I INTRODUCTION

1 Linguistic and Psychological Properties of American Sign Language: An Overview	3
<i>Patricia Siple</i>	
Orientations	4
Linguistic Structure	6
Psychological Processing	13
Conclusions	20
References	20

II LINGUISTIC INVESTIGATIONS

2 Focusing on the Nonmanual Components of American Sign Language	27
<i>Charlotte Baker and Carol A. Padden</i>	
Studying American Sign Language as a Multichannel Communication System	27
Eye-Blinking Behavior in a Visually Monitored Language	35
Appendix 2A Some Functions of Eye Movements and Facial Movements in American Sign Language Discourse	48
Appendix 2B Additional Examples of Conditional Sentences	51
References	57

3	Nonmanual Signals and Relative Clauses in American Sign Language	59
	<i>Scott K. Liddell</i>	
	Nonmanual Signals and Grammatical Functions	60
	Nonmanual Signals with Clausal Scope: Yes–No Questions, Negation	64
	Restrictive Relative Clauses	65
	Complex Relative Clauses	85
	Underlying Structures for American Sign Language Relative Clauses	86
	Conclusion	88
	References	89
4	How Many Seats in a Chair? The Derivation of Nouns and Verbs in American Sign Language	91
	<i>Ted Supalla and Elissa L. Newport</i>	
	Introduction	91
	Categories of Movement	93
	Distinctions between Concrete Nouns and Verbs in American Sign Language	99
	The Basic Movement Unit	111
	The Derivational Process for Nouns, Verbs, and Their Inflected Forms	118
	Conclusion	127
	Appendix 4A One Hundred Noun–Verb Pairs Categorized by Frequency, Manner, and Directionality of Movement in the Verb	128
	References	131
5	Aspect Marking in American Sign Language	133
	<i>Katherine Norton Warren</i>	
	Introduction	133
	The Problem	140
	Experimental Method	142
	Results–Usage	144
	Summary	156
	References	159

III NEUROLINGUISTIC STUDIES

6	Studies of Linguistic Behavior in Apes and Children	163
	<i>Roger Fouts, Gary Shapiro, and Charity O'Neil</i>	
	Introduction	163
	Historical Perspective	164

Completed Linguistic Studies	167
Additional Linguistic Research with Chimpanzees	177
Related Research with Other Primates	179
Conclusion	182
References	183
7 Development of Sign Language in Autistic Children and Other Language-Handicapped Individuals	187
<i>John D. Bonvillian and Keith E. Nelson</i>	
Introduction	187
Acquisition of Sign Language in a Mute Autistic Child	190
General Review of Sign Programs with Autistic Children	195
Projects Using Sign with Retarded and Aphasic Children	200
On Diversity of Subjects, Procedures, and Outcomes	202
Communication Modes, Sign, Speech, Sign and Speech	204
Needed Information on Subjects' Backgrounds and on Language Progress	207
Conclusion	208
References	209
8 Iconicity: Effects on the Acquisition of Sign Language by Autistic and Other Severely Dysfunctional Children	213
<i>M. M. Konstantareas, J. Oxman, and C. D. Webster</i>	
Peculiarities in Information Processing	216
Alternatives to Speech Training	219
Method	222
Results	228
Discussion	231
References	235
9 Patterns of Cerebral Specialization in Congenitally Deaf Adults: A Preliminary Report	239
<i>Helen J. Neville and Ursula Bellugi</i>	
Introduction	239
Methods	247
Data Analysis	250
Results	251
Discussion	252
References	254

IV PSYCHOLINGUISTIC RESEARCH

10	A Child's Representation of Action in American Sign Language	261
	<i>Ruth Ellenberger and Marcia Steyaert</i>	
	Introduction	261
	Background Information	262
	Discussion	264
	Conclusion	268
	References	269
11	Discrimination of Location in American Sign Language	271
	<i>Howard Poizner and Harlan Lane</i>	
	Method	274
	Results and Discussion	277
	References	286
12	Categorical Coding of Sign and English in Short-Term Memory by Deaf and Hearing Subjects	289
	<i>Harry W. Hoemann</i>	
	Studies of Proactive Interference	290
	Categorical Coding of Linguistic Stimuli by Bilingual Subjects	291
	Categorical Coding of English and Manual Alphabet Characters	292
	Control Task	296
	Switches between Manual and English Vocabularies	297
	Hearing Data	299
	Implications and Conclusions	301
	References	304

V HISTORICAL AND COMPARATIVE STUDIES

13	Sign Language and Creoles	309
	<i>Susan D. Fischer</i>	
	Introduction	309
	Sociolinguistic Description	310
	Pidgins and Creoles	313
	Syntactic and Lexical Characteristics of Creole Languages and the Analogy to American Sign Language	318

Some Possible Explanations	325
Conclusions	329
References	330
14 Historical Bases of American Sign Language	333
<i>James Woodward</i>	
Introduction	333
Sociological Evidence	334
Linguistic Evidence	337
Summary and Implications	345
References	347
15 French Canadian Sign Language: A Study of Inter-Sign Language Comprehension	349
<i>Rachel I. Mayberry</i>	
Sign Language Universality	350
French Canadian Sign Language	355
Conclusion	371
References	372
Index	373
