**Preface** xi

Organization xiii

Instructional Use xiv

How to Get the Software xvi

Acknowledgments xvii

**1 Introduction** 1

1.1 Literate Programs 2

1.2 Programming Style 8

1.3 Efficiency 11

Further Reading 12

Exercises 13

**2 Interfaces and Implementations** 15

2.1 Interfaces 15

2.2 Implementations 18

2.3 Abstract Data Types 21

2.4 Client Responsibilities 24

2.5 Efficiency 30

Further Reading 30

Exercises 31

**3 Atoms** 33

3.1 Interface 33

3.2 Implementation 34

Further Reading 42

Exercises 42

## **4 Exceptions and Assertions** 45

- 4.1 Interface 47
- 4.2 Implementation 53
- 4.3 Assertions 59
  - Further Reading 63
  - Exercises 64

## **5 Memory Management** 67

- 5.1 Interface 69
- 5.2 Production Implementation 73
- 5.3 Checking Implementation 76
  - Further Reading 85
  - Exercises 86

## **6 More Memory Management** 89

- 6.1 Interface 90
- 6.2 Implementation 92
  - Further Reading 98
  - Exercises 100

## **7 Lists** 103

- 7.1 Interface 103
- 7.2 Implementation 108
  - Further Reading 113
  - Exercises 114

## **8 Tables** 115

- 8.1 Interface 115
- 8.2 Example: Word Frequencies 118
- 8.3 Implementation 125
  - Further Reading 132
  - Exercises 133

<b>9</b>	<b>Sets</b>	137
9.1	Interface	138
9.2	Example: Cross-Reference Listings	140
9.3	Implementation	148
9.3.1	Member Operations	150
9.3.2	Set Operations	154
	Further Reading	158
	Exercises	158
<b>10</b>	<b>Dynamic Arrays</b>	161
10.1	Interfaces	162
10.2	Implementation	165
	Further Reading	169
	Exercises	169
<b>11</b>	<b>Sequences</b>	171
11.1	Interface	171
11.2	Implementation	174
	Further Reading	180
	Exercises	180
<b>12</b>	<b>Rings</b>	183
12.1	Interface	183
12.2	Implementation	187
	Further Reading	196
	Exercises	197
<b>13</b>	<b>Bit Vectors</b>	199
13.1	Interface	199
13.2	Implementation	202
13.2.1	Member Operations	204
13.2.2	Comparisons	209
13.2.3	Set Operations	211
	Further Reading	213
	Exercises	213

<b>14 Formatting</b>	215
14.1 Interface	216
14.1.1 Formatting Functions	216
14.1.2 Conversion Functions	219
14.2 Implementation	224
14.2.1 Formatting Functions	225
14.2.2 Conversion Functions	232
Further Reading	238
Exercises	239

<b>15 Low-Level Strings</b>	241
15.1 Interface	243
15.2 Example: Printing Identifiers	249
15.3 Implementation	251
15.3.1 String Operations	252
15.3.2 Analyzing Strings	258
15.3.3 Conversion Functions	263
Further Reading	264
Exercises	265

<b>16 High-Level Strings</b>	269
16.1 Interface	269
16.2 Implementation	276
16.2.1 String Operations	281
16.2.2 Memory Management	285
16.2.3 Analyzing Strings	288
16.2.4 Conversion Functions	293
Further Reading	293
Exercises	294

## **17 Extended-Precision Arithmetic 297**

17.1 Interface 297

17.2 Implementation 303

17.2.1 Addition and Subtraction 305

17.2.2 Multiplication 307

17.2.3 Division and Comparison 309

17.2.4 Shifting 315

17.2.5 String Conversions 319

Further Reading 321

Exercises 322

## **18 Arbitrary-Precision Arithmetic 323**

18.1 Interface 323

18.2 Example: A Calculator 327

18.3 Implementation 334

18.3.1 Negation and Multiplication 337

18.3.2 Addition and Subtraction 338

18.3.3 Division 342

18.3.4 Exponentiation 343

18.3.5 Comparisons 346

18.3.6 Convenience Functions 347

18.3.7 Shifting 349

18.3.8 String and Integer Conversions 350

Further Reading 353

Exercises 354

## **19 Multiple-Precision Arithmetic** 357

19.1 Interface 358

19.2 Example: Another Calculator 365

19.3 Implementation 373

19.3.1 Conversions 377

19.3.2 Unsigned Arithmetic 380

19.3.3 Signed Arithmetic 383

19.3.4 Convenience Functions 388

19.3.5 Comparisons and Logical Operations 395

19.3.6 String Conversions 399

Further Reading 402

Exercises 402

## **20 Threads** 405

20.1 Interfaces 408

20.1.1 Threads 409

20.1.2 General Semaphores 413

20.1.3 Synchronous Communication Channels 417

20.2 Examples 418

20.2.1 Sorting Concurrently 418

20.2.2 Critical Regions 423

20.2.3 Generating Primes 426

20.3 Implementations 431

20.3.1 Synchronous Communication Channels 431

20.3.2 Threads 434

20.3.3 Thread Creation and Context-Switching 446

20.3.4 Preemption 454

20.3.5 General Semaphores 457

20.3.6 Context-Switching on the MIPS and ALPHA 459

Further Reading 463

Exercises 465

**Interface Summary** 469

**Bibliography** 497

**Index** 505
