THE SCIENCE OF PSYCHOLOGY 3

The Roots of Psychology as a Science 4

Philosophical Roots of Psychology 4

Interim Summary 7

Biological Roots of Psychology 8

Interim Summary 11

Major Trends in the Development of Psychology 11

Structuralism 11

Ebbinghaus: Pioneer in Research on Human Memory 12

Functionalism 13

Freud's Psychodynamic Theory 15

Behaviorism 15

Reaction Against Behaviorism:

The Cognitive Revolution 18

Interim Summary 18

Types of Psychologists 19

INSIDE RESEARCH:

AN EXPERIMENTAL CASE STUDY 22

● C H A P T E R 2

THE WAYS AND MEANS OF PSYCHOLOGY 27

The Scientific Method 29

Hypotheses 29

Theories 29

Variables 30

Operational Definition 31

Interim Summary 33

Control of Independent Variables 34

Observational Studies 39

Generality 41

Case Studies 42

Interim Summary 43

Ethics 44

Descriptions of Observations	44
Measures of Central Tendency	44
Measures of Variability	46
Measurement of Relations	47
Assessing the Significance of Relations	49
Statistical Significance	49
Assessment of Differences Between Samples	49
Interim Summary	52

■ C H A P T E R 3

BIOLOGY OF BEHAVIOR 55

Study of the Brain	56
Research Methods of Physiological Psychology	56
Assessment of Damage to the Human Brain	58
Structure of the Nervous System	60
Interim Summary	64

Control of Behavior	65
Organization of the Cerebral Cortex	65
Lateralization of Function	67
The Occipital Lobe: Vision	68
The Temporal Lobe: Audition	68
The Parietal Lobe: Somatosensation and Spatial Perception	69
The Frontal Lobe: Planning and Moving	70
Interim Summary	72

Control of Internal Functions and Automatic Behaviors	72
The Brain Stem	73
The Cerebellum	73
Structures Within the Cerebral Hemispheres	74
Interim Summary	77

Neurons	78
Structure	78
Synapses	80
Effects of Drugs on Synapses	84
Neuromodulators: Action at a Distance	86
Interim Summary	87

Drugs That Affect Behavior	88
Drugs That Cause Sedation	88

Drugs That Cause Excitation	89
Drugs That Modify Perceptions or Produce Hallucinations	89
Psychotherapeutic Drugs	90
Addiction to Opiates	90
Interim Summary	93

C H A P T E R 4

BASIC PRINCIPLES OF LEARNING 97

Habituation 99

Classical Conditioning 100

The Work of Ivan Pavlov 101

The Biological Significance of Classical Conditioning 102

Physiology of Classical Conditioning 103

Extinction 104

Conditioned Emotional Responses 105

Interim Summary 106

Instrumental Conditioning 106

Reinforcement and Punishment 107

Extinction 109

Conditioned Reinforcement and Punishment 110

Finding Effective Reinforcers: The Premack Principle 113

Interim Summary 114

Stimuli That Guide Behavior 115

Aversive Control 118

Intermittent Reinforcement 120

Superstitious Behavior 121

Compatibility of Responses with Reinforcers or Punishers 122

Observation and Imitation 123

Learning Through Insight 125

Interim Summary 127

C H A P T E R 5

DEVELOPMENT 131

Conception and Birth 132

Chromosomes and Genes 132

Production of Gametes	133
Fertilization and Differentiation	134
Development in the Uterus and the Birth Process	135
Environmental Hazards That Harm Development	135
Genetic Abnormalities That Harm Development	136
Interim Summary	137
Physical and Perceptual Development	137
Motor Development	137
Perceptual Development	140
Interim Summary	143
Cognitive Development	143
The Importance of a Responsive Environment	143
The Work of Jean Piaget	144
Piaget's Four Periods of Cognitive Development	145
Causes of Cognitive Development	150
Evaluation of Piaget's Contributions	151
Interim Summary	151
Social Development	151
Development of Attachment	151
Behaviors of the Infant That Foster Attachment	152
The Critical Period for Attachment	156
The Nature and Quality of Attachment	156
Interactions with Peers	158
Interim Summary	159
Moral Development	160
Piaget's Description of Moral Development	160
Kohlberg's Description of Moral Development	160
Critique of Piaget's and Kohlberg's Stages	161
Teaching Morality to Children	162
Interim Summary	163
Sexual Development	163
Chromosomal Determination of Sex	163
Development of the Sex Organs	164
Further Sexual Development at Puberty	164
Development of Sex Roles	165
Development of Sexual Orientation	167
Interim Summary	169

SENSATION 173

Sensory Processing 175

Transduction 175

Sensory Coding	175
Psychophysics	177
Signal Detection Theory	178
Interim Summary	180
Vision	180
The Eye and Its Functions	180
Transduction of Light by Photoreceptors	183
Adaptation to Light and Dark	184
Eye Movements	185
Color Vision	187
Brain Mechanisms of Vision	195
Interim Summary	197
Audition	198
The Stimulus	198
Structure and Functions of the Auditory System	199
Interim Summary	204
Gustation	205
Receptors and Sensory Pathway	205
The Four Qualities of Taste	206
Olfaction	207
Anatomy of the Olfactory System	207
The Dimensions of Odor	208
Interim Summary	209
The Somatosenses	209
The Skin Senses	210
The Internal Senses	211
The Vestibular Senses	212
Interim Summary	213

C H A P T E R 7

PERCEPTION	217
Perception of Form	219
Figure and Ground	219
Organization of Elements: Gestalt Laws of Grouping	220
An Overview of Visual Processing	222
Effects of Brain Damage on Visual Perception	223
Models of Pattern Perception	225
Serial and Parallel Processing	228
Interim Summary	236
Perception of Space and Motion	238
Perception of Distance	239

Constancies of Visual Perception 243

Perception of Motion 246

Interim Summary 249

● C H A P T E R 8

MEMORY 253

An Overview 254

Sensory Memory 255

Iconic Memory 255

Echoic Memory 257

Interim Summary 257

Short-Term/Working Memory 258

Encoding of Information:

Interaction with Long-Term Memory 258

Entry of Information into Short-Term Memory:

Proactive Inhibition 260

Varieties of Working Memory 261

Physiological Evidence 266

Loss of Information from Short-Term Memory 268

Interim Summary 269

Long-Term Memory 269

The Act of Learning 270

The Organization of Long-Term Memory 274

The Physical Basis of Long-Term Memory 281

Remembering 283

Aids to Memory: Mnemonic Systems 286

Interim Summary 287

● C H A P T E R 9

LANGUAGE 291

Speech and Comprehension 293

The Functions of Language 293

Perception of Speech 294

Brain Mechanisms of Verbal Behavior 299

Interim Summary 301

Reading	303
Recognition of Words	303
Understanding the Meaning of Words and Sentences	308
Interim Summary	310
Acquisition of Verbal Behavior by Children	311
Perception of Speech Sounds by Infants	312
The Prespeech Period and the First Words	312
The Two-Word Stage	313
Acquisition of Adult Rules of Grammar	314
Acquisition of Meaning	315
Why Children Learn Language	316
Interim Summary	320
Communication with Other Primate Species	321
Interim Summary	324
