Preface	ix
Introduction	1
I Models	5
1 The Elements of Epistemological Theories	7
1.1 Program	7
1.2 Epistemic States	9
1.3 Epistemic Attitudes	12
1.4 Epistemic Inputs	13
1.5 Changes of Belief	15
1.6 Belief Systems, Language, and the External World	18
2 Models of Epistemic States	21
2.1 Program	21
2.2 Belief Sets	21
2.3 Ellis's Belief Systems	26
2.4 Models Based on Possible Worlds	28
2.5 Spohn's Generalized Possible Worlds Models	30
2.6 An Example from Artificial Intelligence: Doyle's Truth Maintenance System	32
2.7 Bayesian Models	36
2.8 Generalized Probabilistic Models	40
2.9 Johnson-Laird's Mental Models	43
3 Expansions, Revisions, and Contractions	47
3.1 The Three Basic Types of Changes of Belief	47
3.2 Expansions	48
3.3 Revisions	52
3.4 Contractions	60
3.5 On the Notion of Minimal Change	66
3.6 From Contractions to Revisions and Vice Versa	68
3.7 Spohn's Generalization of Revisions and Contractions	72

4	Epistemic Entrenchment and Construction of Contraction Functions	75
4.1	The Problem of How to Construct a Contraction Function	75
4.2	Maxichoice Contraction Functions	76
4.3	Full Meet Contraction Functions	78
4.4	Partial Meet Contraction Functions	80
4.5	Grove's Systems of Spheres	83
4.6	Epistemic Entrenchment	86
4.7	The Origins of Epistemic Entrenchment	91
4.8	Constructing Contraction and Revision Functions from the Ordering of Epistemic Entrenchment	94
4.9	Safe Contractions	97
4.10	Two Further Application Areas: Logical Databases and Legal Codes	99
5	The Dynamics of Probabilistic Models	105
5.1	Bayesian Models and Their Dynamics	105
5.2	Why Conditionalize? Some Representation Results	106
5.3	Imaging	108
5.4	A Representation Theorem for Imaging	112
5.5	Imaging versus Conditionalization	114
5.6	Preservative Imaging	117
5.7	Contractions of Probability Functions	118
5.8	Revisions of Probability Functions	121
5.9	From Contractions to Revisions and Vice Versa	124
5.10	Construction of Probabilistic Revision Functions	125
II	Applications	129
6	The Dynamics of Belief As a Basis for Logic	131
6.1	Propositions Defined from Possible Worlds	131
6.2	Propositions Defined by Changes of Belief	132
6.3	Basic Postulates for Propositions	134

6.4	Negation and Disjunction	137
6.5	Completeness Results	138
6.6	Propositions Corresponding to Contractions and Revisions	142
6.7	Concluding Remarks	144
7	Conditionals	147
7.1	The Ramsey Test for Conditionals	147
7.2	The Logic of Counterfactuals	148
7.3	Other Kinds of Conditionals	152
7.4	The Incompatibility of (RT) and (K*4)	156
7.5	Weaker Versions of the Ramsey Test	160
7.6	Discussion of the Inconsistency Result	162
7.7	Conditional Beliefs and Beliefs in Conditionals	165
8	Explanations	167
8.1	Program	167
8.2	Background	168
8.3	Second-Order Probabilistic Models of Epistemic States	170
8.4	An Analysis of Explanations	176
8.5	Applications of the Analysis	180
8.6	Some Consequences of the Analysis	185
8.7	Conclusion	188
9	Causal Beliefs	191
9.1	Background	191
9.2	The Information Problem	192
9.3	An Epistemic Analysis of Causal Beliefs	194
9.4	Analysis of Some Examples	197
9.5	A Comparison with Granger Causality	202
9.6	Causation and Explanation	203
9.7	Some Further Aspects of the Causal Analysis	206
9.8	Limitations of the Analysis	208

Appendix A	Proofs of Main Lemmas and Theorems of Chapter 3	211
Appendix B	Proofs of Main Lemmas and Theorems of Chapter 4	217
Appendix C	Proofs of Main Lemmas and Theorems of Chapter 5	227
Appendix D	Proofs of Main Lemmas and Theorems of Chapter 6	237
Appendix E	Proofs of Main Lemmas and Theorems of Chapter 7	239
