

CONTENTS

Chapter 1	Sources for Political Inquiry I: Library Reference Materials and Manuscripts as Data for Political Science	1
	<i>Clement E. Vose, Wesleyan University</i>	
	Errors and Oddities in Reference Materials	2
	Catalogs and Indexes to Books and Periodicals	7
	Encyclopedias, Yearbooks, Directories, and Handbooks	14
	Documents by and about the United States Government	18
Chapter 2	Sources for Political Inquiry II: Quantitative Data	43
	<i>Jerome M. Clubb, University of Michigan</i>	
	Social Science Data Archives	45
	Operation and Utilization of Data Archives	51
	Archival Development	57
	Data Sources	62
	Concluding Comments	67
	Partial List of Social Science Data Archives and Related Facilities	68
Chapter 3	Case Study and Theory in Political Science	79
	<i>Harry Eckstein, Princeton University</i>	
	Introduction	79
	Definitions	81
	Options on the Utility of Case Studies:	
	An Overview of the Argument	92
	Types and Uses of Case Study	96
	Objections to the Argument (and Replies to the Objections)	123
	Conclusion	132

Chapter 4	Polimetrics: Its Descriptive Foundations	139
	<i>Hayward R. Alker, Jr., Massachusetts Institute of Technology</i>	
	Introduction	139
	An Overview of Polimetrics	141
	Representational Measurement Procedures	157
	Intentionalist Assessment Practices:	
	Aggregative Approaches	167
	Intentional Assessment: Situational and Structural Measures	180
	Intentionalist Assessment: The Individual Case	188
	Conclusion	199
Chapter 5	Experimentation and Simulation	211
	<i>Richard A. Brody, Stanford University</i>	
	<i>Charles N. Brownstein, Lehigh University</i>	
	Experience and Experiment	216
	The Value of Experimental Method	220
	The Design of the Laboratory: The Simulation of Political Phenomena	221
	The Design of System of Observation:	
	Experimental Techniques for Observing Political Phenomena	229
	Conclusion	253
Chapter 6	Survey Research	265
	<i>Richard W. Boyd, Wesleyan University</i>	
	<i>Herbert H. Hyman, Wesleyan University</i>	
	Introduction	265
	What Kinds of Belief and Behavior Can Be Studied?	268
	Survey Research: For What Purposes?	306
	Conclusions: What are the Effects of Surveys on Theory?	327
Chapter 7	Formal Theory	351
	<i>Gerald H. Kramer, Yale University</i>	
	<i>Joseph E. Hertzberg</i>	
	Introduction	351
	Political Economy	354
	Theory of Games	379
Chapter 8	On Studying the Future	405
	<i>Herman Kahn, The Hudson Institute</i>	
	Why Study the Future?	407
	The Choice of Perspective	411
	Eight Approaches to Futuribles	415
	The Predictability of Variables	417

Predicting the Rate of Innovation	419
Method of Forecasting Relatively Predictable Variables	420
The Use of Delphi	426
“Business-as-Usual” and “Surprise-Free” Scenarios	427
Relative Probability	430
Other Extrapolations and Excursions	431
Prediction	431
Technology Assessment	433
Index	443
