

1 A Reason for Doubting the Existence of Consciousness 1

GEORGES REY

- I. Definitions 1
- II. The Cartesian Intuition 3
- III. The Computational-Representational Theory of Mind 7
- IV. The Problem of Consciousness 21
- V. Appendix 28
 - A. Formal Logic 28
 - B. Intensionality 30
 - C. Logic and Computation 31
 - D. Self-Reference and the Rest of Gödel 33
- References 36

2 Conscious Contents Provide the Nervous System with Coherent, Global Information 41

BERNARD J. BAARS

- I. Brief Overview 41
- II. Introduction 42
 - A. The Need for a Central Information Exchange in a Distributed Processing System: Some Theoretical Definitions 44
 - B. The System in Operation 48
 - C. Advantages of the Global Data Base 50
 - D. Disadvantages of the Global Data Base 52
- III. Capability Constraints: Arguments for Associating Consciousness with a Global Data Base 53
 - A. Computational Inefficiency 55
 - B. Some Advantages of Conscious Processes 57

- C. Apparent Unity, Seriality, and Limited Capacity 61
- IV. The Boundaries of Conscious Contents 64
 - A. Contexts 66
 - B. Undefined Inputs 67
 - C. Global Information and Global Redundancy 68
 - D. Preperceptual Processing 72
- V. Summary and Conclusions 74
 - A. Extensions of the Theory 74
 - B. Conclusion 75
- References 76

3 Event-Related Brain Potentials in the Study of Consciousness 81

EMANUEL DONCHIN, GREGORY MCCARTHY, MARTA KUTAS, AND
WALTER RITTER

- I. Introduction 81
 - A. A Phenomenological Approach to Consciousness 81
 - B. The Event-Related Brain Potential: A Brief Survey 85
- II. ERPs, Threshold, and Subliminal Perception 89
- III. The Contents of Consciousness and ERPs 96
- IV. The ERP and Information Processing 101
- V. The ERPs and Consciousness 111
- References 115

4 Anxiety and Fear: Central Processing and Peripheral Physiology 123

PETER J. LANG, GREGORY A. MILLER, AND DANIEL N. LEVIN

- I. Three Data Systems in Emotion 125
 - A. Affective Behavior: Concordance and Discordance 126
- II. Language and Affect: The Emotional Image 127
 - A. Physiology of the Image 127
 - B. Processing the Image: Definition and Theory 129
 - C. Emotional Imagery and Text Processing 131
- III. Research: Script, Image, and Behavior 134
 - A. Experiment I 136
 - B. Experiment II 139
 - C. Experiment III 141
 - D. Experiment IV 143
- IV. Clinical Implications of Imagery Theory 145

A.	Imagery and Behavior Change	145
B.	Reality and Image: The Participatory Set	147
V.	Summary and Conclusions	149
