## Map

- 1.1 The nine circuits of the thirteenth-century world system 18

## Figures

- 1.1 Percent share in world population: polities of western Europe 22
- 1.2 Percent share in world population: polities of western Europe and the Ottoman and Russian Empires, 1000–1950 24
- 1.3 GDP/cap of west European states as percentage of the world mean per capita GDP; selected time points 1500–1950 40
- 1.4 GDP/cap of west European states and their main competitors as percentage of the world mean per capita GDP; selected time points 1500–1950 42
- 1.5 Shares of the states of western Europe in gross world product; borders as of 2000, selected time points 1500–1950 44
- 1.6 Shares of west European states and their main competitors in gross world product; selected time points 1500–1950 47
- 1.7 Shares in gross world product; with approximate Mughal, British, and Habsburg borders; selected time points 1500–1950 48
- 1.8 Conceptual tools for portraying trajectories in the capitalist world system; units: organizations of public authority 54
- 1.9 Trajectory space in the capitalist world-system; units: organizations of public authority 56
- 1.10 Britain and India in 1500; GDP/cap as % of world mean by GDP as % share in total world GDP 57
- 1.11 Effects of colonialism: Britain and India, 1500–1950; GDP/cap as % of world mean by GDP as % share in total world GDP 58
- 1.12 Geopolitical position of the would-be-states of western Europe and their major competitors, 1500; GDP/cap as % of world mean by GDP as % share in total world GDP 60

1.13	Trajectories of parts of western Europe and their major competitors, 1500–1950; GDP/cap as % of world mean by GDP as % share in total world GDP	61
1.14	World-system position of the states of western Europe and their major competitors, 1950; GDP/cap as % of world mean by GDP as % share in total world GDP	63
2.1	The global colonial network, 1500	76
2.2	The global colonial network, 1600	78
2.3	The global colonial network, 1700	79
2.4	The global colonial network, 1820	80
2.5	The global colonial network, 1870	82
2.6	The global colonial network, 1913	83
2.7	The global colonial network, 1950	87
2.8	The global colonial network, 2007	88
2.9	History of the global colonial network in terms of colonial governorships by colonizing powers (% of all possible ties)	90
2.10	Density of western-Europe-centered networks (normalized in-degrees), measured in colonial governorships	91
2.11	Frequency of involvement in major wars, west European contiguous and colonial empires, 1415–1965	97
2.12	Involvement in major wars by west European contiguous and colonial empires, and war intensity	98
3.1	State socialist transformations in the capitalist world-system: revolutions, national liberation struggles, geopolitical coercion, and elections	118
3.2	State socialist transformations in the capitalist world-system, 1900–2000: revolutions, national liberation struggles, geopolitical coercion and elections	120
3.3	Geopolitics of state socialism versus capitalism: GDP of the socialist states as percentage of the world GDP	125
3.4	Geopolitics of state socialism versus capitalism in the modern world-system: GDP of the socialist states as percentage of the world GDP	126
3.5	Geopolitics of state socialism versus capitalism in the modern world-system: population of the socialist states as percentage of the world population	127
3.6	State socialism in the world economy, 1917–2001: share in global GDP [%] and GDP/cap as % of world mean	128
3.7	State socialism in one state, 1913–50: the USSR's share in global GDP [%] and GDP/cap as % of world mean	130
3.8	Socialist states in the world economy, 1950–56: shares in global GDP [%] and GDP/cap as % of world mean	131
3.9	Socialist states in the world economy, 1957–68: share in global GDP [%] and GDP/cap as % of world mean	133

3.10	Socialist states in the world economy, 1969–80: share in global GDP [%] and GDP/cap as % of world mean	134
3.11	Socialist states in the world economy, 1981–89: share in global GDP [%] and GDP/cap as % of world mean	136
3.12	Socialist states in the world economy, 1950–89: share in global GDP [%] and GDP/cap as % of world mean	137
3.13	Structure of competition during the Cold War; economic blocs: share of CMEA, the EU, the US, Japan, India, and the PRC in global GDP [%] and GDP/cap as % of world mean, 1951–90	141
3.14	Structure of competition during the Cold War; military blocs: share of Warsaw Pact, NATO, Japan, and the PRC in global GDP [%] and GDP/cap as % of world mean, 1955–91	142
3.15	Regional significance of state socialism: GDP of the state socialist states as % of regional GDPs	146
4.1	Geopolitical-economic order in Europe, 1955	158
4.2	Geopolitical-economic order in Europe, 1965	159
4.3	Geopolitical-economic order in Europe, 1975	159
4.4	Geopolitical-economic order in Europe, 1985	160
4.5	Geopolitical-economic order in Europe, 1995	160
4.6	Geopolitical-economic order in Europe, 2005	161
4.7	Geopolitical-economic order in Europe, 2008	161
4.8	Trajectories of west European states and their competitors, Westphalian view, select time points, 1960 to 2003	174
4.9	Trajectories of west European states and their competitors, EU-as-unit view, select time points, 1960 to 2003	175
4.10	Effects of the emergence of the EU as a single entity on global inequalities in GDP and GDP/cap	176
4.11	Herfindahl-Hirschman Index (sum of squares of percent shares) of aggregate, unit-to-unit size inequality in global economic weight, world economy, Westphalian view	178
4.12	Herfindahl-Hirschman Index (sum of squares of percent shares) of aggregate, unit-to-unit size inequality in global economic weight, world economy, Westphalian view with colonial correction	180
4.13	Herfindahl-Hirschman Index (sum of squares of percentile shares) of aggregate, unit-to-unit inequality in global economic weight, world economy, Westphalian view, colonial correction and EU correction	181
4.14	Herfindahl-Hirschman Index (sum of squares of percentile shares) of aggregate, unit-to-unit inequality in global economic weight, world economy, Westphalian view, colonial, EU and CMEA corrections	183
4.15	Proportion of Herfindahl-Hirschman Index scores owing to European Union becoming a single entity	184

**Tables**

0.1	Gross domestic product of the European Union as percentage equivalent of the gross world product, as well as the total GDP of the core and the periphery	3
2.1	Geopolitical types of empire, before and under capitalism	71
2.2	Size of the global colonial network, size of west European empires, total network density and density of western Europe's network (number of ties, select years, 1500–2007)	89
2.3	Typology of empires for analyzing Levy's <i>War</i> data	94
2.4	Number of "Great Power" wars by empire type and period	95
2.5	"Great Power" wars by empire type and period, per decade means	96
3.1	Chronology of transformations to/from state socialism	117
4.1	Amounts of Marshall Aid disbursed, percent share in the total, percent share in gross world product (1950), and Marshall Aid share by gross world product share, by recipient state	157
