Foreword	7
Introduction	9
First Chapter: Proper analogy	21
1.1 Examples of proper analogies	21
1.1.1 Lavoisier's analogy	22
1.1.2 Franklin's analogy	25
1.2 Examples of improper analogies	27
1.3 What is an analogical connection?	28
1.4 Conditions of proper analogy	31
Second Chapter: Analogy as by different disciplines	39
2.1 The epistemological aspects of analogy	39
2.1.1 Analogy as the basis for understanding situations in daily life	40
2.1.2 Analogical inferences concerning past, present and future events	41
2.1.3 The principle of analogy as the basis for a knowledge of the mental states of other persons	46
2.1.4 An epistemological critique of the principle of analogy as the basis for knowledge of the mental states of others	51
2.2 The semiotic aspects of analogy	56
2.2.1 The incompleteness of a theory of meaning without the principle of analogy	57
2.2.2 The principle of the relative stability of the meaning of signs	58
2.3 Analogy as the object of psychological research	63
2.3.1 The mechanism of analogical inference as the basis for the process of intellectual adaptation in children	64
2.3.2 The mechanism of analogy in children's imaginations	72
2.3.3 Grasping analogical connections and speech development in children	83
2.4 Analogy as an object of scientific research in the study of culture	87
2.4.1 The principle of analogy in mythical thinking as an object of philological and anthropological research	87

2.4.2	The magical way of grasping analogical connections as an object of study in anthropology and ethnology _____	97
2.4.3	Appearances of mythical-magical analogies as an object of comparative and interdisciplinary research _____	104
2.5	Analogy as an object of research in linguistic studies _____	107
2.5.1	Analogy as a mechanism for language potential _____	108
2.5.2	The principle of analogy and the structure of language _____	112
2.6	Research on analogy as an object in the science of science _____	115
<b>Third Chapter: Analogical inference as a scientific method _____</b>		<b>119</b>
3.1	Analogy in the history of science _____	120
3.1.1	Analogy as a mechanism of intellectual activity in the development of science _____	121
3.1.2	Some examples of concluding by analogy in the history of science _____	127
3.1.2.1	Copernicus concluding by analogy _____	127
3.1.2.2	Galileo's and Kepler's formulation of the relations of analogy _____	130
3.1.2.3	Importance of analogy in Isaac Newton's discovery _____	132
3.1.2.4	Inference by analogy about the structure of the atom _____	134
3.2	The functions of analogy in scientific cognition _____	135
3.2.1	The heuristic value of analogy _____	135
3.2.2	Systematizing function of analogy _____	139
3.2.3	The explicatory function of analogy _____	142
3.2.4	Assertive-justifying role of analogy _____	146
3.2.5	The illustrative-didactic function of analogy _____	151
3.3	The specific nature of inference by analogy in different scientific disciplines _____	153
3.3.1	Inference by analogy in mathematics _____	153
3.3.2	Inference by analogy in natural sciences _____	157
3.3.3	The cognitive value of analogy in the humanities _____	162
3.3.4	The role of analogical inference in jurisprudence _____	165
3.4	The importance of analogical inference in interdisciplinary sciences and theories _____	168
3.4.1	The role of analogy in interdisciplinary sciences and theories _____	169
3.4.2	The role of analogy in cybernetics _____	171
3.4.3	The role of analogy in the theory of data _____	175
<b>Conclusions _____</b>		<b>181</b>
<b>Bibliography _____</b>		<b>187</b>
