Symposium on Experimental and theoretical studies of consciousness, held at the Ciba Foundation, London, 7–9 July 1992

This symposium is based on a proposal made by Dr Max Velmans

Editors: Gregory R. Bock (Organizer) and Joan Marsh

- T. Nagel** What is the mind–body problem? 1
Discussion 7
- S. Shoemaker** Functionalism and consciousness 14
Discussion 21
- M. Kinsbourne** Integrated cortical field model of consciousness 43
Discussion 51
- J. R. Searle** The problem of consciousness 61
Discussion 70
- M. Velmans** A reflexive science of consciousness 81
Discussion 91
- J. L. Singer** Experimental studies of ongoing conscious experience 100
Discussion 116
- B. Libet** The neural time factor in conscious and unconscious events 123
Discussion 137
- J. F. Kihlstrom** The psychological unconscious and the self 147
Discussion 156
- A. J. Marcel** Slippage in the unity of consciousness 168
Discussion 180
- P. D. Wall** Pain and the placebo response 187
Discussion 212

- W. T. Newsome and C. D. Salzman** The neuronal basis of motion perception 217
Discussion 230
- M. S. Gazzaniga** Brain mechanisms and conscious experience 247
Discussion 257
- J. A. Gray** Consciousness, schizophrenia and scientific theory 263
Discussion 273
- B. J. Baars** How does a serial, integrated and very limited stream of consciousness emerge from a nervous system that is mostly unconscious, distributed, parallel and of enormous capacity? 282
Discussion 291
- T. Nagel** Summary 304
- Index of contributors 307
- Subject index 309
