Acknowledgments vii

- 1 Introduction 1
- 2 Why Bend Science?
The Players, the Setting, and the Consequences 20
- 3 Where Are the Scientists?
Distorting Science without Oversight or Penalty 44
- 4 Shaping Science
The Art of Creating Research to Fit One's Needs 60
- 5 Hiding Science
The Art of Concealing Unwelcome Information 97
- 6 Attacking Science
The Art of Turning Reliable Research into "Junk" 128
- 7 Harassing Scientists
The Art of Bullying Scientists Who Produce Damaging Research 157
- 8 Packaging Science
The Art of Assembling an Expert Group to Advance a Favored Outcome 181

9	Spinning Science	
	<i>The Art of Manipulating Public Perceptions about Credible Science</i>	204
10	Restoring Science	
	<i>Forcing Bent Science Out into the Open</i>	229
11	Reforming Science Oversight	
	<i>Instituting More Vigorous Oversight Processes</i>	259
12	Final Thoughts	
	<i>A Broader Perspective on the Problem and the Prospects for Change</i>	291
	Notes	301
