

Preface	xiii
Acknowledgments	xvi
1 The Science of Psychology	1
Thinking Critically	1
The Growth of Psychology	3
Wundt and Titchener: Structuralism 3 / Sir Francis Galton: Individual Differences 4 / William James: Functionalism 4 / John B. Watson: Behaviorism 5 / Gestalt Psychology 6 / B. F. Skinner: Behaviorism Revisited 7 / Sigmund Freud: Psychoanalytic Psychology 7 / Existential and Humanistic Psychology 8 / Cognitive Psychology 8	
Areas Within Psychology Today	9
The Goals and Methods of Psychology	11
A Process of Inquiry	13
The Naturalistic-Observation Method 14 / The Experimental Method 15 / The Correlational Method 17 / Gender, Race, and Cultural Differences 18 / Ethics in Research 19	
The Social Relevance of Psychology	23
Basic versus Applied Psychology 23 / Using Animals in Psychological Research 24	
Highlights:	
Psychology and Common Sense 13 / Ethical Principles Governing Research Subjects 20 /	

Controversy: Guinea Pigs in Psychological Research 24

Application: Psychology and Careers 25

Summary 26

Review Questions 28

Short-Answer Questions 29

2 Physiology and Behavior 31

Thinking Critically 31

The Nervous System 33

The Neuron 33 / The Neural Impulse 34 / The Synapse 37 / Synapses and Drugs 41 / Divisions of the Nervous System 42 / The Central Nervous System 42 / The Peripheral Nervous System 55

The Endocrine System 57

The Thyroid Gland 58 / The Parathyroid Glands 59 / The Pancreas 59 / The Pituitary Glands 59 / The Gonads 60 / The Adrenal Glands 60

Highlights:

Neural Networks: Teaching Computers to Learn 39 / Endorphins 40 / Brain Waves 45 / New Tools for Looking at the Brain 50

Application: Brain Transplants 61

Summary 62

Review Questions 64

Short-Answer Questions 65

3 Sensation and Perception	67
Thinking Critically	67
The Nature of Sensory Processes	68
The General Character of Sensation 68 / Sensory Thresholds 69	
Vision	71
The Visual System 71 / Color Vision 78	
Hearing	84
Sound 84 / The Ear 86 / Theories of Hearing 89	
The Other Senses	90
Smell 90 / Taste 92 / The Vestibular Senses 93 / Sensations of Motion 95 / The Skin Senses 95 / Pain 98	
Perception	99
Perceptual Organization 100 / Perceptual Constancies 102 / Observer Characteristics 105 / Perception of Distance and Depth 108 / Perception of Movement 114 / Visual Illusions 115	
Highlights:	
Species Differences in Color Vision 82 / Hearing Disorders 89 / Cortical Coding and Perception 105 Subliminal Perception 107 / Extrasensory Perception 116	
<i>Application: Perception and the Blind</i>	119
Summary	119
Review Questions	121
Short-Answer Questions	123
States of Consciousness	125
Thinking Critically	125
Variations in Consciousness	128
Daydreaming 129 / Sleep and Dreaming 131 / Sensory Deprivation 141 / Meditation 143 / Hypnosis 144	
Drug-Altered Consciousness	147
Depressants 148 / Stimulants 155 / Hallucinogens and Marijuana 158	
Highlights:	
Biological Clocks: From Jet Lag to Cancer Treatment 132 / The Effects of Sleep Deprivation	

on Human Performance 139 / Drug Use and Abuse 149 / Who Drinks? 152

Application: Medical versus Legal Aspects of Drug Policy 162

Summary 163

Review Questions 165

Short-Answer Questions 166

5 **Learning** 167

Thinking Critically 167

Classical Conditioning 168

Pavlov's Conditioning Experiments 168 / Classical Conditioning in Human Beings 170 / Necessary Factors in Classical Conditioning 173 / Extinction and Spontaneous Recovery 175 / Generalization and Discrimination 176 / Higher-Order Conditioning 176

Operant Conditioning 177

Response Acquisition 178 / Types of Reinforcement 181 / Schedules of Reinforcement 183 / Aversive Control 185 / Generalization and Discrimination 188 / Extinction and Spontaneous Recovery 189

A Review of Classical Conditioning and Operant Conditioning 190

Cognitive Learning 191

Cognitive Maps and Latent Learning 191 / Insight 193

Contingency Theory 195

Social Learning Theory 197

Highlights:

Who's Afraid of the Big Bad Wolf? 172 / Modifying Your Own Behavior 199

Application: Shaping Better Health through Biofeedback 201

Summary 203

Review Questions 204

Short-Answer Questions 205

6 **Memory** 207

Thinking Critically 207

The Sensory Registers 208

Visual and Auditory Registers 209 / Initial Processing 210	
Short-Term Memory	214
Capacity of STM 214 / Coding in STM 216 / Retention and Retrieval in STM 217 / Rote Rehearsal 219 / Elaborative Rehearsal 220	
Long-Term Memory	222
Coding in LTM 224 / Storage and Retrieval in LTM 225	
Special Topics in Memory	231
Extraordinary Memory 231 / Improving Your Memory 233	
Biological Bases of Memory	236
Highlights:	
The First Scientific Research on Memory 212 / Drugs and Memory 219 / Pathology of Memory 223 / Flashbulb Memories 230	
<i>Application: Eyewitness Testimony</i>	238
Summary	239
Review Questions	240
Short-Answer Questions	241
7 Cognition	243
Thinking Critically	243
Building Blocks of Thought	244
Images 244 / Concepts 246	
Problem Solving	248
The Interpretation of Problems 249 / Producing and Evaluating Solutions 251 / Obstacles to Solving Problems 255 / Becoming Better at Problem-Solving 257	
Decision-Making	261
Highlights:	
Teaching Problem-Solving 255 / Medical Decision-Making 264	
<i>Application: Artificial Intelligence</i>	265
Summary	266
Review Questions	267
Short-Answer Questions	268

8	Infancy and Childhood	269
	Thinking Critically	269
	Methods and Issues in Developmental Psychology	270
	Prenatal Development	271
	The Prenatal Environment	272
	The Newborn Baby	273
	Physical and Motor Development	275
	Perceptual Development	278
	Acuity and Pattern Perception 280 / Distance and Depth Perception 282 / Object Perception 282 / Other Senses 283	
	Memory Development	284
	Cognitive Development	285
	Piaget's Approach 286 / Criticisms of Stage Theory 289	
	Social Development	290
	Social Development during Infancy 290 / Social Development during Childhood 292 / Sex Typing and Sex Roles 296 / Social Cognition 298	
	Highlights:	
	Temperament 274 / Surviving Childhood Trauma 291 / Day-care: Rearing Children Away from Home 293	
	<i>Application: Television and Children</i>	299
	Summary	300
	Review Questions	302
	Short-Answer Questions	303
9	Adolescence and Adulthood	305
	Thinking Critically	305
	Adolescence	306
	Reactions to Physical Changes 307 / Social, Interpersonal, and Personality Development 309 / Cognitive Development 313 / Adolescent Reactions to Situational Stress 315 / The Transition to Adulthood 318	
	Early and Middle Adulthood	318
	Reaction to Physical Changes 320 / Social, Interpersonal, and Personality Development 322 / Cognitive Development 327 / Adult Reactions to Situational Stress 328	

Reactions to Physical Changes 330 / Social, Interpersonal, and Personality Development 332 / Cognitive Development 334 / Reactions to Situational Stress 335 / Coping with the Prospect of Death 335

Highlights:

Selected Facts about Teenage Pregnancy 312 / Caution: Youth Working 314 / Moral Reasoning and the Growth of Conscience 316 / The Myths of Aging 330 / Elisabeth Kübler-Ross and the American Way of Dying 336

Application: Hospice Care for the Dying 337

Summary 338

Review Questions 340

Short-Answer Questions 341

10 Motivation and Emotion 343

Thinking Critically 343

Perspectives on Motivation 345

Primary Drives 346

Hunger 346 / Thirst 351 / Sex 352

Stimulus Motives 355

Activity 355 / Exploration and Curiosity 356 / Manipulation 357 / Contact 358

Learned Motives 358

Aggression 358 / Achievement 361 / Power 363 / Affiliation 364

A Hierarchy of Motives 365

Emotions 367

Basic Emotional Experiences 368 / Theories of Emotion 370

The Expression of Emotion 374

Verbal Communication 374 / Nonverbal Communication 375

Gender Differences and Emotion 378

Highlights:

There's More to Being Fat Than Consuming Calories 348 / Eating Disorders 350 / Is Work a Stimulus Motive? 357 / Aggression and Rape 360 / Unconscious Motives 365

<i>Application: Truth Is More Than Skin Deep— The Lie Detector</i>	379
Summary	380
Review Questions	382
Short-Answer Questions	383

Personality 385

Thinking Critically	385
Psychodynamic Theories	386

Sigmund Freud 386 / Carl Jung 391 / Alfred Adler 393 / Karen Horney 394 / Erik Erikson 395

Humanistic Personality Theories	397
--	-----

William James 398 / Carl Rogers 398

Constitutional and Trait Theories	400
--	-----

William Sheldon 400 / Trait Theories 400

Personality Theories and the Question of Consistency	402
---	-----

Situationism and Interactionism 404 / B. F. Skinner and Behaviorism 406 / Social Learning Theory 407

Personality Assessment	408
-------------------------------	-----

The Personal Interview 409 / Observation 410 / Objective Tests 411 / Projective Tests 413

Highlights:

Androgyny 403 / The Genetic Basis for Personality 405

<i>Application: A Case Study in Behavior and Personality</i>	415
--	-----

Summary	418
Review Questions	421
Short-Answer Questions	422

12 Stress and Adjustment 423

Thinking Critically	423
Sources of Stress	425

Change 426 / Hassles 427 / Pressure 428 / Frustration 428 / Conflict 429 / Self-imposed Stress 431 / Stress and Individual Differences 432

How People Cope with Stress	433
Direct Coping 433 / Defensive Coping 435	
What Stress Does to People	440
Sources of Extreme Stress	443
Highlights:	
Social Class and Stress 435 / The Ethics of Stress Research 439 / Cancer and Stress 442 / Posttraumatic Stress Disorders 446	
<i>Application: The Stockholm Syndrome</i>	447
Summary	449
Review Questions	450
Short-Answer Questions	452
13 Abnormal Behavior	453
Thinking Critically	453
What Is Abnormal Behavior?	456
Historical Views of Abnormal Behavior 456 / Current Views of Abnormal Behavior 458 / Classifying Abnormal Behavior 459	
Anxiety Disorders	461
Somatoform Disorders	464
Psychophysiological Disorders	466
Dissociative Disorders	466
Affective Disorders	469
Perspectives on Affective Disorders 471	
Psychosexual Disorders	473
Dysfunction 474 / Paraphilias 475	
Personality Disorders	476
Schizophrenic Disorders	480
Gender Differences in Abnormal Behavior	484
Highlights:	
Prevalence of Psychological Disorders 455 / Multiple Personality Disorder: Is It Real? 468 / Suicide 470 / Borderline Personality Disorders 478	
<i>Application: Mental Illness and the Law</i>	486
Summary	488
Review Questions	489
Short-Answer Questions	491
14 Therapies	493
Thinking Critically	493
Insight Therapies	494

Psychoanalysis 494 / Client-centered Therapy 498 / Rational-Emotive Therapy 499 / Recent Developments 501	
Behavior Therapies	502
Operant Conditioning 502 / Aversive Conditioning 503 / Desensitization 503 / Modeling 504 / Cognitive Behavior Therapy 505	
Effectiveness of Psychotherapies	507
Biological Treatment	509
Electroconvulsive Therapy 509 / Psychosurgery 510 / Drug Therapies 511	
Institutionalization	513
Alternatives to Institutionalization	514
Deinstitutionalization 514 / Alternative Forms of Treatment 515 / Prevention 516	
Gender Differences in Treatments	518
Highlights:	
Psychoanalytic Therapy: An Illustration 496 / Client-centered Therapy: An Illustration 498 / Rational-Emotive Therapy: An Illustration 500 / Computer Therapy 501 / Nonprofessional "Therapists" 507 / Valium 512 / Self-help Groups 517	
<i>Application: How to Find Help</i>	520
Summary	522
Review Questions	524
Short-Answer Questions	525
15 Social Psychology	527
Thinking Critically	527
Social Perception	528
Impression Formation 528 / Attribution 531 / Attraction and Liking 533	
Attitudes	536
The Nature of Attitudes 536 / Attitudes and Behavior 537 / The Development of Attitudes 537 / Attitude Change 538	
Social Influence	541
Conformity 541 / Compliance 543 / Obedience 544 / Helping Behavior 545 / Deindividuation 547	

Group Processes

547

Group Decision-Making 548 / The Effectiveness of the Group 549 / Leadership 550 / Organizational Systems and Influences 551

Highlights:

People Do Judge Books—and People—by Their Covers 532 / How to Win Friends the Hard Way 536

Application: Prejudice and Discrimination 553

Summary 555

Review Questions 557

Short-Answer Questions 558

Appendix: Measurement and Statistical Methods

559

Thinking Critically 559

Scales of Measurement 560

Measurements of Central Tendency	561
Differences between the Mean, Median, and Mode 562 / The Normal Curve 564 / Skewed Distributions 565 / Bimodal Distributions 565	
Measures of Variation	565
Range 566 / The Standard Deviation 566	
Measures of Correlation	568
Using Statistics to Make Predictions	570
Sampling 570 / Probability 571
