METHODS** 1

Theoretical Perspectives 1

Freudian Theory 3

Trait Theory 6

Social Learning Theory 9

Cognitive-Developmental Theory 13

Ethological Theory 19

Research Methods 20

Methods for Studying Age Changes 20

*Methods for Studying
 the Determinants of Development* 22

*Recognizing the Child's Contribution
 to Development* 28

Summary 32

2 SOCIAL RELATIONSHIPS IN INFANCY 34

The Construct of Attachment	35
<i>Definition of Attachment</i>	35
<i>The Measurement of Proximity Seeking</i>	35
<i>Satisfying the Specificity Criterion</i>	37
<i>Stability of Attachment Relationships</i>	37
Theories of Attachment Formation	38
<i>Freudian Theory</i>	39
<i>Cognitive-Developmental Theory</i>	40
<i>Ethological Theory</i>	41
<i>Learning Theory</i>	43
The Developmental Course of Attachment	44
<i>Early Steps in the Bonding Process</i>	44

<i>The Gradual Emergence of Discriminated Attachments</i>	48
<i>To Whom (and What) do Infants Become Attached?</i>	49
<i>Situational Influences on Attachment</i>	50
The Causes of Attachment	52
<i>The Quantity of Caregiving</i>	52
<i>The Quality of Caregiving</i>	52
Individual Differences in Attachment: Secure and Insecure Attachments	55
<i>Assessment of Secure and Insecure Attachments</i>	56
<i>Causes of Secure and Insecure Attachments</i>	57
<i>Consequences of Secure and Insecure Attachments</i>	59
Attachment Failure and Loss	60
<i>Effects of Attachment Failure</i>	61
<i>Effects of Attachment Loss</i>	62
Effects of Infant Day Care	63
<i>Day Care and the Mother-Infant Relationship</i>	64
<i>Day Care and Peer Relations</i>	66
Parents' Attachments to Their Offspring	66
<i>The Infant's Contribution to Parental Affection</i>	66
<i>Premature Infants as a High-Risk Group for Breakdowns in Parental Affection</i>	67
<i>Parents' Upbringing as a Factor in Their Affection for Their Infant</i>	68
<i>Maternal Fear of Separation</i>	69
Father-Infant Interaction	69
<i>Fathers' Participation in Caregiving</i>	69
<i>Stylistic Differences in Mother- and Father-Infant Interaction</i>	70
Infants' Reactions to Strangers	71
<i>Age Changes in Infants' Reactions to Strangers</i>	71
<i>Explanations of Stranger Anxiety</i>	72
<i>How a Stranger Becomes a Friend</i>	74
Summary	74

3 SOCIAL LEARNING: CHILD-REARING PRACTICES AND THEIR EFFECTS 78

Theories About Child-Rearing Practices 79

Social Learning Theory 79

Attribution Theory: A Provocative New Perspective 80

Other Theories of Discipline 82

Another Warning About the Child-as-Effect Model 82

Appraising the Techniques of Socialization 83

Techniques for Eliminating Behavior 83

Techniques for Strengthening Behavior 92

Global Styles of Parenting and Their Effects 98

The Factor-Analytic Approach 98

Baumrind's Typology of Parenting Styles 100

Influences on Parents' Behavior 101

Child Effects 101

The Family's Social Position and Stress on the Family Unit 103

Child Abuse 104

Is There a Recipe for Successful Child-Rearing? 105

Toward a Developmental Model of Socialization: Integrating Principles of Social Learning and Causal Attribution 106

Summary 108

4 SOCIAL LEARNING: THE ROLE OF MODELING 110

Theories of Modeling 111

Freudian Theory and its Derivatives 112

Cognitive-Developmental Theory 116

Contemporary Conditioning Theory (or Response-Reinforcement Theory) 119

<i>Bandura's Social Learning Theory</i>	120
Component Processes in Observational Learning	125
<i>Attentional Processes</i>	125
<i>Representation and Retention Processes</i>	126
<i>Behavioral Production Processes</i>	127
<i>Motivational Processes</i>	128
Television and Social Learning	130
<i>Television Viewing Patterns</i>	130
<i>Effects of Television Viewing</i>	130
Modeling as a Tool of Behavior Modification	132
<i>Reducing Fears Through Modeling</i>	133
<i>Teaching New Skills Through Modeling</i>	135
Summary	135

5 **SOCIAL COGNITION: UNDERSTANDING THE SELF AND OTHERS** 137

Theories of Social-Cognitive Development	138
<i>Cognitive-Developmental Theory</i>	138
<i>Social Learning Theory</i>	140
<i>Attribution Theory</i>	142
Acquiring a Sense of Self	142
<i>Steps in Self-Concept Development</i>	143
<i>Dimensions of Self-Concept</i>	144
<i>Determinants of Self-Concept</i>	146
Person Perception	149
<i>Age Changes in Children's Perceptions of Others</i>	149
<i>The Development of Racial Stereotypes</i>	150
Causal Attribution	151
<i>Learning the Typical Causes of Everyday Events</i>	151
<i>Distinguishing the Accidental from the Intentional</i>	153

<i>Perceiving an Actor's Motive</i>	154
<i>Attribution of Responsibility: Is the Person or the Situation to Blame?</i>	154
<i>Schemas for Inferring Multiple Causes</i>	156
Taking the Role of the Other	158
<i>Piaget's Classic Experiment</i>	158
<i>Role Taking: One Skill or Several?</i>	159
<i>Developmental Trends in Role Taking</i>	160
<i>Egocentrism as a Response Bias, Not a Basic Stage</i>	161
<i>Social Influences on Role Taking Development</i>	162
<i>Interpersonal Problem Solving: A Broader Perspective on Role Taking</i>	163
Cultivating a Sense of Humor	163
<i>Humor as Tension Appraised as Safe</i>	164
<i>Humor as Incongruity and Its Resolution</i>	164
Summary	165

6 THE DEVELOPMENT OF MORALITY AND SELF-CONTROL 168

The Construct of Morality	169
<i>Are There Varieties of Morality?</i>	169
<i>Relationships Among the Varieties: A General Conscience or Specificity?</i>	171
The Development of Moral Reasoning	172
<i>Piaget and Kohlberg: Some Commonalities</i>	173
<i>Piaget's Theory</i>	174
<i>Kohlberg's Theory</i>	176
<i>The Social Learning Theory of Moral Judgments</i>	180
<i>Attribution and Moral Judgments</i>	181
The Development of Self-Evaluation	182
<i>Freud's Theory of Conscience</i>	182

Conditioning Views of Guilt and Self-Criticism	183
Hoffman's Emotion-Attribution Analysis of Guilt	184
Bandura's Information-Processing Approach to Self-Regulation	184
The Development of Resistance to Deviation	187
Theories of Resistance to Deviation	187
Child-Rearing Influences on Resistance to Deviation	188
Cognitive Factors in Resistance to Deviation	189
Situational Influences on Resistance to Deviation	193
An Integrated Social Learning/Causal Attribution Model of Internalization	194
Summary	195

7 AGGRESSION 197

The Construct of Aggression	198
The Problem of Intent	198
The Problem of Types of Aggression	199
Anger, Hostility, and Assertiveness	200
Theories of Aggression	200
Trait Theory	200
Drive Theory: Freud and the Frustration-Aggression Hypothesis	202
Ethological Theory	203
Learning Theories	204
The Social-Cognitive Perspective	206
Biological Bases of Aggression	208
Frustration and Aggression	210
Does Frustration Inevitably Cause Aggression?	210
Is Frustration an Inevitable Antecedent to Aggression?	212
Is the Catharsis Hypothesis Supported?	212

- What Causes Displaced Aggression?* 214
- Summary Evaluation of the Drive Concept* 215
- Acquisition of Aggression Through Aversive Interpersonal Control 215
- Patterson's Theory of Aggression as "Coercive" Behavior Elicited and Negatively Reinforced by the Family* 215
- Parental Discipline and Aggression* 217
- Acquisition of Aggression Through Positive Reinforcement 219
- Modeling Influences on the Development of Aggression 220
- Witnessing Violence Increases Aggression Against Real People in Real-Life Settings* 221
- Children Imitate Aggression Even When They Are the Victims* 222
- The Effects of Aggressive Modeling Are Not Fleeting* 222
- Characteristics of the Modeled Aggression Influence Its Effects* 223
- The Closer the Viewer's Predicament Matches the Model's, the Greater the Imitative Aggression* 223
- Characteristics of the Observer Influence the Effects of Media Violence* 224
- By Disapproving of Modeled Aggression, Socializing Agents Can Reduce Its Harmful Effects* 224
- Viewing Violence Has Other Deleterious Consequences* 224
- The Role of the Victim 225
- Moral Development and Aggression 226
- Children's Moral Judgments of Aggression* 226
- Self-Evaluation and Aggressive Behavior* 226

<i>Remove Stimuli that Elicit Aggression</i>	230
<i>Eliminate the Payoff for Aggression</i>	230
<i>Elicit and Reward Behavior Incompatible with Aggression</i>	231
<i>Teach Children to Monitor and Control Their Own Behavior</i>	232
Summary	232

8 PROSOCIAL DEVELOPMENT 234

The Construct of Altruism	235
<i>Definition and Measures of Altruism</i>	235
<i>The Problem of Underlying Motivation</i>	236
Theories of Prosocial Development	237
<i>Trait Theory</i>	237
<i>Learning Theories</i>	238
<i>Cognitive-Developmental Theory</i>	239
<i>Sociobiology</i>	240
Socialization Influences on Prosocial Development	241
<i>Child-Rearing Practices and Prosocial Development</i>	241
<i>Modeling Influences on Prosocial Development</i>	245
Situational Influences on Prosocial Behavior	248
<i>The Presence of Bystanders</i>	248
<i>Mood</i>	249
<i>The Work and Play Environment</i>	250
<i>Characteristics of the Recipient</i>	251
Social Cognition and Prosocial Behavior	252
<i>Children's Understanding and Use of Norms</i>	252
<i>Moral Reasoning and Altruism</i>	255
<i>Empathy and Role Taking</i>	256
<i>Self-Perceptions</i>	258
Summary	259

9 SEX DIFFERENCES AND SEX TYPING 262

- Sex Differences 263
