|---|-----------|
| General introduction to the STAR series | vii |
| Preface | ix |
| 1 The Role of Process Skills in Learning Science | 1 |
| The process skill focus of STAR | 3 |
| Classroom observation and the assessment of pupils | 5 |
| Methods of classroom observation | 8 |
| Classroom observation and the teacher | 10 |
| The use of SPOC as a research instrument | 11 |
| 2 Process Skills in Action | 15 |
| Rationale for the STAR list of process skills | 15 |
| The value of observing process skills in action | 19 |
| Indicators of process skills | 21 |
| 3 Observing the Classroom Systematically | 31 |
| Systematic observation | 31 |
| Methods of observation | 34 |
| Coding and analysis | 35 |
| Assessing the effectiveness of pupil performance | 37 |
| Classroom observation and teacher feedback | 41 |
| 4 The Science Process Observation Categories | 46 |
| General organization features | 48 |
| SPOC-categories: task related | 49 |
| The SPOC daysheet | 55 |
| The Use of SPOC | 55 |
| Reliability | 55 |

| | | |
|----------|--|------------|
| 5 | Science Process Skills in the Classroom – the Observation Results | 57 |
| | Introduction | 57 |
| | Year one of the study | 57 |
| | Teacher involvement | 58 |
| | Gender differences | 60 |
| | Pattern of the lesson | 61 |
| | Teacher development | 63 |
| | Suggestions for encouraging children’s process skills | 63 |
| | Year two results | 66 |
| | Year three results | 67 |
| | Pupil profiles | 69 |
| | Lesson content | 72 |
| | Conclusion | 74 |
| 6 | Observation by Teachers | 76 |
| | Raising awareness | 76 |
| | Recording observations | 77 |
| | Time | 84 |
| | Summary | 86 |
| 7 | Change in Teaching Primary Science | 87 |
| | Personal perceptions of change | 87 |
| | Conflicting indications of change | 88 |
| | Factors in change | 89 |
| | Retracing the steps of the STAR project | 92 |
| | The first year | 92 |
| | The first STAR conference | 93 |
| | The second phase – action research | 94 |
| | The observers’ roles | 94 |
| | Collecting evidence of process skills in action | 94 |
| | Progress and problems | 95 |
| | The second STAR conference | 95 |
| | Phase three – teachers working together | 96 |
| | Working with a colleague | 97 |
| | Managing time | 97 |
| | Making classroom observations | 98 |
| | Integrating innovation into existing curriculum policy | 99 |
| | Conclusions | 100 |
| | Appendix: Science Process Observation Categories (SPOC): Manual for Observers | 102 |
| | References | 115 |
| | Index | 119 |
