

# Contents

Design and use of geographic information systems and spatial models .....	3
M. M. FISCHER and P. NIJKAMP (with 4 figures)	

## Part A Theoretical and conceptual issues

Some suggestions concerning the development of artificial intelligence tools for spatial modelling and analysis in GIS .....	17
S. OPENSHAW	

Spatial statistical analysis and geographic information systems ..	35
L. ANSELIN and A. GETIS (with 1 figure)	

Using geographic information systems in urban planning and policy-making .....	51
M. BATTY (with 4 figures)	

## Part B Technical issues

Development in areal interpolation methods and GIS .....	73
R. FLOWERDEW and M. GREEN (with 3 figures)	

Using information based rules for sliver polygon removal in GISs .....	85
K. RYBACZUK (with 8 figures)	

Which spatial statistics techniques should be converted to GIS functions? .....	103
D.A. GRIFFITH	
The accuracy of digital representations of 2D and 3D geographical objects: a study by simulation .....	115
CHR. BRUNSDON and S. CARVER (with 11 figures)	
Towards the development of an intelligent spatial decision support system .....	131
Y. LEUNG (with 4 figures)	
Modelling spatial interaction using a neural net .....	147
S. OPENSHAW (with 1 figure)	
 <b>Part C Applications</b>	
Geographical information systems and dynamic modelling – Potentials of a new approach .....	167
W.D. GROSSMANN and S. EBERHARDT	
Computer-aided regional planning – Applications for the Perth and Helsinki regions .....	181
G.G. ROY and F. SNICKARS (with 2 figures)	
Residential quality assessment – Alternative approaches using GIS .....	199
A. CAN (with 3 figures)	
Information systems for policy evaluation: a prototype GIS for Urban Programme impact appraisal in St. Helens, North West England .....	213
A. F. G. HIRSCHFIELD, P. J. B. BROWN, and J. MARSDEN (with 7 figures)	
Dynamic GIS models for regional sustainable development .....	235
V.K. DESPOTAKIS, M. GIAOUTZI, and P. NIJKAMP (with 12 figures)	
Modelling catchment areas – Towards the development of spatial decision support systems for facility location problems ..	263
M. GROTHE and H. J. SCHOLTEN (with 6 figures)
