

## Contents

OWENS, I.F.: Recent Research in Australasian Geomorphology (with 1 figure and 2 tables) . . . . .	1- 5
FITZSIMONS, S.J., M. POLLINGTON & E. COLHOUN: Palaeomagnetic constraints on the ages of glacial deposits in north-western South Island, New Zealand (with 6 figures and 1 table) . . . . .	7- 20
HUMPHREYS, K.A. & S.J. FITZSIMONS: Landform and sediment associations of dry-based glaciers in arid polar environments (with 8 figures and 1 table) . .	21- 33
CROZIER, M.J.: Runout behaviour of shallow, rapid earthflows (with 9 figures and 4 tables) . . . . .	35- 48
DEROSE, R.C.: Relationships between slope morphology, regolith depth, and the incidence of shallow landslides in eastern Taranaki hill country (with 5 figures) . . . . .	49- 60
SELKIRK, J.M.: Peat slides on subantarctic Macquarie Island (with 3 figures and 2 tables) . . . . .	61- 72
GILLIESON, D.S., P.J. WALLBRINK, A.S. MURRAY & J.A. COCHRANE: Estimates of wind erosion risk and rates using GIS modelling and caesium-137 on the Nullarbor Plain karst, Australia (with 8 figures and 5 tables) . . . . .	73- 90
PROSSER, I.P. & S.J. WINCHESTER: History and processes of gully initiation and development in eastern Australia (with 4 figures and 3 tables) . . . . .	91-109
OLLEY, J.M., A.S. MURRAY & P.J. WALLBRINK: Identifying sediment sources in a partially logged catchment using natural and anthropogenic radioactivity (with 9 figures and 4 tables) . . . . .	111-127
OLIVE, L.J., J.M. OLLEY, P.J. WALLBRINK & A.S. MURRAY: Downstream patterns of sediment transport during floods in the Murrumbidgee River, NSW, Australia (with 4 figures) . . . . .	129-140
SHEN, J.: Suspended sediment characteristics in the surf zone (with 14 figures and 3 tables) . . . . .	141-164
