<b>Chapter 1. Systems and Systems Analysis: Methods and Applications</b> .....	<b>1</b>
<i>Ralph L. Levine and Hiram E. Fitzgerald</i>	
Systems, Goal Seeking, and Feedback Mechanisms .....	1
Applications of Systems Science to Psychology .....	4
Organization of Volume 2 .....	11
References .....	15

## PART I. METHODS

<b>Chapter 2. The Study of Dynamic Systems Using Structural Equation Analysis</b> .....	<b>19</b>
<i>Lois E. Tetrick</i>	
Developing a Model Appropriate for Causal Analysis .....	20
Presentation of the Structural Model .....	23
Operationalization of the Model .....	26
Test of the Measurement Model .....	27
Test of the Structural Relations .....	30
Computer Programs for Testing the Model .....	34
Interpretation .....	36
Summary .....	39
References .....	39

**Chapter 3. Sensitivity of Parameters and Loop Structures . . . . . 43***Ralph L. Levine and Weldon Lodwick*

Classical Sensitivity Analysis . . . . .	43
Time Constants and Individual Differences . . . . .	44
The Method of Single Parameter Changes . . . . .	45
Single Parameter Changes, Chaos, and Bifurcations . . . . .	52
Interval Approaches to Sensitivity Analysis . . . . .	53
The Interval Arithmetic Approach . . . . .	54
A Statistical Approach . . . . .	66
Sensitivity of Loop Structures . . . . .	76
Summary . . . . .	84
References . . . . .	85

**Chapter 4. Psychological Scaling and Filtering of Errors in Empirical Systems . . . . . 87***Ralph L. Levine and Weldon Lodwick*

Introduction . . . . .	87
Considerations Prior to Data Collection . . . . .	88
Filtering Measurement Errors . . . . .	90
Measurement Error in Social Science Data . . . . .	90
Short Time Series Studies . . . . .	91
Filtering Longer Empirical Time Series with an Alpha– Beta Tracker . . . . .	100
Short Time Series Revisited . . . . .	105
Interval vs. Ratio Scaling of Instruments . . . . .	107
When to Use Multiplicative Expressions . . . . .	108
Summary . . . . .	116
References . . . . .	117

**Chapter 5. Parameter Estimation and Assessing Fit of Dynamic Models . . . . . 119***Ralph L. Levine and Weldon Lodwick*

Introduction . . . . .	119
Fitting Old Data vs. Forecasting . . . . .	119
Parameter Estimation . . . . .	121
Using the Results of Prior Analyses . . . . .	122
Unaggregated Parameter Estimation Approaches . . . . .	123
Aggregated Parameter Estimation Approaches . . . . .	125

Basic Definitions .....	127
Complex .....	127
Other Full Information Approaches .....	136
Assessing the Fit of Dynamic System Models .....	138
Appropriate Statistics for Fitting System Dynamic Models .....	138
Decomposing the Sources of Error with the RMS .....	140
Additional Statistical Tests .....	144
Summary .....	148
References .....	149

## **PART II. APPLICATIONS OF SYSTEMS APPROACHES**

### **Chapter 6. Applications of Living Systems Theory ..... 153**

*James Grier Miller and Jessie L. Miller*

Research on General Systems Theory .....	153
Models in General Systems Theory .....	154
Living Systems Theory: Basic Research and Applications ...	157
Basic Research .....	157
Living Systems Studies of Individual Systems .....	160
The Level of the Cell .....	162
The Level of the Organ .....	163
The Level of the Organism .....	163
The Level of the Group .....	169
The Level of the Organization .....	171
The Level of the Community .....	175
The Level of the Society .....	176
The Supranational System .....	176
Conclusion .....	179
References .....	179

### **Chapter 7. Complex Organizations and Living Systems Theory: The Case of the U.S. Army ..... 181**

*Gordon C. Ruscoe*

Introduction .....	181
The Methodology of the Military Research .....	183
The Findings of the Military Research .....	184
Descriptive Utility .....	184
Diagnostic Utility .....	188

Living Systems as a Research Paradigm .....	190
Methodological Considerations .....	190
Theoretical Considerations .....	191
Organizational Considerations .....	192
References .....	193
<b>Chapter 8. General Systems in Psychiatric Disorder .....</b>	<b>195</b>
<i>Irwin M. Greenberg</i>	
Introduction .....	195
Subsystems and Index Systems .....	197
Clinical Cases .....	200
Case 1 .....	200
Case 2 .....	204
Case 3 .....	207
Discussion .....	209
Three Principal Points .....	209
Symptoms Not Leading A Priori to Diagnosis .....	210
Pathology Productive of Different Symptomatologies .....	211
“Sociogenic” Countertransference Considerations .....	212
Conclusion .....	213
References .....	213
<b>Chapter 9. A Systems Approach to Understanding and Enhancing Grassroots Organizations: The Block Booster Project .....</b>	<b>215</b>
<i>Paul Florin, David Chavis, Abraham Wandersman, and Richard Rich</i>	
Introduction .....	215
The Block Booster Project .....	218
A Systems Framework and Organizational Functioning .....	219
Organizational Characteristics and Organizational Viability .....	224
Resources .....	227
Organizational Structure and Functions .....	228
Social Climate .....	229
Resource Mobilization .....	229
The Block Booster Process .....	231
Implications of the Block Booster Project: “Enabling Systems” for Community Development .....	238

Conclusion .....	241
References .....	241
<b>Chapter 10. A Multivariate Causal Analysis of Teenage Child Rearing .....</b>	<b>245</b>
<i>Hiram E. Fitzgerald and Mark W. Roosa</i>	
Theoretical Model .....	246
Analysis .....	247
Identification of the Model .....	250
Subjects and Descriptive Results .....	250
Results of the Structural Analysis .....	251
Test for Goodness of Fit .....	256
Suggestions for Alternative Models .....	257
Relationship of Estimated Model to Theory .....	259
References .....	261
<b>Chapter 11. A Theory of Service Delivery and Its Application to the Dropout Phenomenon .....</b>	<b>263</b>
<i>Gilbert Levin and Edward B. Roberts</i>	
A Theory of Service Delivery .....	264
Computer Simulation of the Dropout Phenomenon:	
System Structure .....	270
The Patient Sector .....	273
The Program Sector .....	276
Computer Simulation of the Dropout Phenomenon:	
System Behavior .....	279
Patient Characteristics .....	282
Program Characteristics .....	288
Efforts to Correct the Dropout Pattern .....	291
Conclusions .....	297
References .....	300
<b>Chapter 12. Educational Policy Analysis: An Analysis of Effective and Ineffective Schools Using the System Dynamics Method .....</b>	<b>303</b>
<i>Karl H. Clauset, Jr. and Alan K. Gaynor</i>	
Introduction .....	303
The Problem .....	304

Research Objectives .....	305
The Dynamic Hypothesis .....	305
The Basic Feedback Structure .....	307
Achievement, Learning Rates, and Engaged Time .....	307
Appropriateness and Intensity of Instruction .....	308
Motivation and Behavior .....	310
Interactions among Cohort Groups .....	312
The Theory .....	312
Intervention Analysis .....	315
Changes in the Student Body .....	317
Changes in the Intensity of Instruction .....	318
Changes in the Appropriateness of Instruction .....	318
Changes in School Climate .....	319
Summary and Implications .....	319
References .....	320
<b>Chapter 13. A Cognitive Control System .....</b>	<b>327</b>
<i>William T. Powers</i>	
Control as a Phenomenon .....	327
Control and Conventional Concepts .....	329
An Example: Cognitive Control .....	332
Experimental Conditions, General .....	332
Conditions, Experiment 1 .....	333
Results, Experiment 1 .....	333
Conditions, Experiment 2 .....	334
Results, Experiment 2 .....	335
Discussion .....	335
Conclusions .....	337
References .....	340
<b>Chapter 14. Dynamics of Attitude Change .....</b>	<b>341</b>
<i>Stan A. Kaplowitz and Edward L. Fink</i>	
The Current Status of Attitude and Persuasion Research .....	342
Some Key Theoretical Variables .....	344
The Dynamic System Model .....	345
Spatial Models .....	345
Dynamics .....	347
Equilibrium Predictions of Attitude Change .....	349
Relation of Source, Message, and Receiver Variables to Restoring Coefficients .....	352

Relationship to Information Integration Models .....	353
Source Bias .....	354
The Internal Structure of a Compound Message .....	356
Forgetting and Delayed Messages .....	357
The Time Course of Attitude Change and Its Consequences ..	358
The Simplest Variant of the Model .....	358
Time Varying Restoring Coefficients .....	360
Dichotomous Decisions and the Gravitylike Force .....	361
Attitude Trajectories and Cognitive Responses .....	361
Implications of the Dynamic Model for the Timing of Messages .....	362
Testing the Model .....	363
Data Analysis .....	364
Conclusion .....	365
References .....	366

**Chapter 15. Toward Building Psychoanalytically Based  
Mathematical Models of Psychotherapeutic  
Paradigms .....** **371**

*Robert Langs*

Background Factors .....	372
Some Fundamental Considerations .....	379
Prior Psychodynamic Efforts at Modeling .....	382
Psychoanalytic Mathematical Models of the Therapeutic Intervention .....	383
Initial Efforts at Modeling .....	385
Concluding Comments .....	389
Postscript .....	390
References .....	392

**Author Index .....** **395**

**Subject Index .....** **401**
