Foreword	v
Editor's Preface	xi
I. <i>General and Historical Surveys of Hypnotism</i>	1
Introduction	
1. A brief survey of hypnotism	3
2. Hypnosis: A general review	13
3. Hypnotism	21
4. The Basis of hypnosis: Panel discussion on hypnosis	26
II. <i>Psychodynamic Processes: Hypnotic Approaches to the Unconscious</i>	35
Introduction	
<i>Section 1: Amnesia</i>	36
5. The investigation of a specific amnesia	38
6. Development of apparent unconsciousness during hypnotic reliving of a traumatic experience	45
7. Clinical and experimental observations on hypnotic amnesia: Introduction to an unpublished paper	53
8. The problem of amnesia in waking and hypnotic states	58
9. Varieties of hypnotic amnesia	71
<i>Section 2: Literalness</i>	91
Introduction	
10. Literalness: An experimental study	92
11. Literalness and the use of trance in neurosis	100
<i>Section 3: Age Regression</i>	102
Introduction	
12. Age regression: Two unpublished fragments of a student's study	104
13. Past weekday determination in hypnotic and waking states	112
14. On the possible occurrence of a dream in an eight-month-old infant	119
15. The successful treatment of a case of acute hysterical depression by a return under hypnosis to a critical phase of childhood	122

<i>Section 4: Automatic Writing and Drawing</i>	143
Introduction	
16. The experimental demonstration of unconscious mentation by automatic writing	145
17. The use of automatic drawing in the interpretation and relief of a state of acute obsessional depression	158
18. The translation of the cryptic automatic writing of one hypnotic subject by another in a trancelike dissociated state	177
 <i>Section 5: Mental Mechanisms</i>	 188
Introduction	
19. Experimental demonstrations of the psychopathology of everyday life	190
20. Demonstration of mental mechanisms by hypnosis	203
21. Unconscious mental activity in hypnosis - psychoanalytic implications	207
22. Negation or reversal of legal testimony	221
 <i>Section 6: Dual Personality</i>	 229
Introduction	
23. The permanent relief of an obsessional phobia by means of communication with an unsuspected dual personality	231
24. The clinical discovery of a dual personality	261
25. Findings on the nature of the personality structures in two different dual personalities by means of projective and psychometric tests	271
 <i>Section 7: Experimental Neuroses</i>	 287
Introduction	
26. A clinical note on a word-association test	289
27. A study of hypnotically induced complexes by means of the Luria technique	292
28. A study of an experimental neurosis hypnotically induced in a case of ejaculatio praecox	320
29. The method employed to formulate a complex story for the induction of an experimental neurosis in hypnotic subject	336
