List of Tables and Figures

Tables

| | | |
|------|---|-----|
| 4.1 | The social self as a structural basis of different forms of social identifications | 45 |
| 5.1 | Perceived differences in ingroup and outgroup similarity | 70 |
| 5.2 | Minority influences in groups over time | 72 |
| 11.1 | Meta-contrast ratios in self-perception and the four stimuli used by Moya and Peplau | 162 |
| 13.1 | Max. rel. as a function of matrix type (PDR versus PDC), trials and groups versus individuals, experiment 2 | 190 |
| 14.1 | Summary of some differences between individualists and collectivists | 202 |
| 14.2 | Relation between identification with the group and intergroup differentiation as a function of individualism/collectivism and autonomous/relational orientation | 203 |
| 15.1 | Perceived ingroup and outgroup heterogeneity | 216 |
| 15.2 | Perception of ingroup and outgroup by salience versus non-salience of social comparison | 217 |
| 15.3 | Perceived social desirability of attributes for engineers and psychologists | 218 |
| 15.4 | Attributes for engineers and psychologists | 220 |
| 15.5 | Factorial analysis of the 'most important social identity scale' (Garza & Herringer, 1986) | 224 |
| 15.6 | Differences between engineers and psychologists as a function of their degree of collectivism | 227 |

Figures

| | | |
|-----|---|----|
| 1.1 | Personal and social dimensions in psychosocial identity | 11 |
| 3.1 | Mean scores ($\times 100$) of each content category elicited in self/ingroup versus self/outgroup similarity judgements ($N = 121$) | 39 |
| 4.1 | Self-we schemata distinctness and the degree of individuals' involvement with outgroups and dissimilar others: the theoretical model | 50 |
| 4.2 | Recall of children's problems | 51 |
| 4.3 | Motivation to solve children's problems | 51 |
| 4.4 | Readiness to host different nationalities | 51 |

| | | |
|------|---|-----|
| 4.5 | Tolerance of German minority activity | 51 |
| 4.6 | Positivity of evaluation of Slovak and Irish paintings | 52 |
| 4.7 | Positivity of evaluation of Japanese painting | 52 |
| 5.1 | Stages of group development in existing groups | 58 |
| 5.2 | Nature of desired interaction with outgroup as a function of group life | 68 |
| 6.1 | A categorial hierarchy of vegetation | 78 |
| 6.2 | A categorial hierarchy of Europeans | 79 |
| 9.1 | Manipulation of group uniformity and group members' status: distribution of ingroup and outgroup members' responses | 134 |
| 9.2 | Evaluations of attractive and unattractive ingroup and outgroup members as a function of group uniformity | 135 |
| 9.3 | Example of ranking of characters A–F used to build modal and deviate members | 136 |
| 9.4 | Effects of norm awareness on judgements of modal and deviate ingroup and outgroup members | 137 |
| 9.5 | Effects of ingroup and outgroup accountability on judgements of modal and deviate ingroup and outgroup members | 138 |
| 9.6 | A two-step process of inter- and intragroup judgement | 140 |
| 11.1 | Interpersonal and intergroup demands according to Stephenson (1984) | 158 |
| 11.2 | Example of a hypothetical identity taken from Deaux's formulation and Moya's data | 161 |
| 12.1 | Ingroup favouritism on different comparison dimensions as a function of outgroup status | 173 |
| 12.2 | Ingroup favouritism on different comparison dimensions as a function of outgroup status | 175 |
| 13.1 | A Prisoner's Dilemma Game matrix (PDG) | 188 |
| 13.2 | A Prisoner's Dilemma max. rel. matrix (PDR) and a Prisoner's Dilemma confounded matrix (PDC) | 189 |
| 13.3 | A Prisoner's Dilemma Game alternative matrix (PDG-Alt.) | 195 |
