

# Table of contents

Drawing the line: The generalizability and limitations of research in applied linguistics <i>Micheline Chalhoub-Deville</i>	1
<b>I. Perspectives on inference and generalizability in applied linguistics</b>	
Old and new thoughts on test score variability: Implications for reliability and validity <i>Craig Deville and Micheline Chalhoub-Deville</i>	9
Validity and values: Inferences and generalizability in language testing <i>Tim McNamara</i>	27
L2 vocabulary acquisition theory: The role of inference, dependability and generalizability in assessment <i>Carol A. Chapelle</i>	47
Beyond generalizability: Contextualization, complexity, and credibility in applied linguistics research <i>Patricia A. Duff</i>	65
Verbal protocols: What does it mean for research to use speaking as a data collection tool? <i>Merrill Swain</i>	97
Functional grammar: On the value and limitations of dependability, inference, and generalizability <i>Diane Larsen-Freeman</i>	115
A conversation analytic perspective on the role of quantification and generalizability in second language acquisition <i>Numa Markee</i>	135

## II. Discussion

Generalizability: A journey into the nature of empirical research in applied linguistics <i>Lyle F. Bachman</i>	165
Generalizability: What are we generalizing anyway? <i>Susan Gass</i>	209
Negotiating methodological rich points in applied linguistics research: An ethnographer's view <i>Nancy H. Hornberger</i>	221
