Preface xi

PART I

The Nature of Mind

Chapter 1

Eliminative Materialism and the Propositional Attitudes 1

1 *Why Folk Psychology Is a Theory* 2

2 *Why Folk Psychology Might (Really) Be False* 6

3 *Arguments against Elimination* 9

4 *The Conservative Nature of Functionalism* 12

5 *Beyond Folk Psychology* 17

Chapter 2

Functionalism, Qualia, and Intentionality 23

1 *Four Problems concerning Qualia* 23

2 *The Problem of Nonstandard Realizations* 34

3 *Functionalism and Methodology* 44

Chapter 3

Reduction, Qualia, and the Direct Introspection of Brain States 47

1 *Intertheoretic Reduction* 47

2 *Theoretical Change and Perceptual Change* 52

3 *Thomas Nagel's Arguments* 56

4 *Jackson's Knowledge Argument* 61

Chapter 4

Knowing Qualia: A Reply to Jackson 67

1 *The Persistent Equivocation* 67

2 *Other Invalid Instances* 71

3 *A Genuinely Nonequivocal Knowledge Argument* 72

4 *Converting a Third-Person Account into a First-Person Account* 74

Chapter 5

Some Reductive Strategies in Cognitive Neurobiology	77
1 <i>Introduction</i>	77
2 <i>Laminar Cortex, Vertical Connections, and Topographic Maps</i>	79
3 <i>Sensorimotor Coordination</i>	82
4 <i>Coordinate Transformation: Its Physical Implementation</i>	88
5 <i>Cortex with More than Two Layers</i>	96
6 <i>Beyond State-Space Sandwiches</i>	97
7 <i>The Representational Power of State Spaces</i>	102
8 <i>Concluding Remarks</i>	108

Chapter 6

Folk Psychology and the Explanation of Human Behavior	111
1 <i>Objections to the Theoretical View</i>	112
2 <i>An Alternative Form of Knowledge Representation</i>	122
3 <i>Addendum: Commentary on Dennett</i>	125

Chapter 7

Reductionism, Connectionism, and the Plasticity of Human Consciousness	129
1 <i>The Plasticity Argument</i>	131
2 <i>The Cultural-Embedding Objection</i>	132
3 <i>Conclusion</i>	134

PART II

The Structure of Science

Chapter 8

The Ontological Status of Observables: In Praise of the Superempirical Virtues	139
1 <i>How van Fraassen's Problem Collapses into Hume's Problem</i>	140
2 <i>The Primacy of the Superempirical Virtues</i>	145
3 <i>Toward a More Realistic Realism</i>	149

Chapter 9

On the Nature of Theories: A Neurocomputational Perspective	153
1 <i>The Classical View of Theories</i>	153
2 <i>Problems and Alternative Approaches</i>	154
3 <i>Elementary Brainlike Networks</i>	159
4 <i>Representation and Learning in Brainlike Networks</i>	163
5 <i>Some Functional Properties of Brainlike Networks</i>	171
6 <i>How Faithfully Do These Networks Depict the Brain?</i>	181
7 <i>Computational Neuroscience: The Naturalization of Epistemology</i>	188
8 <i>Concluding Remarks</i>	194

Chapter 10

- On the Nature of Explanation: A PDP Approach 197
- 1 *Introduction* 197
 - 2 *Conceptual Organization in PDP Networks* 200
 - 3 *Recognition and Understanding* 206
 - 4 *Prototype Activation: A Unified Theory of Explanation* 209
 - 5 *Inference to the Best Explanation* 218
 - 6 *Comparison with Earlier Models* 223

Chapter 11

- Learning and Conceptual Change 231
- 1 *Introduction* 231
 - 2 *Multiple Conceptual Competence* 234
 - 3 *Conceptual Change versus Conceptual Redeployment* 236
 - 4 *What Drives Conceptual Change?* 241
 - 5 *Automated Science* 250

Chapter 12

- Perceptual Plasticity and Theoretical Neutrality: A Reply to Jerry Fodor 255
- 1 *The Etiology of Perceptual Belief* 257
 - 2 *The Semantics of Observation Predicates* 271
 - 3 *Conclusion* 278

Chapter 13

- Conceptual Progress and Word-World Relations: In Search of the Essence of Natural Kinds 281
- 1 *Natural Kinds and Scientific Progress: The Putnam-Kripke View* 282
 - 2 *Natural Kinds as Law-Bound Kinds: Some Virtues, Consequences, and Difficulties* 287

Chapter 14

- Moral Facts and Moral Knowledge 297
- 1 *The Epistemology and Ontology of Morals* 297
 - 2 *Moral Prototypes and Moral Development* 298
 - 3 *Praxis, Theoria, and Progress* 300
