

Contents

| | | |
|----------|---|-----------|
| 1 | Introduction | 1 |
| 2 | Background on automotive brake systems and state of the art | 3 |
| 2.1 | Friction brakes | 3 |
| 2.1.1 | Disc brake..... | 5 |
| 2.1.2 | Drum brakes | 6 |
| 2.2 | Brake-by-wire..... | 8 |
| 2.2.1 | Electromechanical brake EMB..... | 10 |
| 2.3 | Electro hydraulic brake EHB | 11 |
| 2.4 | Design considerations for wheel brakes | 11 |
| 2.4.1 | Coefficient of friction | 11 |
| 2.4.2 | General aspects..... | 15 |
| 2.4.3 | Special requirements for brake-by-wire | 17 |
| 2.5 | Concepts for self-amplifying wheel brakes..... | 19 |
| 2.5.1 | Literature and patent survey | 19 |
| 2.5.2 | Wedge disc brake | 20 |
| 2.5.3 | Drum brakes | 21 |
| 3 | Problem formulation | 23 |
| 3.1 | Deficits of present day self-amplifying wheel brakes | 23 |
| 3.2 | Proposed solution: adaptive self-amplification brake | 24 |
| 3.3 | Aim of the study | 25 |
| 4 | Analysis of self-amplifying wheel brakes | 27 |
| 4.1 | Lever brake..... | 27 |
| 4.2 | Wedge brake | 29 |
| 4.3 | Drum brakes | 30 |
| 4.3.1 | Simplex drum brake..... | 30 |
| 4.3.2 | Duplex drum brake | 33 |
| 4.3.3 | Duo servo drum brake | 34 |
| 4.4 | Comparison of the concepts and selection of the most promising solution approach..... | 42 |
| 5 | Design of a prototype of an adaptive duo servo drum brake | 45 |
| 5.1 | General concept | 45 |
| 5.2 | Control concepts..... | 47 |
| 5.2.1 | Brake control system | 47 |
| 5.2.2 | Friction observer | 47 |
| 5.2.3 | Adaptation strategies | 48 |

- 6 Experimental setup and results.....51**
- 6.1 Description of the test-rig prototype 51
- 6.2 Description of the test-rig and measurement equipment..... 52
- 6.2.1 Applied force generation52
- 6.2.2 Linear actuator construction.....52
- 6.2.3 Stroke sensor measurement.....53
- 6.2.4 Torque and speed measurements54
- 6.2.5 Motor and gearbox.....54
- 6.2.6 Experimental investigations of the brake system56
- 6.3 Experimental results 57
- 6.3.1 Effect of the working parameters 58
- 6.3.2 Control of the brake shoe factor..... 67

- 7 Conclusions73**

- 8 Summary and outlook79**
