLLECTION AND PREPARATION OF SOIL SAMPLES

1. Site Description 1
G. T. Patterson
2. Soil Sampling for Environmental Assessment 5
Jean Crepin and Richard L. Johnson
3. Soil Handling and Preparation 19
Thomas E. Bates

SOIL TEST ANALYSES

4. Nitrate and Exchangeable Ammonium Nitrogen 25
D. G. Maynard and Y. P. Kalra
5. Ammonium Acetate-Extractable Elements 39
R. R. Simard
6. Mehlich III-Extractable Elements 43
T. Sen Tran and R. R. Simard
7. Sodium Bicarbonate-Extractable P, K, and N 51
J. J. Schoenau and R. E. Karamanos
8. Available Potassium 59
Thomas E. Bates and John E. Richards
9. Extraction of Available Sulfur 65
C. G. Kowalenko
10. Characterization of Available P by Sequential Extraction 75
H. Tiessen and J. O. Moir
11. DTPA-Extractable Fe, Mn, Cu and Zn 87
J. Liang and R. E. Karamanos
12. Boron, Molybdenum, and Selenium 91
U. C. Gupta
13. Cadmium, Chromium, Lead, and Nickel 101
Y. K. Soon and S. Abboud
14. Lime Requirement 109
T. Sen Tran and W. van Lierop
15. Chemical Characterization of Plant Tissue 115
John E. Richards

SOIL CHEMICAL ANALYSES

16. Soil Reaction and Exchangeable Acidity 141
W. H. Hendershot, H. Lalande, and M. Duquette
17. Soil Solution 147
Y. K. Soon and C. J. Warren
18. Soluble Salts 161
H. H. Janzen
19. Ion Exchange and Exchangeable Cations 167
W. H. Hendershot, H. Lalande, and M. Duquette
20. Carbonates 177
Tee Boon Goh, R. J. St. Arnaud, and A. R. Mermut

21.	Total and Organic Carbon	187
	<i>H. Tiessen and J. O. Moir</i>	
22.	Total Nitrogen	201
	<i>W. B. McGill and C. T. Figueiredo</i>	
23.	Total and Organic Phosphorus	213
	<i>I. P. O'Halloran</i>	
24.	Total and Fractions of Sulfur	231
	<i>C. G. Kowalenko</i>	
25.	Extractable Al, Fe, Mn, and Si	239
	<i>G. J. Ross and C. Wang</i>	
26.	Reference Materials for Data Quality	247
	<i>Milan Inhat</i>	

SOIL BIOLOGICAL ANALYSES

27.	Cultural Methods for Soil Microorganisms	263
	<i>J. J. Germida</i>	
28.	Soil Microbial Biomass C and N	277
	<i>R. P. Voroney, J. P. Winter, and R. P. Beyaert</i>	
29.	Vesicular-Arbuscular Mycorrhiza	287
	<i>Y. Dalpé</i>	
30.	Root Nodule Bacteria and Nitrogen Fixation	303
	<i>W. A. Rice and P. E. Olsen</i>	
31.	Microarthropods in Soil and Litter	319
	<i>J. P. Winter and R. P. Voroney</i>	
32.	Nematodes	333
	<i>J. Kimpinski</i>	
33.	Nitrogen Mineralization Potential in Soils	341
	<i>C. A. Campbell, B. H. Ellert, and Y. W. Jame</i>	
34.	Denitrification	351
	<i>E. G. Beauchamp and D. W. Bergstrom</i>	
35.	Earthworms	359
	<i>G. H. Baker and K. E. Lee</i>	

SOIL BIOCHEMICAL ANALYSES

36.	Total and Labile Polysaccharide Analysis of Soils	373
	<i>L. E. Lowe</i>	
37.	Organic Forms of Nitrogen	377
	<i>Yeh-Moon Chae</i>	
38.	Soil Humus Fractions	391
	<i>D. W. Anderson and J. J. Schoenau</i>	
39.	Light Fraction and Macroorganic Matter in Mineral Soils	397
	<i>E. G. Gregorich and B. H. Ellert</i>	
40.	Water-Soluble Phenolic Materials	409
	<i>L. E. Lowe</i>	
41.	Soil Lipids	413
	<i>Yeh-Moon Chae</i>	

ANALYSIS OF ORGANIC SOILS

- | | | |
|-----|--|-----|
| 42. | Sampling Organic Soils
<i>Marsha I. Sheppard, Charles Tarnocai, and Denis H. Thibault</i> | 423 |
| 43. | Physical Properties of Organic Soils
<i>L. E. Parent and J. Caron</i> | 441 |
| 44. | Chemical Properties of Organic Soils
<i>A. Karam</i> | 459 |
| 45. | Micromorphological Methodology for Organic Soils
<i>C. A. Fox and L. E. Parent</i> | 473 |
| 46. | Palynological Assessment of Organic Materials
<i>Pierre J. H. Richard</i> | 487 |

SOIL PHYSICAL ANALYSES

- | | | |
|-----|--|-----|
| 47. | Particle Size Distribution
<i>B. H. Sheldrick and C. Wang</i> | 499 |
| 48. | Soil Shrinkage
<i>B. P. Warkentin</i> | 513 |
| 49. | Soil Consistency Limits
<i>R. A. McBride</i> | 519 |
| 50. | Density and Compressibility
<i>J. L. B. Culley</i> | 529 |
| 51. | Soil Water Content
<i>G. C. Topp</i> | 541 |
| 52. | Soil Water Potential
<i>N. J. Livingston</i> | 559 |
| 53. | Soil Water Desorption Curves
<i>G. C. Topp, Y. T. Galganov, B. C. Ball, and M. R. Carter</i> | 569 |
| 54. | Soil Porosity
<i>M. R. Carter and B. C. Ball</i> | 581 |
| 55. | Saturated Hydraulic Conductivity: Laboratory Measurement
<i>W. D. Reynolds</i> | 589 |
| 56. | Saturated Hydraulic Conductivity: Field Measurement
<i>W. D. Reynolds</i> | 599 |
| 57. | Unsaturated Hydraulic Conductivity and Sorptivity:
Laboratory Measurement
<i>F. J. Cook, G. P. Lilley, and R. A. Nunns</i> | 615 |
| 58. | Unsaturated Hydraulic Conductivity: Estimation from Desorption Curves
<i>R. de Jong</i> | 625 |
| 59. | Unsaturated Hydraulic Conductivity: Field Measurement
<i>W. D. Reynolds</i> | 633 |
| 60. | Air Permeability
<i>C. D. Grant and P. H. Groenevelt</i> | 645 |
| 61. | Aggregate Stability to Water
<i>D. A. Angers and G. R. Mehuys</i> | 651 |
| 62. | Dry Aggregate Distribution
<i>W. M. White</i> | 659 |
| 63. | Soil Air
<i>R. E. Farrell, J. A. Elliott, and E. de Jong</i> | 663 |
