<i>Preface</i>	<i>page ix</i>
<i>Note to the Reader</i>	xv
CHAPTER ONE: Confidence	1
I. A Decision Problem	1
II. The Five Principles	4
III. Decision Problem Solved	14
IV. Modest Probabilism	20
V. The Sin of False Precision	23
VI. Countable Additivity	32
VII. Philosophical Objections	36
CHAPTER TWO: Evidence	45
I. A Puzzle about Evidence	45
II. Evidence and Confidence	47
III. Puzzle Solved	52
IV. “Popperian Animadversions”	56
V. Evidence and Conditionalization	62
VI. An Argument for Conditionalization	67
VII. The Argument Disarmed	70
VIII. Reflection	73
IX. Evidence: Quality vs. Quantity	75
X. Subjectivism	85

CHAPTER THREE: The Bayesian Challenge	89
I. What about Belief?	89
II. The Certainty View	91
III. The Confidence Threshold View	93
IV. The Bayesian Challenge	98
CHAPTER FOUR: Rational Belief	102
I. The Bayesian Challenge Revisited	102
II. Acting on Beliefs	103
III. The Assertion View	107
IV. Deductive Cogency: A Puzzle	112
V. Structural Soundness	121
VI. Adjudicating between Theories	132
VII. Global Interests	136
VIII. Puzzle Solved	140
IX. Believing the Improbable	142
X. The Assertion View: Objections	148
CHAPTER FIVE: The Bayesian Canon	155
I. The Dutch Book Argument	155
II. Ramsey's Utility Theory	161
III. Degrees of Belief Constrained	168
IV. Three Objections	172
V. Savage and Jeffrey	176
CHAPTER SIX: Decision Theory as Epistemology	181
I. Staking the Claim	181
II. The Naturalists Object	183
III. A Methodological Moral	186
APPENDIX 1: Principles and Definitions	191
APPENDIX 2: Proofs	199
APPENDIX 3: Probabilism – Some Elementary Theorems	212
<i>Bibliography</i>	215
<i>Index</i>	223
