

Contents

Preface **xiii**

- 1. The origins of cognitive psychology** **1**
 - Behaviourism 2
 - Gestalt psychology 6
 - Skinner and language 7
 - The birth of modern cognitive psychology 9
 - The computer analogy 12
 - Using human information processing
as a scientific theory 14
 - Nativism and nomothetism 16
 - Good and bad cognitive psychology 18
 - Connectionism 19
 - Cognitive neuropsychology 20
 - Cognitive neuroscience 22
 - Overview 24
 - Suggested further reading 25
 - Revision questions 26

- 2. Visual perception** **27**
 - Forms of perceptual process 27
 - Object recognition 36
 - Overview of theories of perception 42
 - Overview 50
 - Suggested further reading 51
 - Revision questions 51

- 3. Attention** **53**
 - Selective attention 53
 - Resource models of attention 63
 - Selection and resources in attention 65
 - Norman and Shallice's model 72
 - Covert attention 75
 - Overview 76
 - Suggested further reading 77
 - Revision questions 77

| | |
|---|------------|
| 4. Memory: Short-term storage | 79 |
| Memory and the behaviourist era | 79 |
| Memory and cognitive psychology | 80 |
| The serial position curve | 81 |
| Short-term and long-term store | 83 |
| Sensory memory | 84 |
| Echoic memory | 87 |
| Recency and STS capacity | 88 |
| Long-term recency | 89 |
| Is STS still a valid concept? | 91 |
| Drugs and STS | 93 |
| Amnesia and recency effects | 93 |
| Overview | 95 |
| Suggested further reading | 96 |
| Revision questions | 96 |
| 5. Memory: Long-term store | 97 |
| The organisation of long-term store | 97 |
| A three component model of LTS | 98 |
| Experimental evidence | 100 |
| Amnesia and the episodic–semantic distinction | 101 |
| Implicit and explicit memory | 104 |
| Implicit learning | 109 |
| Overview | 111 |
| Suggested further reading | 111 |
| Revision questions | 112 |
| 6. Memory: Codes, processes, and loops | 113 |
| Memory codes | 113 |
| Codes in verbal memory | 114 |
| Levels of processing | 115 |
| Working memory | 121 |
| Overview | 128 |
| Suggested further reading | 129 |
| Revision questions | 129 |
| 7. Memory: Remembering and forgetting | 131 |
| How do we know memory is selective? | 131 |
| Theories of remembering | 133 |
| Clarifying our terms | 134 |
| Generation–recognition | 135 |
| Forgetting | 138 |
| Context | 140 |
| Components of recognition memory | 142 |

| | |
|---|------------|
| Subjective differences in recognition memory | 143 |
| Process dissociation framework | 145 |
| Repression, false memory and hypnosis | 152 |
| Overview | 154 |
| Suggested further reading | 155 |
| Revision questions | 155 |
| 8. Knowledge | 157 |
| Experimental evidence | 157 |
| Meaning in terms of defining attributes | 158 |
| Overview | 167 |
| Suggested further reading | 168 |
| Revision questions | 168 |
| 9. Imagery | 169 |
| Knowledge as propositions | 171 |
| Imagery as an experimental variable | 172 |
| The dual coding hypothesis | 173 |
| Arguments against mental imagery | 178 |
| Imagery as perception | 180 |
| Neuropsychological evidence for mental imagery | 181 |
| Conclusion | 183 |
| Overview | 184 |
| Suggested further reading | 184 |
| Revision questions | 185 |
| 10. Language: Speech recognition | 187 |
| The nature of true language | 187 |
| Speech recognition | 189 |
| Overview | 202 |
| Suggested further reading | 203 |
| Revision questions | 203 |
| 11. Language: Word recognition and reading | 205 |
| Eye movements | 205 |
| Word recognition | 213 |
| Overview | 223 |
| Suggested further reading | 224 |
| Revision questions | 225 |
| 12. Language: Comprehension | 227 |
| Competence and performance | 227 |
| Transformational grammar | 229 |

| | | |
|------------|--|------------|
| | Syntax, clauses, and memory | 234 |
| | Inference | 235 |
| | Overview | 241 |
| | Suggested further reading | 244 |
| | Revision questions | 245 |
| 13. | Language: Speaking and thinking | 247 |
| | Speech production | 247 |
| | Inner speech | 251 |
| | Language and thought: The Sapir–Whorf hypothesis | 254 |
| | Overview | 257 |
| | Suggested further reading | 258 |
| | Revision questions | 258 |
| 14. | Reasoning | 261 |
| | Induction versus deduction | 262 |
| | Representativeness | 264 |
| | Correlation | 267 |
| | Deduction | 269 |
| | Hypothesis testing | 271 |
| | Mental models | 274 |
| | Overview | 276 |
| | Suggested further reading | 277 |
| | Revision questions | 277 |
| 15. | Problem solving | 279 |
| | States, goals, and operators | 280 |
| | Problem-solving heuristics | 281 |
| | Problem solving using analogy | 283 |
| | Games and expertise | 285 |
| | Other forms of expertise | 287 |
| | Creativity | 289 |
| | The nature of creative individuals | 291 |
| | Overview | 294 |
| | Suggested further reading | 295 |
| | Revision questions | 295 |
| | Glossary | 297 |
| | References | 323 |
| | Author index | 341 |
| | Subject index | 347 |
| | Illustration credits | 353 |
