<b>An Overview of the Intergovernmental Panel on Climate Change (IPCC) and Its Process of Science Assessment</b>	<b>1</b>
<i>Sir John Houghton</i>	
1 Background	1
2 Formation of the IPCC	2
3 The IPCC 1990 Report	3
4 Ownership by Scientists and by Governments	4
5 The Science Policy Interface	5
6 IPCC's Work in Science Applications and in Social Sciences	6
7 The 1992, 1994 and 1995 IPCC Reports	7
8 Attacks on the IPCC	8
9 The FCCC and the IPCC	9
10 The Third Assessment Report	11
11 The Future Work of the IPCC	17
12 The IPCC in the Context of Other Global Issues	19
13 Acknowledgements	20
<b>A Perspective on Global Air Pollution Problems</b>	<b>21</b>
<i>Johan C.I. Kuylenstierna, W. Kevin Hicks and Michael J. Chadwick</i>	
1 Introduction	21
2 Impacts of Air Pollution	25
3 The Regional Status of Air Pollution	36
4 Policy Development for Air Pollution Abatement	45
5 Initiatives to Improve Urban Air Quality in Developing Countries	53
6 Future Action	55
<b>Influence of Climate Variability and Change on the Structure, Dynamics and Exploitation of Marine Ecosystems</b>	<b>57</b>
<i>Manuel Barange</i>	
1 Introduction: the Global Ocean's Response to Climate Variability and Change	57
2 Climate Variability and Change: Coupling Atmospheric and Biological Processes in the Ocean	63
