<b>PREFACE</b>	<b>xiii</b>
<b>1 INTRODUCTION: THE FUNCTION OF RESEARCH METHODS</b>	<b>1</b>
CONTROL GROUPS	2
Control Variables	3
CONDITIONS THAT FOSTER MISPERCEPTION OF EVIDENCE	3
A DEFINITION OF SCIENCE	5
OBJECTIVE METHODS, NOT OBJECTIVE SCIENTISTS	6
SUMMARY	7
NEW WORDS AND PHRASES IN CHAPTER 1	8
<b>2 VARIABLES: THINKING OF THE WORLD IN TERMS OF RELATIONSHIPS BETWEEN VARIABLES</b>	<b>9</b>
PSYCHOLOGICAL VARIABLES DEFINED	9
RESTATING QUESTIONS AS RELATIONSHIPS BETWEEN VARIABLES	10
MANIPULATED VARIABLES (EXPERIMENTAL RESEARCH)	12
Drawing Conclusions About Cause and Effect with Manipulated Variables	13
SUBJECT VARIABLES	14
Difficulty in Determining Causality with Subject Variables	15
Direction of Causality with Subject Variables	16
Correlational Research	17

Confounding Factors in Relationships Between Subject Variables	17
THE POSSIBILITY OF DEFINING THE SAME VARIABLE AS EITHER A SUBJECT VARIABLE OR A MANIPULATED VARIABLE	20
FACTORS	22
THE NEED FOR OPERATIONAL DEFINITIONS	23
Operational Definitions Defined	25
SUMMARY	26
NEW WORDS AND PHRASES IN CHAPTER 2	28
<b>3 RULES FOR RESEARCH: A BRIEF CHECKLIST OF THINGS TO CONSIDER FOR A CREDIBLE EXPERIMENT</b>	<b>29</b>
RULE 1: MULTIPLE CONDITIONS RULE	29
Discussion of Rule 1	29
RULE 2: AVOIDANCE OF CONFOUNDING FACTORS RULE	32
Discussion of Rule 2	32
RULE 3: RANDOM SUBJECT SELECTION, ASSIGNMENT, AND RUNNING RULE	35
Discussion of Rule 3	35
<i>Definitions of Populations and Samples</i>	35
<i>Definition of a Random Sample</i>	36
<i>Identifying Random Samples</i>	36
<i>Definition of Random Assignment</i>	37
<i>Implementing Random Assignment</i>	37
<i>Implementing Random Running of Subjects</i>	38
<i>Difficulties in the Implementation of Rule 3</i>	38
RULE 4: STATISTICAL TESTS RULE	39
Discussion of Rule 4	39
RULE 5: USE ALL THE DATA RULE	40
Discussion of Rule 5	40
SOME APPLICATIONS OF THE RULES OF RESEARCH	41
The Rules of Research in the Higgins and Marlatt Experiments	43
<i>Rule 1: Multiple Conditions Rule</i>	43
<i>Rule 2: Avoidance of Confounding Factors Rule</i>	43
<i>Rule 3: Random Subject Selection, Assignment, and Running Rule</i>	43
<i>Rule 4: Statistical Tests Rule</i>	44
<i>Rule 5: Use All the Data Rule</i>	44
<i>Rule 1: Multiple Conditions Rule</i>	45
<i>Rule 2: Avoidance of Confounding Factors Rule</i>	45
<i>Rule 3: Random Subject Selection, Assignment, and Running Rule</i>	46
<i>Rule 4: Statistical Tests Rule</i>	46
<i>Rule 5: Use All the Data Rule</i>	46
Redoing an Experiment with a Changed Operational Definition	46
The New Operational Definition of Anxiety	47

The Rules of Research with the Second Operational Definition of Anxiety	48	
CONTROL CONDITIONS AND THE DEPENDENT VARIABLE		49
CHAPTER SUMMARY	51	
NEW WORDS AND PHRASES IN CHAPTER 3	53	
<b>4 SINGLE-FACTOR DESIGNS: SIMPLE EXPERIMENTAL DESIGNS THAT INCORPORATE THE RULES FOR RESEARCH</b>		<b>54</b>
SYMBOLIZATION OF THE DESIGNS	55	
AN IMPROPER DESIGN (ONE-GROUP DESIGN)	56	
COMPLETELY RANDOMIZED DESIGN	59	
A SECOND IMPROPER DESIGN (ONE-GROUP PRETEST-POSTTEST DESIGN)	61	
The Problems in Interpreting Changes in a One-Group Pretest-Posttest Design	63	
PRETEST-POSTTEST COMPLETELY RANDOMIZED DESIGN		65
Completely Randomized Pretest-Posttest Design with No Control	67	
THE SOLOMON FOUR-GROUP DESIGN	69	
REPEATED-MEASURES DESIGN	71	
MATCHED-PAIRS DESIGN	75	
CORRELATIONAL RESEARCH	76	
BRIEF REVIEW OF TYPES OF DESIGNS	80	
INTERNAL AND EXTERNAL VALIDITY	82	
Internal Validity	82	
External Validity	83	
CHAPTER SUMMARY	85	
NEW WORDS AND PHRASES IN CHAPTER 4	87	
<b>5 STATISTICAL LOGIC AND CHOOSING A STATISTIC: AN OVERVIEW OF THE ROLE OF STATISTICS IN PSYCHOLOGICAL RESEARCH</b>		<b>89</b>
LETTING THE PROBLEM OF RANDOM VARIABILITY SUGGEST A SOLUTION	90	
THE MEAN	90	
MEASURING VARIABILITY	91	
Variability of Means	91	
GRAPHS OF THE NORMAL DISTRIBUTION	93	
Distributions of Means	94	
A Distribution of Differences Between Means	95	
The Logic of Statistics and the Null Hypothesis	97	
DISTRIBUTIONS OF Z AND T	99	
z Scores	100	
t Distributions	101	
Criteria for Statistical Significance	102	
One-Tailed versus Two-Tailed Tests of Statistical Significance	104	
TYPE I AND TYPE II ERRORS	107	

The Standard Error and the Type II Error	112
Summarizing Trade-Offs in Type I and Type II Error Probabilities	112
Using a Large Type I Error to Confirm a No-Difference Finding	113
TYPES OF <i>T</i> TESTS	114
ONE-FACTOR ANALYSIS OF VARIANCE	115
THE CHI-SQUARE STATISTIC	116
CHOOSING A STATISTIC	118
Changes in Statistical Procedures with Changes in Definitions of Variables	121
CHAPTER SUMMARY	122
NEW WORDS AND PHRASES IN CHAPTER 5	126
APPENDIX	127
Computing a <i>t</i> Test with Independent Samples, Equal <i>n</i>	127
Computing a <i>t</i> Test with Independent Samples, Unequal <i>n</i>	129
Computing a <i>t</i> Test with Dependent Samples (the Matched-Pairs <i>t</i> Test)	132
Degrees of Freedom	133
Computing a One-Factor Analysis of Variance	135
Chi-Square Contingency Tables	138
Frequencies, Marginals, and Expected Values	141
Computing the Chi-Square Statistic	142
<b>6 MULTIFACTOR DESIGNS: DESIGNING AND INTERPRETING EXPERIMENTS WITH MULTIPLE INFLUENCES</b>	<b>145</b>
FACTORS VERSUS LEVELS	147
EXPLORING REASONS FOR LAPSES IN SOCIAL RESPONSIBILITY	148
INTERACTIONS IN MULTIFACTOR DESIGNS	152
MODERATOR VARIABLES	158
VARIABLES INTRODUCED TO INCREASE STATISTICAL POWER	159
The Role of Variability in <i>F</i> Tests in Analysis of Variance	159
RANDOMIZED BLOCK DESIGNS	160
REMOVING ORDER AS A SOURCE OF VARIABILITY IN REPEATED MEASURES	163
CHAPTER SUMMARY	165
NEW WORDS AND PHRASES IN CHAPTER 6	166
<b>7 THE LOGIC OF EXPERIMENTAL PSYCHOLOGY: THE PROBLEMS ENCOUNTERED IN THEORIZING ABOUT INTERNAL EVENTS</b>	<b>167</b>
HYPOTHESES AND THEORIES	167
INDIRECTLY CONFIRMING UNOBSERVABLE EVENTS	169
Surrogate Variables	173
The Logical Error of Affirming the Consequent	180

Denying the Consequent ( <i>Modus Tollens</i> )	182
<i>Statistical Tests of Theories and Modus Tollens</i>	184
Circumventing the Logical Difficulties	186
Using Interactions to Test Altered Experimental Conditions	191
Quantitative Predictions	195
CHAPTER SUMMARY	200
NEW WORDS AND PHRASES IN CHAPTER 7	203
<b>8 DETECTION, DISCRIMINATION, AND THE THEORY OF SIGNAL DETECTION</b>	<b>204</b>
WEBER'S LAW	207
NON-SENSORY FACTORS AND BIAS	210
TYPES OF OUTCOME IN THE DETECTION SITUATION	212
SIGNAL DETECTION THEORY	212
z Scores and the Table of Normal Probabilities	215
Picturing the Noise and Signal-Plus-Noise Distributions on the Same Axis	217
Using the Proportions of Hits and False Alarms to Compute $d'$	218
The Criterion	220
An Alternative Measure of the Criterion	223
Discrimination	224
The Receiver Operating Characteristic, the ROC Curve	225
Other Applications of Signal Detection Theory	228
CHAPTER SUMMARY	229
NEW WORDS, PHRASES, AND SYMBOLS IN CHAPTER 8	231
APPENDIX	232
Percent Nonoverlap: A Way of Thinking about Detection and Discrimination Accuracy and the Value of $d'$	232
<b>9 EVOLUTION OF A THEORETICAL CONSTRUCT: CHANGES IN THE CONSTRUCT OF ICONIC MEMORY OVER 30 YEARS OF RESEARCH</b>	<b>234</b>
THE SPERLING PARADIGM	235
THE AVERBACH AND CORIELL PARADIGM	238
SUMMARY AND CRITICISMS OF THE ICON AS INFERRED THROUGH PARTIAL REPORTS	239
Iconic Criticisms	240
ADDITIONAL MEASURES OF ICON-RELATED VISUAL STORAGE	242
Contradictory Results with Variations in Exposure Duration	245
CHANGES IN HOW THE ICON IS VIEWED	247
VISIBLE PERSISTENCE, INFORMATIONAL PERSISTENCE, AND AFTERIMAGES	250
CHAPTER SUMMARY	252
NEW WORDS AND PHRASES IN CHAPTER 9	253

<b>10</b>	<b>TESTING THEORY I: A CLOSE LOOK AT THE METHODS AND LOGIC USED IN EVALUATING A THEORY OF SHORT-TERM MEMORY SEARCH</b>	<b>254</b>
	DONDER'S ASSUMPTION OF ADDITIVITY AND HIS USE OF REACTION TIME	254
	A TYPICAL SHORT-TERM MEMORY RECOGNITION TASK	257
	STERNBERG'S EXPERIMENTAL SITUATION	257
	Ways of Testing Sternberg's Theory	260
	Recognizing Parts of a Task as Reflected in the Intercept, and Others in the Slope	265
	Additional Findings	271
	Current Status: Valuable Methods but Uncertain Interpretation	271
	CHAPTER SUMMARY	274
	NEW WORDS AND PHRASES IN CHAPTER 10	276
<b>11</b>	<b>TESTING THEORY II: A CLOSE LOOK AT THE METHODS AND LOGIC USED IN EVALUATING A THEORY OF VISUAL SEARCH AND ATTENTION</b>	<b>277</b>
	FEATURE INTEGRATION THEORY	277
	Testing Visual Search Using Reaction Times	279
	Free-Floating Features and Localized Conjunctions of Features	284
	<i>The Role of Metaphor in Modifying a Theory</i>	288
	Testing for Illusory Conjunctions: Experiments by Printzmetal, Presti, and Posner (1986)	289
	Where Are Illusory Conjunctions in the Real World?	297
	CHAPTER SUMMARY	299
	NEW WORDS AND PHRASES USED IN CHAPTER 11	300
<b>12</b>	<b>APPLIED EXPERIMENTAL PSYCHOLOGY: EXAMPLES OF THE KINDS OF QUESTIONS ASKED, AND EXPERIMENTS DONE, WHEN THE FOCUS CHANGES FROM THEORY TO APPLICATION</b>	<b>301</b>
	BREADTH AND DEPTH OF COMPUTER MENUS	304
	Miller's Experiment on Menu Depth and Breadth	305
	<i>Construction of Menus in the Miller Study</i>	307
	<i>Confounding Factors in the Miller Study</i>	308
	An Advantage of Depth	315
	ADDITIONAL FACTORS INFLUENCING MENU-AIDED PERFORMANCE	316
	IMPROVING PERFORMANCE IN DEEP-MENU SYSTEMS	320
	The Effects of Help Fields	321
	APPLYING EXPERIMENTAL RESULTS TO MENU DESIGN	324
	DETERMINATION OF VISUAL SEARCH STRATEGIES IN COMPUTER MENU SELECTION	325
	Direct Determination of Search Strategies with Sequential Presentation	328

Indirect Assessment of Search Strategies with Simultaneous Presentation	330
CHAPTER SUMMARY	331
NEW WORDS AND PHRASES IN CHAPTER 12	333

### **13 SOCIAL PSYCHOLOGY I: TESTING THEORIES WHEN INTERNAL EVENTS CAN BE MONITORED OR MANIPULATED** **334**

DIRECT MEASUREMENT OF INTERNAL VARIABLES	335
When Theoretical and Experimental Variables Are Identical	335
The McArthur and Post Experiments	336
<i>Definitions for Social Psychological Variables</i>	338
MANIPULATION CHECKS	342
SUBJECT BIAS	344
Double-Blind Procedures	345
RESEARCH ON COGNITIVE DISSONANCE	346
Evidence of Dissonance-Based Arousal	253
Special Design Features for Counterattitudinal Behavior	360
CHAPTER SUMMARY	362
NEW WORDS AND PHRASES IN CHAPTER 13	365

### **14 SOCIAL PSYCHOLOGY II: THE MEASUREMENT OF ATTITUDES AND CONSTRUCTION OF TESTS FOR RESEARCH** **366**

LIKERT AND OTHER DIRECT RATING SCALES	368
The Number of Points in an Individual Scale Item	370
<i>Scale Reliability</i>	371
<i>Scale Validity</i>	371
<i>The Influence of Reliability on Validity</i>	371
Summative Scales	372
OSGOOD'S SEMANTIC DIFFERENTIAL	373
THE PHYSICAL FORM OF SCALES	375
The Nature of the Items	376
<i>Transforming Scores</i>	380
Measuring Interitem Reliability	380
BEHAVIORAL MEASUREMENT	382
Behavioral Measures as Operational Definitions	383
Nonreactive (Unobtrusive) Measurement	388
Associated Behaviors	389
CHAPTER SUMMARY	394
NEW WORDS AND PHRASES IN CHAPTER 14	397

### **15 CLINICAL PSYCHOLOGY: THE RESEARCH PROBLEMS ENCOUNTERED, AND PROCEDURES USED, IN TREATMENT OUTCOME RESEARCH** **398**

APPLYING THE RULES OF RESEARCH TO OUTCOME STUDIES	401
--	-----

THE TRADITIONAL USE OF PLACEBO CONTROL GROUPS IN PSYCHOLOGY	402
Alternatives to Traditional Placebo Groups	407
Comparative Studies Without Placebo Groups	412
Construction Strategy	413
Dismantling Strategy	414
DESCRIBING FORMS OF TREATMENT	415
THE UNIQUE CONCERNS OF TREATMENT RESEARCH	416
Smoking Cessation	416
Measurement issues	417
Follow-up	418
Drop-outs	419
Control conditions	420
Weight Reduction	421
Self-Administered Treatment	423
Maintaining Distinct Treatment Groups	425
The Body's Resistance to Weight Loss	425
Personal Factors in Success or Failure	426
PROCESS RESEARCH	427
CHAPTER SUMMARY	427
NEW WORDS AND PHRASES IN CHAPTER 15	430
<b>APPENDIX A: THE PROPER FORM WHEN SUBMITTING EXPERIMENTS FOR PUBLICATION</b>	<b>431</b>
ABSTRACT	432
INTRODUCTION	432
METHOD SECTION	432
RESULTS SECTION	433
DISCUSSION SECTION	434
LISTING OF REFERENCES	435
CITATIONS WITHIN THE BODY OF THE ARTICLE	437
<b>APPENDIX B: STATISTICAL TABLES</b>	<b>438</b>
TABLE 1: RANDOM NUMBERS	438
TABLE 2: TABLE OF PROBABILITIES UNDER THE NORMAL CURVE	440
TABLE 3: CRITICAL VALUES OF T	445
TABLE 4: CRITICAL VALUES OF CHI-SQUARE	446
TABLE 5: CRITICAL VALUES OF F	447
