

# CONTENTS

1	INTRODUCTION	10
1.1	Motivation	10
1.2	Introductory Example	15
1.3	Thesis	19
1.4	Contributions	19
1.5	Overview	20
2	REGULAR NESTED LOOP PROGRAMS	23
2.1	Nested Loop Programs	24
2.2	Iteration Spaces of Nested Loop Programs	28
2.3	Index Spaces of Nested Loop Programs	33
2.4	Index Functions of Nested Loop Programs	36
2.5	Linearly Bounded Lattices	38
2.6	Utilization Patterns	40
3	VOLUME COMPUTATIONS ON POLYTOPES	43
3.1	Diophantine Equations	44
3.2	Coupling Patterns	46
3.3	Convolution Patterns	49
3.4	Counting Solutions	51
3.5	Application to Polytopes	62
3.6	Related Work	65
4	CACHE MISS CANDIDATES	67
4.1	Spatial and Temporal Locality	68
4.2	Set-Associative Cache Memories	69
4.3	Compulsory Misses	72
4.4	Conflict Misses	74
4.5	Coherence Misses	77
4.6	Related Work	82

5	TRANSFORMATIONS	86
5.1	Legality of Transformations . . . . .	86
5.2	Linear Transformations on Polytopes . . . . .	87
5.3	Non-linear Transformations on Polytopes . . . . .	92
5.4	Transformations on Multiple Polytopes . . . . .	93
5.5	Simultaneous Loop and Data Transformations . . . . .	95
5.6	Related Work . . . . .	97
6	SELECTING LOOP TRANSFORMATIONS	101
6.1	Parallelizing Computations . . . . .	103
6.2	Enumerating Computations . . . . .	115
6.3	Tiling Computations . . . . .	159
6.4	Grouping References . . . . .	164
6.5	Putting It All Together . . . . .	168
6.6	Related Work . . . . .	169
7	SELECTING DATA TRANSFORMATIONS	173
7.1	Enumerating Array Elements . . . . .	174
7.2	Tiling Arrays . . . . .	178
7.3	Grouping Array elements . . . . .	180
7.4	Further Applications of Data Access Abstractions . . . . .	180
7.5	Bilinear Equations . . . . .	183
7.6	Related Work . . . . .	185
8	EXPERIMENTS	188
8.1	Prototype Compiler Implementation . . . . .	188
8.2	Successive Over-Relaxation . . . . .	191
8.3	Horner . . . . .	194
8.4	Convolution . . . . .	197
8.5	ADI-Integration . . . . .	200
8.6	Householder-Decomposition . . . . .	204
8.7	Improvements . . . . .	207

9	CONCLUSION	209
A	APPENDIX	212
A.1	Abbreviations and Notation . . . . .	212
A.2	Intersection of Linearly Bounded Lattices . . . . .	214
A.3	Transformation Matrices . . . . .	215
A.4	Example Ehrhart Polynomial . . . . .	216
	BIBLIOGRAPHY	217
	INDEX	234
